

PRINCE TUAN'S MAD WORK.

Continued from first page. a settlement of some kind with Russia and the Empress, if a compromise be practicable.

NAMES OF KILLED AND WOUNDED.

NEWS RECEIVED AT THE NAVY DEPARTMENT FROM KEMPF. Washington, July 1.—The following message was received this morning at the Navy Department:

Cheo-Foo—Secretary Navy, Washington: Following telegram from Kempf, casualties relief expedition, June 25:

KILLED. Boatwain's Mate THOMAS THOMAS, Gunner's Mate BENJAMIN HENSON, Apprentice BROMAN, Landsman SEVERSON.

WOUNDED. Boatwain's Mate HOLMBOE, Machinist HANDFORD, Landsman JOSEPH KILLACKY, Cook TAUSIG, Captain McALLA, Fireman ROWE, Landsman GARRETT, Coxswain HANSON, Quartermaster CONWAY, Coxswain McCLAY, Fireman FLAHERTY, Seaman

GROUP OF CHINESE CAVALRY, D RILLED BY GERMAN OFFICERS. Woo-Sung, 1899.

LLOYD, CHILD, ANDERSON, JENSEN and M'KERVY, Landsman PHILIP VOELLMOELLER, Coxswain THOMAS LINDOM, Apprentice JOHNSON, RASMUSSEN and WELCH and Private ORDEFF. (Signed) ROGGERS.

The Department has been informed that the Princeton has arrived at Canton. Coxswain McCLAY's name could not be found on the rolls. Possibly he had been transferred from some other ship since the rolls were returned.

The records of the killed, as shown at the Navy Department, are as follows: Thomas Thomas enlisted at Mare Island in 1890. He was born in Copenhagen in 1850. His next of kin is Mrs. T. Lannigan, of No. 603 South Front-st., Philadelphia.

Benjamin Henson was born in Mandah, Norway, in 1874. His next of kin is Mrs. Anna Henson, his mother, living at Mandah, Norway. Harry A. Broman was born in Duluth, Minn., in 1882. His next of kin is Mrs. Ida Broman, mother, living at No. 1,427 West Superior-st., Duluth.

Harry Severson was born in Norway in 1878 and enlisted at Chicago. His next of kin is Laurence Severson, his father, living at 1,034 Wabansla-ave., Chicago.

THE OFFICIALS PUZZLED.

UNCERTAINTY REGARDING SHANGHAI REPORT—ORDERS SENT TO CONSULS. (By Associated Press.)

Washington, July 1.—While there was no formal Cabinet council to-day, Secretary Hay had at various times with him members of the Cabinet for the discussion of the condition of affairs in China. It is understood no change of policy was determined upon.

The indefinite character of the news from China regarding the condition of the foreign legations in Peking continues to be a source of perplexity to the Administration officials here. They confess that it is difficult to arrive at a satisfactory conclusion on the subject, although the preponderance of evidence points to the German Minister's murder. At the same time, officials say a discrepancy of dates is apparent. The first dispatches stating that he had been killed were dated from London, June 16, and referred to a special dispatch from Hongkong which said all the Peking legations had been destroyed and the German Minister killed. The official dispatch from Consul Goodnow, and also the Shanghai press dispatches of to-day, place his death as having occurred on June 18, or two days after the first report. The discrepancy caused some comment.

Minister Wu said to-night that he had not received any dispatches during the day from any part of China. He also is puzzled over the news, which he says appears to him contradictory regarding the legations. He still expresses the hope that they are safe.

While awaiting with the greatest interest the trend of events in Northern China, the officials are not neglecting American interests in the central and southern provinces. The consuls are addressing themselves to the viceroys of the provinces in which they are located, and are sending every effort to see that American interests may have protection. So long as this protection is granted there will be no naval or military force sent by this Government into the territory represented by the viceroys. It is realized here that the Chinese are fully alive as to the results which might follow the introduction within their territory of a foreign force, and for this reason are as anxious as the foreigners themselves may be that recourse to such steps may not be necessary.

NOTICE FROM CABLE COMPANY.

The Commercial Cable Company gives out the following notice: Berne notifies us that telegrams in secret language, both private and commercial, for stations in the Territory of Amur are only admitted on condition that the code used is produced by the receivers and senders, but transmission remains open.

