

CHANGES AT BELLEVUE.

BOARD APPOINTED BY MAYOR LOW APPOINTS NEW HEAD OF INSANE PAVILION.

Bellevue and its allied hospitals yesterday passed from the control of the Charities Department to the recently appointed board of trustees of seven members provided for by the revised charter.

The board will, it is said, appoint an expert to assume charge of the insane pavilion. President Brannan and Secretary Paulding were at Bellevue Hospital early yesterday and assumed charge of that institution.

In the last week the new trustees have passed considerable time in Bellevue making a thorough inspection of every department.

There was an executive meeting of the new board of trustees in the afternoon which lasted for five hours. At its end Dr. Brannan, the president of the board, said that many important subjects had been acted on.

"Our aim is," said Dr. Brannan, "to give the very best administration possible for Bellevue and the allied hospitals. We have already established one great reform in the Bellevue insane pavilion."

Dr. Brannan said that Dr. Packer had accepted the appointment, and that it was recommended by the State authorities. He said that he believed that Dr. Packer's appointment would be a great benefit to the Bellevue insane pavilion and the Manhattan State Hospital.

Under Dr. Packer's management Dr. Brannan declared, the insane pavilion at Bellevue would practically be a temporary insane asylum.

He announced that the board of trustees had designated committees of two, who would visit each of the hospitals once a week at 10 o'clock, and that a plan had been arranged whereby one of the members of the board would always be in attendance at Bellevue.

Speaking about the alcoholic ward, Dr. Brannan said that there would be great reforms there.

NEW SHERIFF IN HAMILTON.

SUPREME COURT FORCES SUPERVISORS TO CHANGE RULING.

Utica, N. Y., Feb. 1 (Special).—The Democratic Supervisors of Hamilton County to-day issued a certificate of election to B. Frank Kathon, Republican Sheriff-elect, under an order of Supreme Court Justice Stover.

Politics in Hamilton County is decidedly interesting. The county is in the Adirondack region, and has the smallest population of any county in the State. There is not a lawyer in the county, so Dr. McGann, a physician, was elected County Judge.

Kathon was the Republican candidate for Sheriff at the election in November. There were about 60 votes cast. Kathon got 28, J. N. Locke, the Democratic candidate, received 16, and 19 votes were cast for Nathaniel Locke, "Nat Locke" and "Lock." When the Board of Supervisors met it gave all the irregular Locke ballots to J. N. Locke, making 33, and the board decided to canvass and issue the certificate of election to Kathon on January 1.

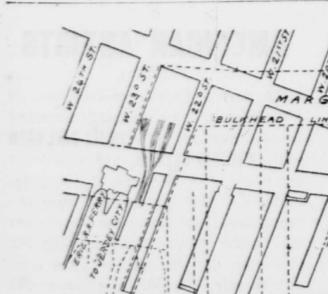

Kathon, through his lawyer, R. P. Anibal, of Johnston, got an order from Justice Stover, compelling the supervisors to canvass the ballots and to issue a certificate to the candidate receiving a plurality of votes. The board met under the order on January 18, and the supervisors canvassed the vote as they did immediately after election. They declared Locke winner, which resulted in the reversal of Justice Stover's order and declaring Kathon elected.

Locke will be ousted from the office. His lawyer, M. D. Murray, of Gloversville, will begin quo warranto proceedings against Kathon, and seek to have him removed by the Governor.

FOR GREATER DOCKING FACILITIES.

SEVERAL LARGE STEAMSHIP PIERS MAY BE BUILT IN THE NEAR FUTURE.

Largely increased docking facilities for transatlantic steamers are contemplated in the plans of the Dock Department for acquiring lands along the North River front between Bloomfield-st. and Twenty-third-st., and constructing large stone piers. Bills which have been introduced in the legislature

DOCK IMPROVEMENTS ALONG THE NORTH RIVER. FOR WHICH LEGISLATIVE BILLS HAVE BEEN INTRODUCED.

By Assemblyman Otto C. Kelsey are intended to make the acquisition of lands required easy and rapid, and enable the construction of the piers to begin at an early date. These are practically the same bills which were passed by the legislature last winter and were vetoed by Mayor Van Wyck. Condemnation proceedings may begin as soon as the bills become laws, and McDougall Hawkes, the Commissioner of Docks, may be able to get the construction of several large steamship piers under way before the expiration of his term of office.

The rapid increase in the volume of transatlantic business at this port has made greater docking facilities necessary, and the Commissioner of Docks believes that the work of constructing more large piers on the North River should be begun with as little delay as possible. The city gets an enormous revenue from its docks, which are rented to the steamship companies.

CANADIANS CLAIMING FISHERIES.

MAY TRY TO SHUT OUT AMERICANS ON THE PACIFIC COAST.

Vancouver, B. C., Feb. 1.—Professor E. E. Prince, chief of the Bureau of Fisheries in the Dominion Government, and several members of Parliament are in Vancouver seeking information with regard to Northern fisheries. The proposal is made that the whole sea along the British Columbia Coast, between Vancouver Island and the Queen Charlotte's, which is now common fishing ground for Canadian vessels, belongs exclusively to the Canadian. The sea is simple and shallow, and from this strait the American fishermen draw vast quantities of cod and halibut. Strong representations were made here to the commissioners for Canadian authorities to exercise the claimed right over the indicated sea coast and endeavor to shut out the Americans.

Joyce fell with his left arm across the track and it was severed at the elbow. Hagen sustained scalp wounds and bruises. The injured men were taken to Flower Hospital.

A half hour later Cos. Ganna, of No. 46 First-ave., while working at the turntable near the scene of the accident to Hagen and Joyce, caught his foot in the mechanism, and before the table could be stopped the foot was crushed to a pulp. The clerk of the court has approved a new surety bond given by the mining company in lieu of the cash bond. This bond is for \$1,000,000 and is in the name of Charles W. Clark, son of Senator Clark, and L. Frank.

The attorneys for the Boston and Montana companies have opposed the acceptance of the new bond, but the court has ruled that they were actually good for the amount in which they qualified.

FIVE THOUSAND OUT OF WORK.

WEAVERS IN AMERICAN WOOLEN COMPANY'S MILLS STRIKE.

Providence, Feb. 1.—All the mills of the American Woolen Company in Olneyville were to-day closed for an indefinite period because of the policy the weavers in the Weybosset and Riverside mills pursued in antagonizing the double loom system by endeavoring to precipitate a general strike, and over five thousand operatives are thus thrown out of employment.

The double loom weavers in the Weybosset Mill struck several days ago, and have since been endeavoring to induce the weavers in the other mills to come out in a body.

The meeting was held at noon to-day in the Riverside Mill, but the leaders suddenly changed their plans, and, instead of transacting their business as anticipated, and allowing the operatives to return to work after the noon hour, they decided that all should adjourn to Textile Hall. As a result 194 weavers left their looms, thereby precipitating the strike. It was unanimously voted not to return to work until the double loom men all grades, except clays and serges, was abolished.

The plans closed are the National and Providence Worsteds mills, the Riverside, Weybosset and Manton mills. The officials of the American Woolen Company have refused to give out any statement.
