

MORE CLUB DISSENSIONS. ONE-EIGHTH OF THE P. W. L. RESIGNS—ACTIVE AND ASSOCIATE MEMBERS AT ODDS.

"There is trouble in the dear old home!" The Professional Woman's League is looking as though the resignations come in with every flow of tide of "Good Heavens!" gasps the chairman. "Nearly a fourth of the league resigned, almost in a body. Why, there will be no league left to preside over it!"

FOR SOLDIERS' FAMILIES. THE NATIONAL ARMY RELIEF SOCIETY HAS APPOINTED PROMOTERS IN EVERY STATE TO ADVANCE THE MOVEMENT.

At a meeting of the National Army Relief Society, held a few days ago, committees were appointed on Finance, Public Schools, Scholarships in Universities and Academies, Printing, Relief, Investigation of Beneficiaries, Press and Entertainments. It was decided also to appoint promoters in every State to advance the interests of the society.

The headquarters are at No. 19 West Forty-second-st., and branches and sections will do active work during the summer at the various watering places throughout the country.

This society has been organized in order to provide prompt relief for dependent widows and orphans of the officers and enlisted men of the Regular Army of the United States in cases of emergency (not for annuities), to assist them in securing employment, and to solicit and create scholarships and supervise educational opportunities for the children. It is intended that this shall be a permanent organization, and its plans are at once patriotic and philanthropic.

Its officers, in endeavoring to enlist the earnest co-operation of the entire Nation, have just sent out a circular calling attention to the inadequacy of the pensions, even when promptly paid, and stating that there are many instances where the families of officers and enlisted men who fell at Santiago in July, 1898, have not yet received one cent of the pensions due them. The circular says:

It may not be amiss in this connection to state the amounts of the pension paid widows and orphans of the officers of the United States Army; Colonel, \$1200; Major, \$1000; Captain, \$800; First Lieutenant, \$700; Second Lieutenant, \$600; the widow of every enlisted man, \$400; the child of each child under sixteen years of age \$2 a month.

The officers of the National Society are: President, General P. V. Greene; vice-president, Theodore Roosevelt; treasurer, William Redmond Cross; secretary, Mrs. Guy C. Henry. The trustees of the fund are: Major, Morton D. Bond; Colonel, Cornelius N. Bliss. The depositary of the funds is the Morton Trust Company.

Women and children are eligible for membership. In refusing the claims of the dramatic members, the association in a paragraph from Mrs. A. M. Palmer's opening speech, when the profession was formed. "First of all," she said, "we are workers, not idlers, but toilers, utilizing whatever God gives us and, and striving to develop all that is in ourselves and each other. As artists, as musicians, as writers, as students, we are doing our part in the hurrying world, and the great aim of the league is to add every member in her struggle to reach the higher things in life."

It goes without saying that the true foundation of good form is courtesy and good breeding. The small differences which fashion and the custom of the day decree are not of half as much importance as many careless social aids and fancies of the hour is desirable for cultured people, inasmuch as it shows a knowledge and respect for the child of the social world which is called good society.

These unwritten laws of society are continually changing. For instance, invitations were always sent by hand; now they are almost always given to the post. This is an obvious advantage when the messenger or footman is perfectly reliable; besides, it gives much less trouble and expense.

ERICSSON'S FAME QUESTIONED. PATRIOTIC LEAGUE OF THE REVOLUTION ASCRIBES THE INVENTION OF THE MONITOR TO ANOTHER.

Mrs. Virginia Chandler Titcomb, president of the Patriotic League of the Revolution, has started a movement that has for its motive the giving of credit where she believes it is due. Mrs. Chandler is convinced that the essential feature of monitors was discovered by Theodore Ruggles Timby, of Washington, D. C., and not by Ericsson, and has determined that official recognition shall be given to him.

Mrs. Titcomb became acquainted with Mr. Timby a year ago, and hearing his story decided to interest the league of which she is president in him. The society has made investigations that have developed some interesting facts. These will be divulged at a meeting at the home of Mrs. Quimby, No. 101 Lafayette-ave., Brooklyn, next Tuesday evening. The following letter on the subject will be read at that time:

My Dear Mr. Timby: I am reminded of you today by the fact that our Nation is paying marked honor to the man who made his name illustrious by building the Monitor. The Monitor belonged to you, but to which the American people at large, including men in public life, seem to have been totally blind. I refer, of course, to Ericsson, and to the name and fame he gained by being the builder and supposed inventor of the Monitor. When the supreme merit of the Navy's pet proved its superiority by disabling and silencing that which was considered by our then enemy to be an impregnable and irresistible antagonist, you had proved its ability to rout and destroy any war vessel then known.