NO NEWS OF THE OREGON.

Washington, July 1.—Not a word came to the Navy Department to-day regarding the battleship Oregon. The hope is everywhere earnestly expressed that the efforts to float her will be successful, so that she may be taken to Port Arthur and docked. The naval officials on the Asiatic Station have ample authority to employ whatever means is necessary to save her. Later the grounding will be investigated officially.

SAYS THE OREGON CAN BE SAVED.

Regarding the wreck of the Oregon, Naval Constructor P. T. Bowles said Saturday to a Tribune reporter at the Navy Yard: I judge from the newspaper dispatches that the vessel can be saved. The injury is under the forward 8-inch magazine, seventy feet from the bow. The ship undoubtedly can be saved. It is only a question of having fair weather. It will be a matter of lighting the ship forward by the removal of stores, ammunition, etc., and possibly additional ballast as it may be necessary to blow out the rock as it is customary in such cases.

ENGLISH WARNINGS ABOUT CHINA

WRITERS OF FORTY AND FIFTY YEARS AGO ON THE DANGER FROM RUSSIA.

Mr. Michie in his book, "Siberian Overland Route," like Messrs. Meadows, Lockhart and other English writers, foresaw the international side of the Chinese question almost exactly as it is developing itself in the present circumstances. As early as in 1850 Meadows wrote:

"China will not be conquered by any Western Power until she becomes the Persia of some future Alexander the Great of Russia, which is the Macedonia of the European continent. China alone, France will, if they are wise, wage severely or collectively a war of exhaustion with Russia, rather than allow her to become a mistress of the East. Many may suppose the danger to be too remote to be practically subject to the present generation. The subject is most practical at the present hour, for, as the English, Americans and French now deal with China, and with her relations to Russia, so the event will be... The greatest though not nearest danger of a weak China is her proximity to a strong Russia, which she began two centuries ago, and which, if allowed to go on, will speedily engulf a large and populous territory, faced with Sveaborg and Sebastopol on the seaboard of Eastern Asia. Let England, America and France beware how they create a risk in the Far East. China is a world necessity... With

the Russian Empire, which she began two centuries ago, and which, if allowed to go on, will speedily engulf a large and populous territory, faced with Sveaborg and Sebastopol on the seaboard of Eastern Asia. Let England, America and France beware how they create a risk in the Far East. China is a world necessity... With

FRENCH SHIPS FOR CHINA

PREPARATIONS AT TOULON AND BREST TO SEND REINFORCEMENTS.

Paris, June 21. Great activity prevails at the naval ports of Toulon and Brest, where preparations are making on a large scale to send ships and men to the China station. The French fleet already in Chinese waters or on the way there and due at Taku between June 25 and July 3 amounts to 2,000 men. The force which is to leave France on two transports on June 29 comprises 2,900 men. At present the naval division of the Far East, under the command of Rear-Admiral Courjeolles, is composed of the following vessels:

The first class cruiser D'Entrecasteaux—Speed, 19½ knots; crew, 21 officers and 583 men; armament, two 24-centimeter guns, twelve 14-centimeter guns, twelve 47-millimeter guns and six 37-millimeter guns.

The Descartes, second class cruiser—Speed, 21 knots; crew, 23 officers and 379 men; armament, four 16-centimeter guns, ten 10-centimeter guns, eight 47-millimeter guns and four 37-millimeter guns.

The Jean Bart, second class cruiser—Speed, 19 knots; crew, 20 officers and 365 men; armament, four 16-centimeter guns, six 14-centimeter guns, fourteen of 65 and 47 millimeter guns.

The Pascal, second class cruiser—Speed, 19½ knots; crew, 14 officers and 369 men; armament, same as that of the Descartes.

The Surprise, gunboat—Speed, 13½ knots; crew, 6 officers and 93 men; armament, two 100-millimeter guns, four 65-millimeter guns and four 37-millimeter guns, all rapid firing.

There are also three smaller light draught French gunboats on the China station. Attached to this division there are about 170 officers and 3,500 men.

Three cruisers now at Brest have been selected to reinforce Rear-Admiral Courjeolles's division. These are the Guichen, the Amiral-Charnier and the Friant.

