

MONEY IN BANK PILING UP

THE FAVORABLE STATEMENT CAUSES PROFIT-TAKING.

STOCKS IRREGULAR, BUT IMPROVING. FEW DOUBTS AS TO THE EFFECT OF THE MEETING OF CONGRESS—NO DIVIDEND ON GENERAL ELECTRIC PREFERRED.

The bank reserves yesterday mounted to even higher figures than were shown in record-breaking statements of a few previous weeks. The reserves reported a gain in total of \$2,375,000 and of \$4,854,000 in legal tenders, a total of \$7,229,000 in legal money held. The surplus reserve was increased \$5,261,725. The gain in the deposits amounted to \$12,032,593, and there was an increase in loans of \$1,288,400. Bankers are almost apoplectic at the continued piling up of money, for it represents a withdrawal of capital, but there is no indication of an early cessation of the accumulation. The expansion in loans last week is said to represent little permanent extension of credit, part of the increase being due to advances on grain and cotton, which will be cancelled when the commodities are exported, and part of it representing renewals of purely speculative accommodations. The weekly statement showed that the banks had a corresponding \$197,330,330, against \$188,200,000 the corresponding week of 1892 and \$122,500,000 in 1891. The surplus reserve amounts to \$7,229,000, against \$6,453,750 in 1892 and \$12,333,625 in 1891. The loans aggregated \$49,408,100, compared with \$41,628,200 in 1892 and \$41,918,100 in 1891. The deposits amount to \$487,745,200, against \$464,861,800 in 1892 and \$435,780,100 in 1891.

The temper of Wall Street was not very different yesterday as on Friday, notwithstanding the big gain in money. The publication of the bank exhibit was the signal for some talking of profits, and there were not a few reactions in prices in the stock market. The importance of the big blue failure was not fully apparent when the market opened, but its influence was slightly detrimental. The industrial stocks were particularly prominent. The news from Boston to the effect that the directors of the General Electric Company had formally voted to pay no dividend on the cumulative preferred stock caused some selling, although this action had been rather expected. The common stock fell nearly 2 per cent to 35 1/2, and closed at 35 1/2. Washington dispatch quoting Secretary Carlisle's exchange pressing hostilities to 25 1/2, 25 1/2, but American Sugar Refining rose from 8 1/2 to 8 3/4, the trailing element buying on the theory that the recent fall in value had "discounted" the effect of the proposed new duty. Chicago Gas, which has been sold vigorously on the rumors that the new dividend would be paid in cash, rallied only 1/2 per cent net.

The railway bill generally closed easier, but the principal declines were in the Michigan and Union Pacific. The last named stock sold from 23 1/2 to 22 1/2, and closed at 22 1/2. The Michigan stock sold from 23 1/2 to 22 1/2, and closed at 22 1/2. The Union Pacific stock sold from 23 1/2 to 22 1/2, and closed at 22 1/2.

AMOUNT OF MONEY IN CIRCULATION

AN INCREASE OF NEARLY \$4,000,000 IN NOVEMBER—HEAVY COINAGE OF GOLD. Washington, Dec. 2 (Special).—The Treasury Department's monthly circulation statement, issued to-day, shows a net increase in the circulation during November of \$4,000,000, against an increase of \$1,200,000 during the preceding month of October. The notable changes last month were an increase of nearly \$7,000,000 in gold coin and about \$1,500,000 in currency certificate circulation, and a decrease of \$1,200,000 in greenback circulation. The total circulation of the country on December 1 is placed at \$1,736,949,200, or a per capita of \$25.27, against \$1,614,706,200 on December 1, 1892. Gold coin circulation during last month increased \$5,938,222; currency certificates, \$10,890,000; silver certificates, \$2,704,765; and subsidiary silver, \$1,231,888. On the other hand there were decreases of \$6,223,225 in Treasury note circulation, \$1,965,669 in National Bank notes, \$728,230 in gold certificates, \$299,896 in standard silver dollars, and \$48,176 in silver Treasury note circulation. During last month there was a net increase of \$16,511,833 in the Treasury money and bullion fund. Greenback holdings were increased \$19,629,856. National bank notes, \$1,411,731, and silver Treasury notes, \$2,941,067, were also increased. Standard silver dollars, \$1,600,714. In gold bullion holdings the Treasury lost during the month \$7,746,621, and \$1,248,417 in subsidiary silver. Treasury money and bullion holdings to-day, in round numbers, are: Gold coin, \$7,000,000; gold bullion, \$9,000,000; standard silver dollars, \$9,000,000; subsidiary silver, \$1,200,000; Treasury notes, \$1,200,000; greenbacks, \$5,500,000; National bank notes, \$1,200,000; and silver Treasury notes issued under the Sherman act, \$2,300,000.