Had this great nation known that Ericsson was only employed by the contractors who built the Monitor, as an engineer, and that the revolving turret which destroyed the Merrimack was your invention, the result to Ericsson would have been different, and the name of Timby would have been added instead of his.

Today this country, at great expense and with the highest honor ever paid to any individual in our history, has paid the highest honor to the body of Ericsson, overlooking him as the inventor and builder of the Monitor—that "cheese box on a raft," as it was called by the Navy, and of which the "cheese box" was your invention, while the "raft," which proved to be of faulty construction, was his.

Where you are to-day I know not, but I address my letter to the Ebbitt House, Washington, so as to assure you that you have the sympathy of at least one native American because of the wrong they did you, and the expression of his hope that the day will come when the name of Theodore Ruggles Timby may have its rightful place in history.

Let me hear from you. Sincerely your friend, ROBERT F. BROOKER, No. 121 Clymer-st., Brooklyn.

Let me hear from you. Sincerely your friend, ROBERT F. BROOKER, No. 121 Clymer-st., Brooklyn.

Let me hear from you. Sincerely your friend, ROBERT F. BROOKER, No. 121 Clymer-st., Brooklyn.

GOOD CHEER. Have you had a kindness shown? Pass it on.

"Was not given for you alone—Pass it on. Let it travel down the years. Let it weave another's tears. Till in happy the deed appears. Pass it on."

BOAT SONG. When we boated, you and I, Swaying willows kissed the stream. Was it? Yes, 'twas last July! Little cloudlets faked the sky. Just to make it bluer been. When we boated, you and I.

Once again the lilies shy Sweetly the perfume seem— Was it? Yes, 'twas last July! Far from you the days dragged by— Wintry hours without a gleam— Since we boated, you and I.

Still I love you, do you sight? While we're boating, you and I, Say you love me—this July! Samuel Mintun-Peck, Is Harper's Bazar.

SUNSHINE RECEIVED. The following packages of sunshine were received at headquarters: A box of flowers received from Mrs. George A. Fountain, of New-Jersey contained lovely pink roses, many crimson ramblers and other fragrant flowers.

A GRATEFUL ACKNOWLEDGMENT. President of the T. S. S. Your registered letter with money was received last evening. I hardly know how to express my sincere gratitude for the gift. It seems to me that just a plain "thank you" is inadequate to express my feelings.

REPORT FROM INDIA. In a letter received yesterday from Mrs. Helen Jackson, president of the Bengal (India) branch of The Tribune Sunshine Society, she expresses thanks for the sunshine that has reached her through the general office, and says: "I am trying to keep up the principles of our beloved Society. We are few in number, but we try to bring life and light into the darkened lives about us."

FOR CHOCOLATE LOVERS. The following rule, given by an old housekeeper, will prove most acceptable: Put into a double boiler six ounces of grated chocolate and add to it a cupful of hot water and one-third of a cupful of sugar. Stir the mixture until it is thick and creamy. Remove from the fire when it is cold fold in one quart of whipped cream. This should be packed and frozen the same as the others.

RESCUED FROM OBLIVION. Through the suggestion of Mrs. William Lawson Peel the names of seven Georgia Revolutionary soldiers have been rescued from oblivion. The record of those claim to the honor and gratitude of their countrymen was preserved by their native State, and is found partly on the backs of envelopes and in multi-eaten memorandum books. These were collected and copied by means of the money furnished by the Atlanta Chapter, Mrs. William Green, and the beautiful and interesting fortunes were told later at a small function, and the guests are eagerly waiting to see if these will be verified.

THE PRONOUNS "I" AND "MY" are greatly to be avoided in general conversation. "I" do this or that; "my" children are so and so; "my" cook, "my" house, "my" equipage—such iteration sets terribly on the nerves of the listener, besides being in very bad form.

INCIDENTS IN SOCIETY. DIRECTOR MERRIAM ISSUES A STATEMENT TO APPEASE IMPATIENCE OF THE PUBLIC.

Washington, June 22.—Ex-Governor Merriam, the Director of the Census, to-day made the following statement for the information of the public: The Census Office is now in receipt of many letters daily asking for information as to the results of the census in particular localities, and especially in the larger cities, and also asking the Director to the writers that the census has not yet been taken in the law allows until June 30 in cities of 50,000 inhabitants, and in rural districts until July 1 for its completion, and after that the schedules have been examined by the supervisors of census before they can be forwarded to Washington.

