

THE NEWS OF BROOKLYN

AFFAIRS IN THE BOROUGH ON LONG ISLAND—HAPPENINGS IN SUFFOLK AND NASSAU.

THE MUNICIPAL BUILDING.

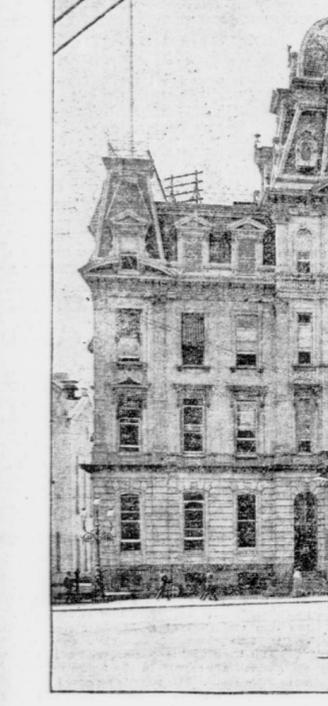

AN INSTANCE IN WHICH BROOKLYN GOT ITS MONEY'S WORTH—ITS MEMORIES.

The Municipal Building is said to be the only public building ever constructed in Brooklyn within the appropriation. Its cost was \$1,000,000. The appropriation was \$200,000. The ceremonies in connection with the breaking of the ground for the building took place on Wednesday morning, June 23, 1876.

The property on which the Municipal Building stands was acquired from Kings County through the transfer to the county of property at North Second-st. and Bedford-ave., which was then, and is still, the site of the old 4th Regiment Armory.

May the new building stand to witness as many centennial celebrations of our country's independence as there are men upon this field. And may the city of Brooklyn survive long after its most enduring marble shall have crumbled into dust!

The Municipal Building is brought to public attention now owing to the fact that Police Headquarters...

quarters in Brooklyn, which has been housed for twenty-two years in the Municipal Building, will leave it to-morrow to take up quarters in the old four-story brownstone building at No. 15 Smith-st., near the B'jour Theatre.

Attached to the Police Headquarters is a telephone bureau connecting all the police precincts of the city. When an arrest is made, when there is a suicide, a murder, an accident, a fire, or any one of the casualties that help make up life in a great city, the telephone bureau is immediately told of it.

The first telephone put into the Municipal Building for journalistic purposes was placed there April 1, 1878. It was done through the enterprise of the defunct "Brooklyn Daily Union-Argus."

Brooklyn members of the Central Board of Education say that they will make several protests tomorrow night, when there is to be a meeting for the adoption of the new salary schedule prepared under the provisions of the Davis bill.

Other Headquarters newspaper men that have become or less prominent are placed there. Robert E. Elder, First Assistant District Attorney in Brooklyn, became a Congressman. Mr. Giffard Nelson, formerly pastor of the Bedford Avenue Baptist Church, and Judge Patrick Keady.

STORY OF BUILDING EPITOMIZED. The story of the Municipal Building is epitomized in the two black marble tablets on both sides of the main hall. The tablet on the right gives the cost of the construction of the building and the amount of the appropriation, with the names of the contractors for the various kinds of work, masonry, marble and carpentry.

GEN. FOWLER'S MONUMENT

COMMISSION ACCEPTS DESIGN FOR STATUE TO BE PLACED IN PROSPECT PARK.

If present plans are carried out there will be unveiled in the Prospect Park Plaza on May 23, 1901, an artistic statue of Brevet Brigadier-General Edward B. Fowler, the first war commander of the "Fighting" 11th Regiment. This project, which is now about to be consummated, was conceived about three years ago, but it has been delayed for various reasons.

The idea of erecting a statue of General Fowler originated with C. T. Mahony, president of the 11th Regiment War Veterans' Association. A commission to have charge of the work was appointed under an act of the Legislature. This commission did not work well together, and by another State bill a new commission was appointed for the erection of a monument and statue of the late General Edward B. Fowler, and providing for payments therefor.
