

MACHINERY EXPORTS.

NO SHRINKAGE IN VOLUME AS REPORTED—WHERE THE MARKET IS FOUND.

Washington, Aug. 24 (Special).—Exports of American tools and machinery do not show the shrinkage in volume which recent reports would indicate.

While the chief market for machinery is still to be found in European countries, an increasing proportion is being sold in the Far East, especially in Japan, Australia, Japan and India.

The demand for American typewriters was never greater, and our machines are pretty good globetrotters. We have just made a shipment to Panama.