In order to appease the impatience of the public the following statement has been prepared, showing what has been done to date in the census work received at Washington, and why it must be weeks or even months before the figures can be given. Every enumerator is required to file a daily report card showing how many hours and minutes he has been at work. In many instances the figures have been enumerated that day. Since there are (including special enumerators for institutions and for the illiterate) about 1,000,000 enumerators, and since three thousand enumerators, and thirty days are allowed for the completion of the census, the number of enumerators is somewhere between one million and a million and a half, every one of which has to be enumerated. The amount of work to be done, therefore, is approximately one thousand for each supervisor's district, and since there is space on each blank for recording the work of one hundred enumerators, the amount of work to be done is approximately one thousand for each supervisor's district, and since there is space on each blank for recording the work of one hundred enumerators, the amount of work to be done is approximately one thousand for each supervisor's district.

It is now definitely settled that Mr. and Mrs. George J. Gould will not go to Seabright. In fact, they had little intention of doing so. They will be at Rockaway for a few weeks, while the polo matches are going on in that neighborhood. Several of the Goulds are expected to be at Seabright for a few days, but their destination is Paris.

Mr. and Mrs. Royal Phelps Carroll have settled at Newport for the summer. Miss Maud Westcott is at present passing the summer at Newport. Mr. and Mrs. Clarence H. Mackay have arrived in London, and Mrs. Mackay is entertaining for them. They will not go to their new home in Scotland until after the end of the month.

Mr. and Mrs. Winfield Scott are at their cottage at Far Rockaway for the summer. When they return to New-York in the autumn they will give up their house in Lexington-ave. near Thirty-fourth-st. and take one near that of Mrs. Robert G. Remsen, Mrs. Scott's mother.

At last accounts Mr. and Mrs. John Thompson Spencer, of Philadelphia, were in Paris. Mr. Spencer is in mourning, and will therefore not go to Newport this summer. It is reported that the Spencers have rented their house at Newport to the Widener family.

Justice Dickey in the Supreme Court, Brooklyn, yesterday adjourned until Wednesday the hearing on the motion by Deputy Attorney-General Coyne to have the Republic Savings and Loan Association, of Manhattan, show cause why a temporary receiver should not be appointed and the business wound up. In the mean time the association is enjoined from paying out money, and the employees will have to wait for their pay until a determination of the questions at issue is made.

WOMAN'S TEMPERANCE UNION. Edinburgh, June 22.—The World's Woman's Christian Temperance Union opened its annual meeting at Edinburgh on June 22, and presided over by Lady Henry Somerset. There will be 120 American delegates in addition to a goodly number of American visitors. The following from the United States will be represented among the officers: Honorary president, Mrs. Mary Clement Leavitt, of Boston; honorary assistant secretary, Miss Anna Gordon, of Evanston, Ill.; round the world missionaries, Mrs. J. K. Barney, of Providence, R. I., and Mrs. Helen M. Egan, of New York.

PROGRAMME OF THE CONFERENCE. MANY AMERICAN DELEGATES—RECEPTIONS FOR REPRESENTATIVES. London, June 15.—The United States will make a fine showing at the convention of the World's Woman's Christian Temperance Union, to be held at Edinburgh from June 22 to 29, and presided over by Lady Henry Somerset. There will be 120 American delegates in addition to a goodly number of American visitors. The following from the United States will be represented among the officers: Honorary president, Mrs. Mary Clement Leavitt, of Boston; honorary assistant secretary, Miss Anna Gordon, of Evanston, Ill.; round the world missionaries, Mrs. J. K. Barney, of Providence, R. I., and Mrs. Helen M. Egan, of New York.

CENSUS WORK EXPLAINED. DIRECTOR MERRIAM ISSUES A STATEMENT TO APPEASE IMPATIENCE OF THE PUBLIC.

Washington, June 22.—Ex-Governor Merriam, the Director of the Census, to-day made the following statement for the information of the public: The Census Office is now in receipt of many letters daily asking for information as to the results of the census in particular localities, and especially in the larger cities, and also asking the Director to the writers that the census has not yet been taken in the law allows until June 30 in cities of 50,000 inhabitants, and in rural districts until July 1 for its completion, and after that the schedules have been examined by the supervisors of census before they can be forwarded to Washington.

