Plans have also been made for the new chemistry building, and the close of the present college year will in all probability see that again also. Mrs. Stanford confirms the reports that the recent sale of railroad stock would not increase the university working fund, and that the necessary equipment would be looked for just now. No money will be spent until the next semester.

Mrs. Stanford has accepted from the contractors the new Assembly Hall and Library of the Leland Stanford, Jr., University. As regards proposed new buildings she has little to say beyond the fact that plans have been drawn up for the buildings which will complete the facade of the outer quadrangle, already begun. She will examine the plans soon, and get them ready for the contractors.

TO WINTER IN LONDON.

MRS. ELIZA ARCHARD CONNER RESTING AFTER HER PHILIPPINE EXPERIENCE.

Mrs. Eliza Archard Conner, who has been residing in the Philippines, writes to a friend that she will go to London about January 1, and will spend the rest of the winter there.

Mrs. Conner, who is a member of Sorobis and a life member of the Woman's Press Club, of this city, is said to be the only woman who has tackled the duties of war correspondent in Luzon. After the fall of Manila, she went to Manila, and taking no time for recreation, she went to Manila, and taking no time for recreation, she went to Manila, and taking no time for recreation, she went to Manila.

There, notwithstanding the fact that while crossing the Pacific, happening to be on deck in a storm, she was blown down a companionway and had her arm broken. Having one arm in a sling is not an encouraging condition to even the most enthusiastic of correspondents.

Mrs. Conner's writing was done on a typewriter, and, of course, with one hand. Nevertheless she turned out copy with a rapidity that caused wonder to those around her. She has the same machine with her in Jersey and will take it to London, where it will be printed in the United States.

After returning to New-York she expects to make a trip to the Russian provinces, and will spend a month or two at the Paris Exposition.
