

ward, as the action of the French Government insures her safety.

USE OF THE FRENCH CABLE.

By a strange coincidence the French ownership of Martinique is bringing protests from both quarters, the United States as well as Spain, although those from this country are entirely unofficial and are expressly discountenanced by the State Department.

It was learned to-day that General Greely, Chief of the Signal Service, had laid down a strict rule for the cable company, to which the company fully acceded.

FUNERAL OF WORTH BAGLEY.

HOW THE ENSIGN WILL BE HONORED IN HIS NATIVE CITY.

Raleigh, N. C., May 14.—Arrangements were completed to-day for the funeral of Ensign Worth Bagley. The body will arrive here at 2 o'clock Monday morning, and will be taken to the home of his mother, Mrs. Adelaide Bagley, widow of the late Major William H. Bagley.

The funeral exercises will begin at 4 o'clock, and will be held in front of the statue of Washington, at the south end of the Capitol.

The funeral exercises will begin at 4 o'clock, and will be held in front of the statue of Washington, at the south end of the Capitol.

At the conclusion of this part of the ceremonies the procession will form as follows: Police, bugle and drum corps, two regiments of volunteers, corps of cadets, body on funeral car drawn by six horses all covered with black.

SOLDIER KILLED BY A TRAIN. Jackson, Miss., May 14.—J. M. Parker, a private of Company T, of the 10th Cavalry, was killed by a Southern passenger train on the Illinois Central Railroad this morning.

THINK THEY SAW A WARSHIP. St. John's, N. F., May 14.—Trepassey fishermen were on the fishing grounds yesterday say that a strange steamer was hovering about that neighborhood.

Two children were run down by a runaway horse at Graham-ave. and McKibbin-st. last night and received dangerous injuries.

THE CONTROL OF SEX.

DR. SCHENK ELABORATES HIS THEORY AS TO THE MOTHER'S DIET.

From The London Daily News: Vienna Dispatch. Professor Leopold Schenk's book will be published in German by the Vienna firm of Schönbach & Holtzbrunn to-morrow, and I owe it to the courtesy that I am able to send you to-night some account of the author's now famous theory.

REFUGEES FROM SAGUA LA GRANDE.

FORTY-FIVE CUBAN EMPATHIZERS BROUGHT IN BY THE BRITISH STEAMER STRATHIDE.

The British steamer Strathide, in command of Captain Currie, arrived at this port yesterday. The Strathide left Sagua la Grande, Cuba, on May 5 with forty-five passengers, all of whom are refugees.

REAR ADMIRAL DEWEY.

Our boys in blue have gone to thrash the boasting Spanish nation. Whose tyranny over Cuba disgraces all creation. Their medicine is shot and shell; the Spaniards now are quaking.

Economy & Protection

It costs \$35.00 to wire and protect your house from burglary for three months. How much does it cost you to leave servants or caretakers in the house?

Holmes Electric Protective Co., Havemeyer Bldg., 26 Cortlandt St., 518 Broadway, 720 Sixth Avenue, or any District Telegraph Office.

BOMBARDMENT OF SAN JUAN.

A PROMINENT NAVAL OFFICER'S CRITICISM OF ADMIRAL SAMPSON.

Washington, May 14.—The lack of naval as well as popular enthusiasm over the official report of Rear-Admiral Sampson on the three hours' bombardment of San Juan is in marked contrast to the outburst which greeted Admiral Dewey's modest narrative of his achievement at Cavite.

The Spanish flag still floats over every portion of the historic castle at the mouth of the harbor, resulting, as Admiral Sampson returned to the city incidentally to a portion of the city adjacent to the batteries.

DID SAMPSON EXCEED HIS ORDERS?

To naval officers the most humiliating part of the affair is disclosed in the complete agreement of trustworthy newspaper dispatches that Admiral Sampson not only failed to silence the batteries of San Juan, but withdrew in broad daylight, before 8 o'clock in the morning, out of range of the enemy, which continued to fire upon him.

The disadvantage under which the American squadron labored, due to the fact that it possessed no smokeless powder, and that in such heavy cannonading the attacking fleet must have been enveloped in so dense a cloud of smoke that its gunners could not see the enemy.

HAD NO SMOKELESS POWDER.

The disadvantage of the Navy in possessing no powder of the old-fashioned brown prismatic variety was well known to Admiral Sampson, who for four years was Chief of the Bureau of Naval Ordnance, and during most of that time he was engaged in developing smokeless explosives and declined to buy any of the European powders because he was convinced that American ingenuity could develop a product superior to any other.

