

WISCONSIN CITIES IN PERIL. AN ICE GORGE DRIVES THOUSANDS FROM THEIR HOMES.

CHIPPewa FALLS AND Eau Claire LIKELY TO BE WIPED OUT IF THE JAM BREAKS—MILES OF FARMING COUNTRY UNDER WATER—GREAT SUFFERING FROM THE COLD.

Chippewa Falls, Wis., Dec. 1.—The Chippewa River is gorged at twenty points to-night, and the backing up of the water is becoming alarming. At this point the water has crept up the bridge to the postoffice, two blocks back from the river, and the water is now twenty-four feet above the low-water mark.

The latest report is that an ice gorge is forming just below the falls. It is the opinion of well-versed citizens that it will scatter the water on the lowlands above the falls, and give the water below a chance to recede. At Flambeau River the river ran over its banks, destroying 300 head of the stock and ruining a dozen farms and buildings.

There is much excitement in Chippewa Falls, but everything is orderly. About fifty families on the South Side, who were forced to move out of their homes, were reported in want this evening, and relief was immediately dispatched. Some of these families had taken refuge in empty houses and were without food or warmth.

As far as known, no lives have been lost, but people living on the Chippewa bottoms at Durand have been rescued with difficulty. Several families on the Buffalo County side were driven from their homes by the forming of a gorge at Plum Island.

The gorge began at West Newton on the Mississippi, and gradually extended up the Chippewa. Since Friday it has reached Round Hill, three miles below Durand.

The flood in the Wisconsin River continues, and at Granite Heights, ten miles north of Waunesa, the Chicago, Milwaukee and St. Paul tracks are under water for some distance.

A great deal of railway property is threatened, and many highway and railway bridges will probably be swept away. Below the immense gorge the river is practically dry, and when the jam breaks the body of water in the reservoir must carry destruction to the valley below.

There is a total suspension of railway traffic on the Wabash and Durand section of the same road.

A locomotive runs down a fire engine in Everett, Mass.

Stevens Point, Wis., Dec. 1.—The water in the Wisconsin River at this place has reached a point only three feet below the great high-water mark of 1881, when this town was flooded.

At present the streets several blocks back from the slough which runs through the city are flooded, and last night the people in the flooded districts carried all their goods from the cellars upstairs. Beds and outhouses were flooded, and the owners of stock were compelled to secure quarters for them on higher ground.

Water is over 50 feet above low-water mark, and should it continue to rise the lower parts of the town will be flooded. A dike was built a number of years ago for the protection of a large part of the residence portion of the city, but this has now fallen into disrepair, and if the threatened flood comes hundreds of families will be compelled to seek shelter on higher ground.

Indiana, Dec. 1 (Special).—The glass manufacturers left town this evening feeling in the happiest mood and thus it is judged that some amicable arrangement was reached so to please both the Eastern and Western men. The two sections were at odds most of the day because of a desire of the Eastern manufacturers to gain some concession which would equalize the advantage that the Western manufacturers have in natural gas.

What is the agreement, the parties interested desire to say, but they reiterated as if they saw large profits ahead. There will be a selling agency at Pittsburg and one at Muncie. Manager Hart, of the Muncie agency, told the assemblage, however, that the press of business would prevent him from leaving the office another year, and it was agreed to meet Friday at Muncie, when his successor will be selected. The factories will all begin operations December 14.

New-Haven, Conn., Dec. 1 (Special).—The city and town election held here to-day caused the worst political middle in years. There is little doubt that the rest of the Republican ticket went through safely.

ANOTHER HOUSE FOR CLEVELAND. IT IS REPORTED THAT HE HAS BOUGHT ONE IN NINETY-SIXTH-ST.

Albany, Dec. 1 (Special).—It is reported here that President Cleveland has bought, in addition to the property at Princeton, a handsome house in Ninety-sixth-st., New-York. It is said that the price was \$250,000.