Guichen, first class triple screw cruiser of 3,750 tons, having a speed of 23 knots. She has a complement of 27 officers, and her crew consists of 577 men. Her armament comprises two guns of 164 millimetres calibre, six guns of 138 millimetres (rapid firing), ten 47-millimeter guns and five 37-millimeter guns, all rapid firing and of the very latest Creusot model.

Amiral Charnier, 4,750 ton armored cruiser, having attained on her trial trip a sea speed of nineteen knots. She is commanded by Captain Baehne and twenty officers. Her crew consists of 372 men. Armament, two 19-centimeter guns, four 14-centimeter guns, four 65-millimeter guns, four 47-millimeter guns, all rapid firing and of latest Creusot model. She has besides six "cannon revolvers."

Friant, second class cruiser of 3,750 tons, having a speed of 18½ knots. She will be commanded by Captain Adam and twenty officers. She is to have a crew of 354 men. The Friant's armament will consist of six 164-millimeter guns, four 100-millimeter guns, eight guns of 47 millimetres calibre and eleven of 37 millimetres.

At Toulon the second class cruiser D'Assas, of 3,992 tons and 9,600 indicated horse power, having a sea speed of nineteen knots, and the second class cruiser Du Chayla, of 3,992 tons and sister ship to the D'Assas in every capacity, have been ordered to sail shortly for China. The transport vessel Nive and another transport chartered from the Messageries Maritimes Company, are held in readiness to carry the 2,200 men, including two batteries of artillery, which will embark in a few days for Ton-King, to replace troops already sent from Ton-King to Taku.

The troops under orders for Ton-King consist of two improvised battalions of marine infantry of four companies each. The officers and men are selected from the various regiments of marine infantry. The first battalion is commanded by Chef de Battalion Teiller, and the commander of the second battalion is Major Gaye, officers of long experience in colonial warfare, both of whom have served in Madagascar and Ton-King. Each company will have three or four bicyclists attached to it. The French blue-jackets are largely recruited from Brittany.

A prominent feature in the French Navy is the "Fusilier Marin," who is invariably greeted with a popular ovation at the National reviews which take place each year at Longchamps on July 14. The "Fusilier Marin" does not, as is generally supposed, form a distinct corps, but is simply an ordinary blue-jacket selected for proficiency in marksmanship, who is told off to shoulder a rifle and, when on land, to act as a soldier.

Two batteries of light "mountain" artillery have been formed at Toulon to go with the expeditionary force to Taku. The batteries of six guns each are commanded by Major Dupont. One battery is commanded by Captain Rougy and the other by Captain Lapébie.

C. I. B. MR. TOWER HERE ON WAY TO CHINA. Reginald T. Tower, Secretary of the British Embassy, at Washington for the last four years, was a passenger on the Cunard Line steamship Etruria, which sailed for Hongkong, and he is now on his way to the British Embassy at Peking. Others on board were Mrs. Percy Harrington, Thomas G. Aitken, James Ellis, Miss Louise Hylton, George Lynch, C. L. Graff and Miss K. L. Waterbury.

DR. LOWRIE TALKS ON CHINA. PRESIDENT OF METHODIST UNIVERSITY IN PEKING SAYS EMPRESS ENCOURAGED BOXERS. "Present Conditions in China" was the subject of an address made last night by the Rev. Dr. H. H. Lowrie in Grace Methodist Episcopal Church. In one-hundred-and-fourth-st. Dr. Lowrie has spent thirty years in China and is president of the Methodist University in Peking. In his service, he told the congregation, he had seen the work grow from a small village with two hundred worshippers to four conferences with twenty-six thousand converts.

The present troubles, Dr. Lowrie said, are a reflex wave of the trouble of two years ago. After the disbanding of the army following the Japanese war, the soldiers out of employment formed themselves into lawless bands and imprisoned and held for ransom well to do native Christians in the smaller villages. Two hundred missionaries were a reform movement that appeared to meet the approval of the Emperor, who issued several edicts that gave much hope to the missionaries.