TWO CHILDREN RUN OVER.

Two children were run down by a runaway horse at Graham-ave. and McKibbin-st. last night and received dangerous injuries.

THE CONTROL OF SEX.

BRAVE MEN CUT THE CABLE.

Continued from first page.

and main, exposed to a terrific fire, to which the marines and the machine guns in the launches replied vigorously. After two of the three cables had been cut and nearly half of the crews were wounded the rest of the job was left uncompleted.

Meanwhile the guns on the Nashville and the Marblehead were used to such advantage that the remaining Spaniards were chased from their rifle pits to seek shelter behind the lighthouse.

LIGHTHOUSE KNocked OVER.

This lighthouse rises from a long, low, stone structure used as living-rooms by the keeper and his family. This latter building proved an excellent vantage ground for the soldiers, and they maintained a heavy fire as long as the cutters and launches were in range.

When the cutters returned to the ships the Nashville moved to the outer part of the bay, where the revenue cutter Windom lay, and signalled for a surgeon to attend to the wounded. After the surgeon had gone aboard the Nashville the Windom moved to the inner bay and began shelling the Spaniards wherever they could be seen.

Lieutenant B. O. Crisp, who was in charge of the Windom's forward 4-inch gun, trained his piece on the tower, and planted a shell squarely in its centre, causing it to fall in, and driving the Spanish soldiers away.

PRaised BY THEIR COMMANDER.

Commander McCalla paid a glowing tribute to the bravery displayed by the men in the affair, and declared that he would recommend all the survivors for promotion.

REPORT FROM COMMODORE REMEY.

Washington, May 14.—The following telegram came to the Navy Department this afternoon from Commodore Remy at Key West:

Secretary of the Navy: The Windom arrived this morning with the following named men dead or accounted for: Robert, private, killed; Harry, private, killed; Ernest, private, killed; John J. Doran, boatswain's mate, second class, gunshot wound in right buttock; John Davis, gunner's mate, third class, wound in right leg; William Levey, apprentice, first class, shot in the forehead; Ernest, private, killed; John J. Doran, boatswain's mate, second class, gunshot wound in right buttock; John Davis, gunner's mate, third class, wound in right leg; William Levey, apprentice, first class, shot in the forehead.

ALL CONDITIONS SATISFACTORY.

They found the water was pure, the death rate was exceedingly low and the soldiers were a healthy set of men. There were some cases of sickness, but none that could be traced to the water supply or to the climatic conditions.

ANOTHER TRANSPORT ON HAND.

Another transport got in to-day, the San Marco, of the Mallory Line. She can carry 1,000 men and 250 horses. A number of other vessels are expected here shortly.

DAVIS'S MOTHER PROSTRATED.

John Davis, one of the men wounded on the Marblehead at Cienfuegos, lives at No. 642 Fifth-st., this city. He has been in the Navy nearly six years, joining when he was fifteen years old.

ANOTHER CABLE IN OPERATION.

The cutting of the cable at Cienfuegos does not sever cable communication with Cuba, as there is another line in operation between Santiago de Cuba and Kingston, Jamaica.

THE INTERNATIONAL LAW OF CABLES.

From every side complaints are now heard about the uncertainties of communication by submarine cables. The American Government is inquiring in regard to the alleged and injurious duty of dispatching cables.

messages from or to any point in the West Indies or South America, and also the transmission of information inimical to the United States.

The restrictions enjoined by the American Government upon the free use in war times of cable cables are in conformity with Article XV of the Paris Telegraphic Convention of 1854.

It is well understood that the stipulations of the present convention do not interfere in any way with the freedom of action of belligerents.

So that all telegraphic cables, no matter to what nation or company they belong, are at the mercy of belligerents.

It is therefore probable, as feared in European papers, that the Americans will make Cuba telegraphic cables an understanding on all points with the United States, Europe, and the West Indies.

There was a suggestion that the camp be moved to Ocala or Dadeville, Fla., which are not far away, and are quite healthy.

Dr. George M. Sternberg, Surgeon-General of the United States, enclosed this communication with an order to Captain R. S. Woodson, Assistant Surgeon, and Dr. J. M. Galleras, Acting Assistant Surgeon, to report on the state of things at Tampa.

They found the water was pure, the death rate was exceedingly low and the soldiers were a healthy set of men.
