

NEWS

ONE OF THE MOST POPULAR TAILOR WAISTS FOR SPRING.

PUBLIC KITCHENS PLAN.

RECENT CONFERENCE OF BROOKLYN WOMEN—MRS. ELLEN H. RICHARDS GIVES HER IDEAS OF SUCH PROJECTS.

From time to time for many years discussions have arisen regarding the practicability of public kitchens where the poor could buy wholesome and nutritious cooked food at a small cost, and sporadic attempts have been made, here and elsewhere, to establish such places. As a result of a recent revival of the question a conference was held by the household economic department of the Brooklyn Institute, but the speakers for and against such projects were about balanced.

SOUP KITCHEN THAT FAILED.

A soup kitchen was started in this city at No. 341 Hudson-st. in 1891, but it did not pay and was abandoned in 1897. A kitchen had since been maintained with some success in connection with the work of Hull House, Chicago.

THE NEW-ENGLAND KITCHEN.

The New-England Kitchen was opened in Boston in 1880. Its object at the first was to supply plain, wholesome cooked food to the poor of the city, and in order to reach those in most need of it branch establishments were opened in various parts of the city and deliveries were made to tenement houses.

WOMEN'S GIFTS TO Y. M. C. A.

Over \$3,000.00 was expended by the Young Men's Christian Association in '90, and the gifts from women amounted to more than \$100.00. Of this sum \$2,000 was given by New-York women, and \$5,000 by Boston women.

LAST LECTURE BY PROFESSOR LANCE.

The third and last of the French lecture readings by Professor Edouard Lance was given on Tuesday at 11 a. m. at No. 12 W. 41st-st. North.

OLD-TIME POPULARITY RECALLED.

The camellia, one of the most popular of hot-house flowers, is almost unknown to people of the present generation. This was illustrated the other day by a conversation overheard before a florist's window.

NEW Alba Peau d'Espagne Sachet

A POWDER OF EXCEPTIONAL STRENGTH. It will not only remove the dandruff, but will also give the hair a soft, wavy, and beautiful appearance.

MOTHERS' CONGRESS ENDS. THE DELEGATES TAKE A TRIP TO MOUNT VERNON.

PROCEEDINGS OF THE LAST DAY—GOOD WORK OF THE JUVENILE COURTS.

Washington, March 2 (Special)—The annual session of the National Congress of Mothers closed yesterday with a business meeting and a trip to Mount Vernon. It is regarded as the most successful session ever held by the congress. Heretofore there has been a sentiment, frankly expressed, that it was a congress of theory rather than of fact—aiming at practical lines, but falling short in the attainment. But the Congress of Mothers is no longer a theory. It is a fact. All through the session just adjourned the practical came to the top.

The great good accomplished by the Juvenile Courts, as indicated by the contrast between the two systems of dealing with juvenile offenders—the one placing them in jail with criminals to await trial, and by such contact often becoming as hardened as the criminals themselves; the other placing them in charge of probation officers, whose influence and effort is to reclaim and reform, and not to punish—has been a subject of discussion at the session.

On the other hand, Mrs. David O. Mears, president of the New-York Assembly of Mothers' Clubs, is a woman who has been a member of the national board, and she has been a member of the national board, and she has been a member of the national board, and she has been a member of the national board.

COLLEGE GIRLS' LUNCHEONS.

DISHES SUITED TO THE CHAFING DISH AND LIMITED RESOURCES.

"The college girl's pantry may be represented by a bottle of paprika, a salt and pepper shaker, a baking powder can full of flour, a bottle of mustard and a well filled cracker jar," says Mrs. Richards.

AT A WINTER FETE.

Earl and Countess Grey, with their daughter, Lady Stiel Grey, and their niece, Lady Alice Beauclerc, were the guests of honor at a beautiful winter fete given last week at Government House.

CRITICISM OF CLUBWOMEN.

"With sixteen national women's organizations it would appear that the interests of the better part of mankind, so to speak, should be well taken care of," says Dr. Atwood in "The Universal Leader."

THE TRIBUNE PATTERN.

A TISSUE PAPER PATTERN OF WOMAN'S THREE PIECE SKIRT, NO. 4065. FOR 10 CENTS.