MAY TAX INDIVIDUAL INCOMES

SENTIMENT GROWING IN FAVOR OF THAT PLAN—WORK ON INTERNAL REVENUE SCHEDULES. Washington, Dec. 2.—A tax on individual incomes may yet result from the discussion of the proposition for an income tax. For the last week it has been expected that the tax would be placed only on corporations and legacies. The probability that the next week the tax will be extended to individuals causes some of the members of the committee to believe that, after all, the tax ought to be made general, fixing the exemption at \$1,000 a year. The committee formally discussed the matter to-day, but there is apparently a stronger sentiment to-night in favor of a general tax than at any time since the subject was first broached. It is thought, except \$30,000, that the tax on individuals should be placed on the same basis as that on corporations, and that the exemption should be \$1,000 a year.

WINDING UP THE IRON HALLES AFFAIRS. AN IMPORTANT DECISION BY JUDGE WINTERS IN INDIANAPOLIS. Indianapolis, Dec. 2.—Judge Winters this morning handed down his decision in the Iron Halle case. He continues the receivership and orders the receiver to close up the affairs of the order and distribute its assets among the members. The decree entered upon the decision is voluminous, its chief point being that all of the 6,000 members who have revolted against the receivership, in this State or elsewhere, shall not share in the final distribution of assets unless the funds now in their possession are promptly turned over to the receiver. The funds have already distributed to the members are shut out as beneficiaries. The receiver is ordered to close up the affairs of the order and distribute its assets among the members. THE LUMBER SCHEDULE. VIEWS OF PENNSYLVANIA LUMBERMEN ON THE PROVISIONS OF THE WILSON BILL. Williamsport, Penn., Dec. 2 (Special).—The placing of lumber on the free list is the sole topic of discussion here among the merchants who handle it and the workmen engaged in the mills and lumber yards. The majority are against it, while some hardly see any harm in the part of our neighbors beyond the lakes to cut prices, and in all probability will be ready to accept of other means and methods to compete, then it will have to come off the laborer's back.

MINOR BUSINESS EMPLOYMENTS. Peter J. Brennan, builder, has brought suit in the Supreme Court against "Simpson's," a Kentucky corporation which manufactured confectionery at No. 41 West Twenty-third-st., to recover \$12,308, which he claims to be due on the alteration of the building at No. 34 West Twenty-third-st. The suit was brought to the Supreme Court on May 1, if possible, but it was not ready until August 1. Mr. Brennan says the delay was not his fault, but was due to acts and omissions of the company.

THE TARIFF TINKERING SHUTS DOWN WORKS. The works of the Nairn Linoleum Company in Kearny, N. J., where 200 men are employed, have shut down. Peter Campbell, treasurer of the company, says the shutdown was caused through "the way of the result of the tariff tinkering." The works of the Nairn Linoleum Company in Kearny, N. TO KEEP SCHOOL BOYS FROM SMOKING. COMMISSIONER HUBBELL TO TRY TO INDUCE THEM TO JOIN AN ANTI-CIGARETTE LEAGUE. Commissioner Charles B. Hubbell, of the Board of Education, has started a crusade against cigarette smoking among the boys in the public schools. His plan is to form in the grammar and primary departments of each school an anti-cigarette-smoking league, admission to which depends on the signing of a pledge to abstain from smoking.

