

LATE NOVELTIES IN LACE AND CREPE DE CHINE.

LINEN AND ITS CARE. JANUARY IS THE TIME THE THRIFTY HOUSEWIFE REPLENISHES THIS DEPARTMENT.

The household linen displayed so conspicuously in the shops the first week of the new year suggests the woman's festival of olden times, joyfully known as "St. Dunstan's Day".

When selecting a cheap or medium quality of table damask, choose a pattern that nearly covers the ground. Such a tablecloth will wear better and look better than one of the same quality where there is a great deal of plain surface displayed.

White table linen, which may be boiled and bleached, is easily washed, yet a great many pieces are ruined by careless laundresses who do not attempt to take out the stains until they have been "set" with water and soap, or even boiled in a "stain" that has been treated in this way is a difficult thing to remove.

COSEY CORNER DECORATIONS.

PAPIER MACHE ARMOR IS FINDING FAVOR WITH SOME HOUSEKEEPERS.

The development of the cosy corner is an interesting study. Its inception was in the studios of artists who drew their unconventional fittings together for the comfortable seating of guests on reception days.

Oriental stuffs and decorations in great variety offer themselves for the cosy corner. East Indian wares are desirable in this connection, and the North American Indians of America furnish original material also for the purpose.

The use of arms and armor for cosy corners is not practicable for many people. The expense places them beyond the reach of any but a well filled purse.

A cosy corner calls for some kind of seat, settee, lounge, divan or sofa. In this is made up in a brilliant touch of color.