A Tribune reporter tried last night to see W. C. Whitney and learn if he knew anything about the reported purchase by the President, but could not. The reporter subsequently saw Francis Lynde Stetson, formerly one of Mr. Cleveland's law partners, but Mr. Stetson, who has not seen the President since the wedding of Miss Whitney, about a year ago, said he had heard nothing of such a purchase.

KEEPER WHITE ARRESTED. THE CHARITIES BOARD'S CHARGES TURNED OVER TO THE DISTRICT ATTORNEY.

The Commissioners of Charities yesterday decided, after a consultation at Bellevue Hospital, to turn over the case of Morgue-keeper White, who is accused of wrongfully disposing of three bodies entrusted to his care, to the District-Attorney and the Corporation Counsel. The Commissioners after the conference laid the case before the District-Attorney.

In accordance with the action of the Commissioners, Morgue-keeper White was arrested last night by Detectives McNaught and Birmingham, on the charges made by the Charities Board. He was locked up at Police Headquarters.

President Croft of the Charities Department said last night that the action against White was only taken after a long and careful examination, which was prompted by suspicions that a traffic in bodies was being carried on at the Morgue. White was suspected and finally the corpses were directly traced as having been improperly disposed of. This disclosure resulted in the suspension of the Morgue-keeper.

Mr. Croft said that on Monday night the Commissioners of Charities got possession of three checks alleged to have been cashed at the Morgue. The purpose of dissection, and evidence was obtained to show that the illegal sale of bodies from the Morgue had assumed large proportions, and that the sum of dollars had been annually paid for them. With this evidence the Commissioners consulted the Corporation Counsel, who advised that the case should be under the jurisdiction of the District-Attorney's Office. The case was then placed in the hands of the District-Attorney, who is now conducting a full-scale investigation of the matter and secured the arrest of White, who may be indicted.

NEW LIGHTS FOR ELEVATED CARS. THE PINTSCH SYSTEM ADOPTED BY MANHATTAN DIRECTORS.

The Executive Committee of the Board of Directors of the Manhattan Railway Company, at its meeting yesterday, decided to adopt the Pintsch system of lighting on the elevated railways.

George J. Gould, president of the Manhattan Company, said: "After a thorough investigation of the question of lighting the cars on the elevated roads in compliance with the requirements of the Legislature, it was decided to adopt the Pintsch system, as the best system. Accordingly, we shall go ahead and equip the cars as rapidly as possible. A contract with the Pintsch Company was executed to-day."

Under the law, the cars must be equipped by April 1. The Pintsch system is in use on the Broadway and Third-ave. cable-cars, and on the Pullman and Wagner sleeping and parlor cars. It is also in use in the passenger cars of the New-York Central, Pennsylvania and many other railroads.

LOTS OF BANK CHECKS WITH HIM. ARREST OF A MAN WANTED IN BAY CITY, MICH., FOR FORGERY.

Captain O'Brien, of the Detective Bureau, received a dispatch on Friday from N. S. Murphy, Chief of Police of Bay City, Mich., asking for the arrest of Richard Grant Monks, who is charged with forgery, and who is in this city under the name of Wellington Thornwaite at the general delivery window of the Postoffice. Detectives Flay and Murphy, of this city, who had been sent to keep watch at the general delivery window of the Postoffice, saw Monks approach the window yesterday morning, and heard him ask for a letter for Wellington Thornwaite. He had in his possession a lot of bank checks, a small revolver, a lot of cartridges, a big bundle of bank checks and a machine such as is used in stamping letters on checks. There were more than two hundred of the bank checks, printed for firms and banks in almost every State in the Union, including Illinois, Indiana, Colorado, Michigan, Kansas and Texas.

The prisoner was taken to the Centre Street Court yesterday afternoon, and was re-manded.

NO CIVIL SERVICE REFORM THERE. LEXOW GETS A PROMISE WITH REFERENCE TO THE LEGISLATURE'S EMPLOYEES.