PAULINE CUSHMAN'S PROBABLE SUICIDE. San Francisco, Dec. 2 (Special).—Veterans of the Rebellion were grieved to learn late this afternoon of the death, probably by her own hand, of Pauline Cushman, the famous female scout, who was last seen in New York in the company of her husband, who was believed to have been in the city for some time. She was found in a cheap Market-st. lodging-house, where she had been living, suffering from an overdose of morphine.

RECEIVER FOR FIELD, LINDLEY, WIECHERS & CO. Norman S. Dike, of this city, was appointed receiver yesterday for the insolvent firm of Field, Lindley, Wiechers & Co., of Mount Vernon, N. Y., which was declared insolvent by Judge Dykman sitting at Mount Vernon. The assignment by the firm to Gould was declared fraudulent and set aside by Judge Dykman in a suit brought by Robert Dietz, a creditor of the firm, and the receiver will take care of the firm's business in the meantime.

MEETINGS AND ENTERTAINMENTS. The Rev. Dr. Bradin Hamilton will read a paper on "Toynbee Hall," the Oxford and Cambridge universities settlement in East London, before the New-York Churchmen's Association, to-morrow afternoon, at 2:30 o'clock, at Clark's restaurant, No. 2 East Twenty-third-st. Dr. Hamilton is a graduate of an English university and an associate of Toynbee Hall, and knows much about methods of social and moral reform.

SPAIN-AMERICAN TOPICS. The United States continues to be the principal purveyor of agricultural and industrial machinery for the Spanish-American countries. At the end of October the steamer Centor landed in Valparaiso a cargo composed of 300 tons of agricultural machinery, to be forwarded to the city of Talcahuano for the use of the farmers in the neighborhood, and 1,500 packages for Valparaiso. To this cargo, which came from the United States, can be added that of the steamer which had already brought agricultural machinery. This is one more evidence of the increasing development of agriculture in Chile, especially in the southern districts.

HAD CANCELLED CHECKS IN HIS BAGGAGE. A young man who gives the name of James C. Love and one or two others is now detained at Ellis Island, and the authorities there believe that he is a suspicious character. He came over in the steamer of the Paris from Southampton, and appeared on the island of passengers as Hugh McKenna, twenty-nine years old. He was detained on suspicion of being a contract laborer. He denied that his name was McKenna and said it was Love. While trying to clear himself of the charge of being a contract laborer he excited the suspicions of the examiners that he was a "crook." His baggage was searched and in it was found a check for \$100, and a letter which showed that the person to whom it was addressed had been in an English prison.

DATES OF RECEPTIONS AT THE WHITE HOUSE. Washington, Dec. 2.—The following is an official list of dates of receptions, etc., at the Executive Mansion during the season of 1893: Monday, January 1, President's reception, 11 a. m. to 2 p. m.; Tuesday, January 4, Cabinet dinner, 7 p. m.; Wednesday, January 11, Diplomatic reception, 9 to 11 p. m.; Thursday, January 18, Diplomatic dinner, Saturday, January 25, Cleveland's reception, 5 to 6 p. m.; Thursday, January 25, Congressional and Judicial reception, 11 a. m. to 1 p. m.; Friday, January 26, Army, Navy and Marine Corps reception, 9 to 11 p. m.; Saturday, January 27, Reception for the President's family, 11 a. m. to 1 p. m. The programme for receptions on New Year's Day is similar to that of past years. Colonel J. M. Wilson, Commissioner of Public Buildings and

AN EXCITING NIGHT AT THE GARDEN. SEVERAL FOOTBALL PLAYERS ARE BARELY HURT AND A CROWD OF ANGRY ITALIANS RUSH ONTO THE FLOOR. The football game between the Varunas, of Brooklyn, and the Volunteers, of Harlem, at Madison Square Garden last evening, was won by the Volunteer players by a score of 12 to 4, after an exciting contest. Last year the Volunteers beat the Varunas and had blood was stirred up. There was a determination to have it out to-night, and the play was rough. Three of the Volunteers were injured. Kelly, one of the half-backs, had his right ankle broken and was carried off. Evans, the full-back, strained the ligaments of one of his legs so severely that he was compelled to stop, and Rankin, the left tackle, retired from the game with a sprained wrist.