In order to appease the impatience of the public the following statement has been prepared, showing what has been done to date in the census work received at Washington, and why it must be weeks or even months before the figures can be given. Every enumerator is required to file a daily report card showing how many hours and minutes he has been at work. In many instances the figures have been enumerated that day. HOUSEHOLD TALKS.

MOUSSES AND FROZEN PUDDINGS. Mousses and frozen puddings are desirable dinner desserts and have the advantage of being easily made.

For coffee mousse, heat together in a double boiler one and one-quarter cupfuls of sugar and one and one-half cupfuls of strong coffee. When the sugar is dissolved, add the yolks of six eggs and stir until thick. Then add the coffee and mix well. Fold in carefully one pint of cream whipped until it is dry; turn it into a mould and put on the cover.

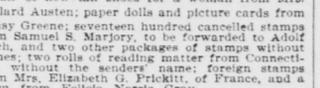

To prevent salt water from entering, paste a strip of buttered paper around the edge; pack it in with cotton wool. Put the mould in a cold place and leave it for four hours. When ready to serve, plunge the form quickly into hot water and turn it onto a plate.

The frozen fruit pudding may be varied for different fruits and flavorings. If vanilla is wanted, use only one cup of sugar and substitute water for the milk. Add two teaspoonfuls of vanilla extract when the whipped cream is mixed with the custard.

A delicious strawberry, raspberry or peach frozen pudding may be made by mashing the fruit, adding to it two cupfuls of powdered sugar to every quart, and folding in carefully one quart of cream, whipped until it is thick and creamy, and stirred until well mixed. Inure its safety from salt water by pasting a strip of buttered paper over the juncture and pack in ice and salt for four hours. If pineapple is used, it should be chopped very fine, covered with the sugar and allowed to stand for an hour or two before the cream is added to it.

The frozen fruit pudding may be varied by using macaroons instead of fruit. Dry in the oven one-half pound of macaroons, and roll them fine. Add them and one-half cupful of powdered sugar to a quart of cream, whipped dry, and pack and freeze as before.

For chocolate lovers, the following rule, given by an old housekeeper, will prove most acceptable: Put into a double boiler six ounces of grated chocolate and add to it a cupful of hot water and one-third of a cupful of sugar. Stir the mixture until it is thick and creamy. Remove from the fire when it is cold fold in one quart of whipped cream. This should be packed and frozen the same as the others.

PUT ON YOUR SHOPPING LIST. GARGLES. EXQUISITE TOILET AND SHAVING SOAPS, PERFUMES, SACHETS, TOILET WATERS AND DENTAL POWDER.

NEWS NOTES FROM JAMAICA. Kingston, Jamaica, June 22.—Two brothers of the Jamaican Constabulary, who were recently shot at Santiago de Cuba by an American named Brice, have left here for Cuba in order to press for Brice's punishment. Constantine was connected with a \$5000 fine.

CAN WOMEN PLAY CHOPIN? To play Chopin one must have acute sensibilities, a versatility of mood, a perfect keyboard mechanism, the heart of a woman and the brain of a man. He is not all that he seems to be. Chopin's music is demanded, and there must be the fire, the kindles and the power that menaces; a fluctuating, wavering rhythm, yet a rhythmic sense of excessive reticence; a sensuous touch, yet a touch that contains an infinity of colorings, subtleties, and, last of all, you must have suffered and agonized over the music of the past.

CAPITULATION TO THE PATERN. No. 8,022. FROZEN PUDDING. This dressy little frock is made of pale blue and white tulle, with bertha and trimmings of white lace over blue Liberty of London. It is mounted on a glove-fitted lining, which closes in the center back. The bodice is finely gathered and arranged on the lining at a round yoke depth, the pattern providing perforations for the correct shaping. It is adjusted on a narrow band at the belt, the collar and garters being placed near the center front and back, maintaining a close adjustment under the arms. The neck is finished with a bertha of unique shaping, which gives a becoming breadth to the bodice. The elbow sleeves are made with inside seams only, and finished with a flaring cuff to match the bertha. The lining sleeve is shaped with upper and under portions. The skirt is circular, slightly full.

WOMEN VOTERS IN IDAHO. "Concerning the extent to which the women in Idaho exercise the rights given them by the law, it has been found to be very general," says Frank Steunbeger, Governor of Idaho, in an article on equal suffrage in Harper's Bazar. "In 1887 only 40 per cent of the votes were cast by women. There is every reason to believe that this percentage will increase until, in my judgment, the percentage of women voting will be as large as that of men."