The Empress Dowager frowned upon the reforms, offered a reward for the arrest of the leader of the reform party and caused the execution of six of his followers. Then came the murder of Missionary Brooks and the demand for his body. It was said that if he had just arrived in China, he would have been immediately provided with a better place and was specially honored with an interview with the Empress Dowager. The Boxers, or Big Knives, it was said, as an encouragement, as it was believed intended they should, and the trouble assumed its present proportions.

THE REV. A. M. SHERMAN SAFE. Long Branch, N. J., July 1 (Special).—A cable dispatch was received to-day from the Rev. Arthur M. Sherman, a missionary in China, announcing his safe return to his home in New York. He had been captured by one word—"Safe." Mr. Sherman, who is Captain H. B. Sherman, of this place, and has been engaged in missionary work near Shanghai for about a year.

No word has yet been received from Miss Annie Morton of this place, who is also a missionary in China. Friends of Miss Morton are greatly alarmed concerning her safety.

MISSIONARIES AT WEI-HEN ESCAPE. Ashabua, Ohio, July 1.—The Rev. Charles F. Chalfant, of this city, has received word from his brother, the Rev. H. Chalfant, who is a Presbyterian missionary at Wei-Hen, China, to the effect that the mission station there, together with the residence of Mr. Chalfant, has been burned by the Boxers. The missionaries escaped with their lives and a little clothing.

ROOSEVELT LEAVES CHICAGO

GOING TO OKLAHOMA CITY—HOW HE SPENT SUNDAY.

[BY TELEGRAPH TO THE TRIBUNE.] Chicago, July 1.—Governor Roosevelt, after a quiet day in this city, started for Oklahoma at 6 o'clock to-night. The Governor was accompanied by Paul Morton, vice-president of the Santa Fe Railroad; Colonel Richard C. Kerens, member of the Republican National Committee from Missouri; D. W. Mulvane, member of the Republican National Committee from Kansas; Arthur F. Cosby, F. Larimore Worden and H. C. Pollock, the last three members of the Rough Riders.

While the Governor tried to stifle all attempt at enthusiasm or political ebullition on account of the Sabbath Day he was unable to suppress the enthusiasm and cheering at the Santa Fe station when he appeared there. He was cheered to the echo and had to push his way through a crowd, every member of which was anxious to shake him by the hand. While there has been comparatively no excitement so far on the trip, the indications are that it will be a rousing time from this on.

The Governor received a message to-day from N. Barnes, Postmaster at Kansas City, asking if the patriotic citizens of that city and the members of the 20th Kansas could meet him at the station. The Governor sent a favorable reply. It is expected that he will be greeted by large crowds all day to-morrow through Kansas and Missouri, on his way to Oklahoma, and there will be no limit on enthusiasm, although the stops will be brief.

The Governor was up early this morning going over papers and writing. He came down to breakfast about 9 o'clock. General Joseph Wheeler, of the Currency, Controller of the Currency. They talked earnestly for some time, and then Governor Roosevelt retired to consult with Paul Morton, the Illinois, and Colonel Kerens. After this he went to church. He attended Trinity Reformed Church, in South York is just over. When it became known that he was there he was greeted by every one. The minister made an allusion to the great cares of the office to which the Governor had been nominated. The Governor was prevailed upon to make a short speech to the Sunday school children, which he did gracefully.

After church the Governor returned to the Auditorium, and four General Joseph Wheeler of twenty from the Marquette Club, headed by J. P. Whedon, president of the club, General Wheeler, Governor Roosevelt, Mr. Morton and Colonel Kerens. After this he went to church. He attended Trinity Reformed Church, in South York is just over. When it became known that he was there he was greeted by every one. The minister made an allusion to the great cares of the office to which the Governor had been nominated. The Governor was prevailed upon to make a short speech to the Sunday school children, which he did gracefully.

The Governor was prevailed upon to make a short speech to the Sunday school children, which he did gracefully.

After church the Governor returned to the Auditorium, and four General Joseph Wheeler of twenty from the Marquette Club, headed by J. P. Whedon, president of the club, General Wheeler, Governor Roosevelt, Mr. Morton and Colonel Kerens. After this he went to church. He attended Trinity Reformed Church, in South York is just over. When it became known that he was there he was greeted by every one. The minister made an allusion to the great cares of the office to which the Governor had been nominated. The Governor was prevailed upon to make a short speech to the Sunday school children, which he did gracefully.