Skirts with flounces that produce ample flare at the feet, and that fit with snugness about the hips are in the height of style, and appear to gain in favor month by month.

The pattern is made to fit any address on receipt of 10 cents. Please give number and waist measure distinctly. Address: Pattern Department, New-York Tribune.

ST. CHRISTOPHER CHAPTER. The St. Christopher Chapter, King's Daughters, will give an entertainment for the benefit of St. Christopher's Home, Berkeley Lyceum to-morrow evening at 8:15 o'clock.

SUNSHINE SOCIETY.

Have you had a kindred shown? Pass it on. Let it travel down the years. Just where you think you are. Till in heaven the deed appears—Pass it on.

YOUR PLACE. Just where you stand in the conflict. There is your place. Just where you think you are useless. Hide not your face! God places you there for a purpose. What'er it be. Think you He has chosen you for it? Work loyally.

Will the members who are willing to furnish Easter cards or other good cheer offerings for the Easter time please send their contributions early, that those living in distant States and countries may receive their sunshine in time, and thus avoid the rush and overwork of the last Lenten weeks at the general office?

Miss Nellie Kellough, of Cincinnati, is now staying at Foster, Bracken Co., Ky., on account of the invitation to a member of her family. She writes that this is the first time in eight years that she has been out of the city.

Miss Isabella Haines, of Mamaroneck, N. Y., paid her initiation fee to the T. S. S. by sending a box of delicacies to a member recovering from an illness. "Weather in New-York," besides writing several sunshine letters and making calls on the sick.

John Krell, of New-Haven, Conn., carries on his sunshine work in a regular and systematic manner, and every month is a record of brightness sent into the lives of others. During February he sent reading to members living in Connecticut, Florida, New-Jersey, New-Hampshire, Illinois, and Ohio.

Miss Mabel Telford, a member in Arizona, as a goodwill offering on an auspicious occasion in her life.

Mrs. P. M. Thomson has paid her Sunshine dues for the year by sending a large bundle of muslin to the Cancer Hospital, "Harper's" for one year to the Soldiers at Manila, fifty text cards to Mrs. Gammon's Sunday school in Rhode Island, a chair, table and a box of pictures to the Hospital for Crippled Children and making two outing skirts for a little "house mother."

There is beside the old Chesapeake and Ohio Canal a group of quaint stone buildings that date back nearly to the Revolutionary War, but are devoted now to a distinctly modern charity. The "Towpath Mission," as it is called, is for the children of the canalboats. It is supported and conducted by Mrs. E. L. Safford, of Washington, D. C.

Mrs. Safford spends about five hours a day at the mission, and teaches the children to read, to sew, to knit, to make baskets, and to do other home industries as taught, and the finished articles, when well done, are given to the makers.

A concert under the joint direction of the Public Education Association and the City History Club is to be held at Carnegie Hall on Saturday evening, March 22. Music will be furnished by the Musical Art Society and an orchestra of eighty musicians.

"My dear," said the wife of the eminent professor, "the hen has scratched up all that eggplant need you sow?" "Ah, jealousy," mused the professor. And he set down and wrote a twenty page article on the "Development of Envy in the Minds of the Lower Grade of Birds."—(Baltimore American.)

PLAN FOR PROPOSED MUNICIPAL BATH, WITH 50-FOOT FRONTAGE. (Drawn by York & Sawyer.)

Probably therefore about 2,500 baths a day here, where seventy-nine compartments are provided.

In order to be available to the largest number, public baths must obviously be in the centre of densely populated districts, and in such districts the land is costly. Such a building ought therefore to be designed to provide the largest possible bathing capacity on the smallest site which will adequately serve the surrounding population.

The main floor provides a men's waiting room, and in the bathing room thirty showers and three tubs. The second floor, which is reached by a separate entrance placed as far as possible from the men's waiting room, contains fifteen showers and three tubs for women and children.

The total capacity of the building is therefore fifty-one baths—that is, while this scheme provides fifty-one baths on 2,200 square feet of ground, or one bath to each 43 square feet of ground, the city of New-York has at present only one bath to each 1,000 square feet of ground.