Albany, Dec. 1 (Special).—Governor Morton and the three members of the State Civil Service Commission, Willard A. Cobb, Silas W. Burr and George P. Lord, held a conference to-day, which lasted practically all day, on the proposed new regulations for the Civil Service of the State and of the cities of the State.

Under the present law all officers "whenever practicable" shall be selected after a competitive examination as to their merits. The Legislature has agreed to pass laws putting the Constitution into effect. It has, therefore, no authority to do so. Governor Morton, however, can do much toward enforcing the competitive system, and in the hope of doing so, he has proposed to the Legislature that he will do so by approving regulations placing most offices in the competitive class.

The Governor and the Commission were debating the merits of proposed competitive regulations. The Governor is of the opinion that the Commission should be authorized to select the representative of the Republican organization, and his special mission was to see that the employees of the Legislature are not in the competitive class. He was soon reassured about this matter, being informed that Governor Morton and the Civil Service Commission had decided to place the employees of the Legislature from the regulation regarding competition.

The Governor and the Commission did not complete their work to-day, and they maintained separately until a week or more, when they will meet in the Legislature. The only subject of difference among them is as to the places which shall be exempted from the competitive rule.

RECEIVER ASKED FOR "THE ARENA." PHILADELPHIA, DEC. 1.—The new cruiser Brooklyn went into commission at the League Island Navy Yard this afternoon. The bluejackets and marines were in full dress on the quarter-deck, and then Captain Cook and his officers and Commandant Howell of the yard, appeared. The ship had been turned over to Commandant Howell by Captain Sargent, representing the builders, and the commandant transferred the vessel to Captain Cook. Captain Cook then read his instructions from the Navy Department, ordering him to take charge of the ship, and the ceremony was over. The exercises did not occupy more than ten minutes.

Captain Cook said that he expected the Brooklyn would leave the Navy Yard after receiving her from here to Hampton Roads, and will then proceed to Newport to receive her torpedoes. After that the cruiser will go to Tompkinsville, Staten Island, of the crew of 86 men, exclusive of the 1,000 marines, who are now here, and the remainder will remain in the Navy Yard this week.

A WOMAN PERISHES IN A BURNING HOUSE. BOSTON, DEC. 1.—Mrs. Joseph S. Brown, wife of Major Brown, was burned to death in a fire that destroyed her dwelling at No. 26 Fountain-ave., Somerville, early this morning. Major Brown was severely burned, a lodger escaped by jumping from a window of the building, and the children were rescued by their mother. Jack lost his life in the flames, after awakening the household by his barking.

THE DEMOCRATS CARRY HUDSON. HUDSON, N. Y., DEC. 1.—At the charter election in this city to-day the Democrats swept the city, and Richard A. M. Deley was elected Mayor by 34 majority. Alexander R. Benson was elected City Treasurer, and Charles W. Macey Assessor. The Democrats elected their Aldermen in all five wards.

HANNA AND THE CABINET. BELIEF IN CANTON THAT HE WILL ACCEPT THE NAVY PORTFOLIO.

HE HAS A LONG CONFERENCE WITH THE PRESIDENT-ELECT—GOSSIP NOW NAMES C. N. BLISS AS SECRETARY OF THE INTERIOR AND GENERAL ALGER AS SECRETARY OF WAR.

Canton, O., Dec. 1.—To Chicago visitors Mr. and Mrs. Mark A. Hanna, of Cleveland, Major McKinley gave much of his time to-day. Mr. and Mrs. Hanna came down this afternoon from Cleveland and will remain till Wednesday. Major McKinley and Mr. Hanna talked for two hours and a half this afternoon and had another long conversation in private to-night. It is the first time since the election that they have had an uninterrupted conference of considerable duration. The belief is current here to-night that Mr. Hanna has come to a decision respecting the Cabinet, and that he will be appointed Secretary of the Navy. In case Mr. Hanna becomes the Secretary of the Navy, it is believed that the present arrangement contemplates the appointment of Cornelius N. Bliss, of New-York, as Secretary of the Interior. Indications continue to point to the selection of General R. A. Alger, of Michigan, as Secretary of War. It can be stated with some degree of authority that the Cabinet will not be finally and completely formed before March 1.

