

In gliding them and then disposing of them at 91 cents to people who believe that luck and a horsehoe are one and inseparable.

O'Shea, having turned against Mr. Farrell and joined the band of informers and forgers-mongers in the employ of "The London Times," has naturally been called as the first witness to testify against the Irish leader's alleged signature.

Did President Cleveland do right or wrong when he suspended District Attorney Benton and District Attorney Stone for making political speeches in 1886? The reformers said he did right and applauded his course.

Any Republican who is lured by false boasts, coaxed by specious arguments, prevailed upon by unworthy influences, to vote for any other than the candidates of his own party for Congress is unworthy to associate with high-minded and honorable Republicans.

There are so many Democratic candidates in the field in almost every Assembly district for Assemblymen and Aldermen that Republicans have the most tempting opportunity possible this year in a number of the districts now represented, both at Albany and in the Board at the City Hall, by Democrats.

We have heard a great deal this year about the intense interest of Democrats in the election, but the demonstration of the business men of New-York in honor of the Republican platform, principles and candidates was the surest possible evidence that in party zeal, in determination to win by every fair means, and in eagerness to testify by visible signs their enthusiasm for the cause, the Republicans of this city are far superior to their Democratic friends, the enemy.

PERSONAL.

The announcement of the death of John M. Schleyer, the inventor of "Volapuk," is contradicted by Mr. Schleyer himself in his paper, the "Volapukablad Zensidik." He says he has been dangerously ill and even received the last sacraments of the church, but he has been cured by the baths of Baden.

Mr. John Pike died on Wednesday next began at Worcester, Mass., the course of lectures on "The Beginnings of New-England" which he delivered in this city last winter.

It is proposed to erect a statue of Robert Burns at Toronto, Canada.

Mr. Labouchere in "Truth" strongly opposes the project for putting up a memorial to Theodore Hook, whom he describes as a most undesirable individual with a taste for vulgar and brutal practical jokes.

Senator Dawes has just celebrated his seventy-second birthday in vigorous health and buoyant spirits.

There is told a pathetic incident in connection with the death of Judge McAllister, of Chicago. Some time ago a number of his warm admirers got together, and in order to pay a well-merited tribute to their eminent friend, committed the error of their ways, and made a bronze bust and several other mementoes to the Judge.

When he walks about his country estate Park Blarney is always accompanied by a body-guard of two stalwart soldiers.

THE TALK OF THE DAY.

Says a well-known Methodist minister of this city: "There should be special legislation in all the States to meet the cases of Methodist ministers who, because of a change of appointment from one State to another, lose their vote. I came from Connecticut to New-York last April, and therefore cannot vote in the election of this year. My residence here, inasmuch as I have no other, is in New-York. It is certainly a great hardship, to which citizens should not be subjected. And I hope that the next New-York Legislature will set the example to the other States by so amending the election laws as to allow Methodist ministers whose appointments are changed to vote, even though they have not been a year in the State."

Well, Tompkins, how did you come out at the last meeting? "As nearly as I can figure it, I came out about 175."

"Fifteen hundred? That's not bad. What did you do back?" "I had about \$1,500 worth of what I did not do."

"The Waterbury American" tells this story of a white young man who, while attending service in a Waterbury colored church, was guilty of the impudent presumption of calling at the house of a certain beauty, whose wife opened the door. "What's the good of your knocking, sir? aren't you the master of our own houses?" ungraciously demanded the good woman, when she saw who he was. "But I never think of entering a lady's house until she has given me permission to do so," blandly replied the King with his most courtly bow.

My dear friend— My eyes are wet, my heart is full— O tell me you have guessed— He has my name, dear Mr. Bull, To sack your Sachville West, Believes me that I made him go.

When first the letter came to light, I sneered a feeble sneer, And Bayard said 't would not be right For me to interfere! Why then on L. S. Sachville West Do I no longer doze? I'm sure, dear Bull, you must have guessed, I feared the Irish vote!

The country 'gainst me was arrayed, The papers flamed the flame, My party's leaders were I played A shilly-shally game! And so it was I banded your West, But not for what he wrote, O, my, my motive stands confessed— I feared the Irish vote!

system of heating the cars from the locomotive, and at least 2,500 cars are thus equipped.

"I tell you," said a traveling man to a companion on the train, "you never watch me playing set-on-up again with Bill Serviss."

"Why not?" "Because I saw him turn up a jack of the bottom of the deck."

"Nichee take unto themselves wings an fly away," said the teacher. "What kind of riches mean I mean, my health ain't none of the best. I've got this cough two years."

After close competition with English and French manufacturers, a Pittsburg firm received an order from the Japanese Government for two model 40-ton locomotives to be used on the Paranal Railroad in the island of Yesso. It is said that the American locomotives and cars now in use in Japan are in high favor with the Government, because of their ability to climb steep grades than the English engines.

THE WEEK IN SOCIETY.

BRILLIANT WEDDINGS PAST AND TO COME.

THE HAPPY COUPLES AND THEIR FRIENDS—A DANCE AT TUXEDO.