TO START FOR BRAZIL TO-DAY. THE DESTROYER WILL FARE FORTH FOR FIGHTING WATILES. SHE WILL BE TOWED TO THE WEST INDIES BY THE SANTIAGO-FEARS FOR HER SAFETY IN THE VOYAGE DOWN THE STORMY COAST. The Destroyer will start for Brazil in tow of the steamer Santito to-day, and the war preparation in this port will be over, at least for a while. The Destroyer went out for a short spin yesterday and showed that she is in top means a slow boat. The Yarrow torpedo boat has been placed on the deck of the Santito, and the officers and crew for the outfit were all engaged yesterday. The America coasted by off the head of the West Indies by to-morrow if she stops at Barbados. It is possible, however, that she may put in at some West Indian port with which there is no cable communication, and that the first head of her will be when she arrives in Brazil, exactly as the Destroyer down the coast is in getting her safely to the West Indies, past the storms of the Atlantic and the Gulf of Mexico. The Destroyer will start for Brazil in tow of the steamer Santito to-day, and the war preparation in this port will be over, at least for a while.

DESTROYED BY PEIXOTOS GUNS. REPORTED FALL OF PORT VILLEGARSON, IN RIO HARBOR—REMOVED INVASION OF SAO PAULO. London, Dec. 2.—A dispatch from Buenos Ayres says it is reported from Rio Janeiro that President Peixoto's guns have recently destroyed Port Villegarson, in Rio Harbor—REMOVED INVASION OF SAO PAULO.

THE WILSON BILL GIVES THEM ALL THEY WANT FOR NOTHING. Ottawa, Ont., Dec. 2 (Special).—One strange effect of the proposed American tariff is being exemplified here. The friends of the present Tory Government of Canada expect it will prove the Government's salvation. Scandals of all descriptions have characterized the Government's lease of power. Corruption in every form has made its home with the Government. The enormous amount of money that has been paid for the Government's lease of power has not been paid for the Government's lease of power.

INSPECTOR WILLIAMS STOPS THE DANCE. HE RISES UP IN THE CAIRO VILLAGE AND FORBIDS THE EGYPTIAN GIRLS TO FINISH THE EXHIBITION. The art gallery of the World's Fair Palace Winter Exposition, in the Grand Central Palace, was thrown open to the public last evening. The pictures will remain on exhibition until January 24. There are about 60 of them in all, the larger part being works of eminent foreign artists from the Chicago Exposition in bond under the care of Dr. John Victor Pohl, the foreign commissioner. The best American artists are, however, also well represented by paintings which have been either exhibited in Chicago or are being shown by this exhibit from the artist's studios in this city. Morris Jockl is the manager of the gallery, and Max Rheinberg is his assistant.

MISS MARTHA WILSON DEAD. SHE AMASSED A FORTUNE AS A MILLINER IN THIS CITY, AND FOUNDED A HOME BEARING HER NAME. Miss Martha Wilson, founder of the Martha Wilson Home, Mount Vernon, died Friday evening at the home of Mrs. John Maher, No. 29 South Fourth-ave., Mount Vernon. Miss Wilson was born in Westchester, Westchester County, December 2, 1801. With her three sisters she engaged in the millinery business in New-York City and amassed a fortune. Almost a quarter of a century ago she retired to Mount Vernon with her husband, Harriet. Some years ago Miss Harriet died, but Miss Martha continued to live in Mount Vernon.

THE GRIP AGAIN PREVAILING. Baltimore, Dec. 2.—The grip is again an unwelcome visitor to Baltimore. Health Commissioner McShane this morning issued a public warning attack of the epidemic. When asked as to how prevalent the disease he is, he replied: "There are a number of cases throughout the city, but the disease has not become epidemic. I do not expect any serious result, and the only advice I can give is to warn the people to keep their feet warm, to keep their rooms well ventilated, and to avoid crowded places. It usually comes with a chill, followed by a high fever, and is accompanied by a headache. It is the fourth winter that the grip has visited Baltimore."

THE CHILDREN GREW FAT ON SCOTT'S EMULSION, BECAUSE FAT FOODS MAKE FAT CHILDREN. They are thin, and remain thin just in proportion to their inability to assimilate food rich in fat.