Dr. L. N. Jamieson, chairman of the Republican State Committee of Illinois, had a long talk with Major McKinley this afternoon. Dr. Jamieson represents the regular organization, and he came to learn the views of the President-elect concerning it. Dr. Jamieson said the Republicans of Illinois had no one to suggest for the Cabinet, but the leaders would be glad to know whether any one from their State is likely to be selected for a place in Major McKinley's official family. He thinks there are a dozen men in Illinois who would be available for the Cabinet, and most of them would be acceptable to the regular organization. Dr. Jamieson is a friend of Senator Cullom, and does not think the Senator would care for a place in the Cabinet.

In reference to Charles G. Dawes, who has been talked of by the gossip for private secretary to the President, Dr. Jamieson said his appointment would not be opposed by the organization. "Mr. Dawes," said he, "was one of Major McKinley's original friends in the State, and worked industriously for his nomination. If the Major wants to reward Dawes I do not think any one in Illinois will lift a finger against him. It would not be seemly in any event to oppose the President's choice of a private secretary. It occurs to me that no one has a right to interfere in the selection of a man for personal appointment as yet of that nature." There is no confirmation as yet of the rumor that Dawes is to be Major McKinley's private secretary.

Another Chicago visitor to-day was E. C. Dewitt, president of the Marquette Club. The Marquette Club was one of the first clubs in the city to urge the nomination of McKinley, and he made one of his most noteworthy speeches before them. Mr. Dewitt says the members of the club have been earnest, and they feel that their wishes to a certain degree ought to be consulted in dealing with Illinois affairs.

Major McKinley had fewer visitors to-day than he has at any time since he came to Canton. A telegram announcing the coming of General C. G. A. R. to visit Major McKinley on Wednesday morning. A letter from Colonel J. C. Winans, chief of Staff, says that the National Guard will be in Canton on Wednesday morning, and will give a reception at the Hurford House parlors at noon, and every member is invited to call and meet their National commander.

BOMBARDED HIM WITH EGGS. STUDENTS AT JEFFERSON MEDICAL COLLEGE ATTACK SENATOR CANNON'S BROTHER FOR SMIRTING TO AN ORDER OF THE FACULTY.

Philadelphia, Dec. 1.—William Tenney Cannon, a student at the Jefferson Medical College, and a brother of United States Senator Cannon, of Utah, was pelted with eggs to-day by his fellow-students, on account of his recent order of the faculty of the Jefferson Medical College, which ordered the students to attend to their tuition fees before entering a lecture-room. The students took exception to this order, and determined to show their resentment by sending away from lectures. When Dr. Henry C. Chapman entered his classroom to-day to lecture on physiology Cannon was the only student on the benches before him. The other students were collected outside the door, and they held an impromptu indignation meeting, and a committee departed, and returned to the hall with some eggs. Cannon came out of the classroom at the end of the lecture he was greeted with a hail of indignation and a shower of eggs. He was plentifully bespattered Cannon, and he fled under a fusillade of the same missiles. Dr. E. E. Montgomery, professor of clinical gynecology, attempted to protect Cannon, and he was the target of the stones.

Cannon was seen to-night, and seemed to make light of the affair. He said his going into the lecture-room was a mistake, and he had been in the wrong. He said he will return to lectures to-morrow. Cannon said the faculty will take the matter without any learned.

THE BROOKLYN IN COMMISSION. BUILDERS OF THE NEW CRUISER TURN HER OVER TO THE GOVERNMENT.

Philadelphia, Dec. 1.—The new cruiser Brooklyn went into commission at the League Island Navy Yard this afternoon. The bluejackets and marines were in full dress on the quarter-deck, and then Captain Cook and his officers and Commandant Howell of the yard, appeared. The ship had been turned over to Commandant Howell by Captain Sargent, representing the builders, and the commandant transferred the vessel to Captain Cook.