Mendelssohn and Wagner have played an important part in the festivities of the week, rather the music which they composed, and no wedding seems to be complete without the capital music from "A Midsummer Night's Dream," which was written for a "Midsummer Night's Dream." Little did these composers dream what a boon they would be to brides of many decades, who pass by the dainty music of Jensen or other quaint strains of Grieg or Soderman. There will be yet some weeks before the entrancing strains of Strauss and Waldteufel will become powerful rivals to the more stately music of Mendelssohn and Wagner. The first announced of the kind was that of the wedding of Miss Matilda Grosvenor Goodridge and Governor Morris Carnochan, which took place on Tuesday evening at the residence of the bride's mother, Mrs. William Astor, on December 10. The remaining balls of the subscription are appointed for February 4 and March 4, the latter coming on the night of the Inauguration Ball and the day before Shrove Tuesday, and thus it may be seen that the fashionable season will be a long one. The New-York Ball, an idea of Ward McAllister's, has evidently come to stay, and will be held on January 2, when the narrow limit placed on the subscription, considerably widened. Mrs. William Astor will give a ball at her residence, and it is said that the dinner dances, which came into vogue two years ago, will form an important feature of the winter. It will be necessary to form a new set of patronesses for the Saturday Evening Dancing Class as the ladies who worked so hard for the success of the class last winter will be called upon to act as chaperones to their daughters and young relatives, who are to be the debutantes of this winter.

On Tuesday a large party went to Riverside for the wedding of Miss Matilda Grosvenor Goodridge and Governor Morris Carnochan, which took place on Tuesday evening at the residence of the bride's mother, Mrs. William Astor, on December 10. The New-York Ball, an idea of Ward McAllister's, has evidently come to stay, and will be held on January 2, when the narrow limit placed on the subscription, considerably widened. Mrs. William Astor will give a ball at her residence, and it is said that the dinner dances, which came into vogue two years ago, will form an important feature of the winter. It will be necessary to form a new set of patronesses for the Saturday Evening Dancing Class as the ladies who worked so hard for the success of the class last winter will be called upon to act as chaperones to their daughters and young relatives, who are to be the debutantes of this winter.

On Tuesday a large party went to Riverside for the wedding of Miss Matilda Grosvenor Goodridge and Governor Morris Carnochan, which took place on Tuesday evening at the residence of the bride's mother, Mrs. William Astor, on December 10. The remaining balls of the subscription are appointed for February 4 and March 4, the latter coming on the night of the Inauguration Ball and the day before Shrove Tuesday, and thus it may be seen that the fashionable season will be a long one. Mr. Phelps is accompanied by his wife on the present trip. His sailing-master is Captain Halney, and he has a crew of 100 men. The first stop will be made at the Bermudas.

DUCK SHOOTING AT HAVER DE GRACE.

SPORTSMEN SWARMING AROUND THE MOUTH OF THE SUSQUEHANNA.

Haver De Grace, Md., Nov. 3 (Special).—The gunning season on the Susquehanna flats opened yesterday, and to-day the river was covered with sporting craft of all descriptions, from the flat-bottom used by the bushwhackers to the large sailing and steam yachts, conspicuous among which was the new and handsome steam yacht Susquehanna, belonging to Joseph Sweeney, of New-York. An unusually large number of sportsmen are on the flats to-day. Among them were General Schofield and aid, as guests of John G. Wainwright, on his beautiful yacht "Rockless"; F. W. Roebeling, of Trenton, and Judge Dickerson, of Philadelphia, with Mr. G. W. Barnes, E. Hayward McAllister, of New-York, and A. Nelson Lewis, of Philadelphia, with Robert F. McGow. Some of the craft scored yesterday and to-day as high as 500 birds. The quality of the ducks, with the exception of retheds, which are pretty good, is as yet poor, and prices are low. Canvasbacks bring about 17, retheds 75 cents to 81 and blackheads 50 cent per pair.

The first duck shooting to be found in this country is said to have taken place on the Susquehanna flats. There are the Susquehanna flats, covering an area of several square miles. On these flats grow the choicest celery, which combined with the shallowness of the water, makes the spot most attractive to the waterfowl. The object of the shooting is to govern the flats, and collect quite a revenue from the boats engaged in shooting. The days of the week are as follows: Monday, Tuesday, Wednesday, and Friday. The ducks are shot on Monday, Wednesday, and Friday.

TEACHERS' FAIR AT MANHATTAN TRAINING.

About 250 teachers met yesterday at No. 9 University place, in answer to a call signed by Nicholas Murray Butler, president of the Teachers' Training Association, New-York; James McAllister, Superintendent of Schools, Philadelphia; Henry M. Leipsic, director of the Hebrew Technical Institute, New-York, and Miss Josephine C. Locke, formerly supervisor of Drawing, St. Louis. The object of the meeting was to discuss a manual training in the schools. The meeting was called to order by Dr. Butler, and N. A. Calkins, Assistant Superintendent of Schools in this city, was made permanent chairman. Miss Locke said that persons employed in the kindergarten, manual training and art schools were working in individual lines, without proper unity of purpose. It was hoped that through the organization about to be perfected the aims and labors of the various classes of schools could be so united as to all have a bearing upon bringing out a full, rounded course of education training, from the kindergarten to the more advanced schools. Addresses were delivered by Mr. Calkins, Mr. Dutton, of New-Haven; Mr. Leipsic, Mr. Hoffman, Miss Locke, and Mr. Leipsic. The meeting was adjourned to the 10th inst., at 7 o'clock, at the Hotel Hamilton, New-York, Canada.

HUNTING AND A BALL IN
