

About People and Social Incidents.

THE DIPLOMATIC CORPS.

Washington, Nov. 20 (Special).—Count Montenegro, third secretary of the German Embassy, is attending the Horse Show in New-York.

Yung Kwai, interpreter of the Chinese Legation, accompanied Mr. Wu to China to spend his six-month leave of absence in his native land.

Miss Louise Bourke, who is here to spend the winter with her aunt, Mrs. J. N. Lager, at the Haytian Legation, is not a debutante in the American acceptance of the word, as she appeared in society last winter.

Sidney Waterlot, attaché of the British Embassy, is in January to introduce her attractive young relative, Alfred Lager, brother of the minister from Hayti and secretary of the legation, in Paris, and, with his wife, may remain at the French capital all winter.

General and Mrs. Gillespie gave a dinner to-night. Their guests were General and Mrs. Corbin, Major-General Young, Mr. and Mrs. Perkins, Mr. and Mrs. Frank, Mr. and Mrs. Esterhazy, Miss Evelyn Hunt and W. E. Foster.

MR. MORTON SELLS HIS CAMP. Ex-Governor Levi P. Morton has sold, through Frederick Zittel, to Mitchell A. C. Levy, Pinebrook Camp, Upper Saratoga Lake, Adirondacks.

NEW-YORK SOCIETY. A number of well known people made their first appearance at the Horse Show yesterday afternoon.

Among those seen there in the afternoon was Mrs. W. Seward Webb, who arrived with her sister, Mrs. William Douglas Sloane, and occupied a seat in Mrs. Edmund L. Baylies's box.

Mrs. J. Norman de R. Whitehouse spent most of the afternoon in the Elbridge T. Gerry box, which she had just purchased.

Mrs. C. Oliver Iselin, who was one of the late arrivals, wore, with a pink cloth frock, a white beaver felt hat, the brim of which was looped up with bands of black velvet.

Reginald Vanderbilt's box, as usual, was occupied by his fiancée, Miss Catherine Nelson, who is in had with her Miss Natalie Schenck, the latter in a tailor frock of black broadcloth and a large black hat.

Between the afternoon and evening sessions of the show a number of dinners in connection with the latter were given at the fashionable restaurants.

Baltimore, Nov. 20.—William F. Cochrane, of New-York, son of William F. Cochrane, who recently died in Yonkers, N. Y., was married here to-day to Miss Nina Lorraine Gill, daughter of C. Cochrane.

Utica, N. Y., Nov. 20.—James E. Duroso, of the law firm of Holt & Duroso, of New-York, and Assemblyman from the VIIIth District, was married to Miss Margaret Delamoure Tourbet, of Ilion, in the Church of the Ave Maria, at Ilion, last night.

THEATRE AND DINNER PARTIES HAVE somewhat interfered with the attendance of the fashionable set in the evening at the show throughout the week.

Mrs. Stuyvesant Fish, who arrived with Mrs. James W. Gerard, Mr. McCreery and Miss Daly, was arrayed in a costume of jetted black lace.

James Henry Smith's box, as usual, was occupied by a large party, the most notable figure of which was Mrs. J. Norman de R. Whitehouse.

Others present comprised Mrs. Wilbur Bloodgood, in white cloth, with a large white marabout feather boa and a turban of the same material.

Johnnie McCraw was a bit of a character in a country village in the North of Scotland. He lived on the charity of the villagers, but sometimes found it particularly hard work to do so.

The volcanic outbreaks of the year have been exceptional. Just how long the necessity for more than usual relief will exist cannot be foretold. Still the present situation encourages the hope that when an abatement does come a compensating prevalence of more than average serenity will be observed.

The unsatisfactory condition of the coal market in this city must lead everybody to think of what it would have been if we had had freezing weather for the last six weeks.

Mississippi bears an evidently deficient in that fine spirit of courtesy which distinguished "Daddy" Crockett's team. "Don't shoot, Mr. Crockett," said the 'coon from his perch in the treetop, "I'll come down"; and he did come down.

One of the most recent developments in the management of trades unions is one of the most exasperating. The man who receives notice that important work which he has undertaken must be stopped for an indefinite time, not because anybody has the least fault to find with him, but because two or more labor organizations are pleased to fight one another, is justified in complaining that he is a victim of intolerable oppression.

The Yale-Harvard football game to-morrow is likely to command a record breaking attendance and illustrate the highest possibilities of the game. It is all the more to be regretted, therefore, that questions of eligibility to play could not have been settled quietly and decorously at an earlier date.

The announcement that all the telephone, telegraph and electric light wires in Brooklyn must be put underground within six months, by order of the Commissioner of Water Supply, Gas and Electricity, will cause general joy throughout that borough, and be applauded by the rest of the city, which wishes to have all its component parts a credit to civilization.

Skating in Berlin and almost arctic gales on the European Continent from St. Petersburg to Geneva this week. Meanwhile, fortunate New-York has been basking in the gentle atmosphere of a true St. Martin's summer.

With four hundred children registered in this city alone for treatment by the great Viennese specialist for congenital hip disease, the need for more specialists of our own in that afflicting disability would seem to be emphasized, and perhaps it will be found on examination that those who suffer in that way deserve a hospital all to themselves.

"This story is being told in Paris," says "The Westminster," "concerning a well known public man who recently was presented by a Soudanese potentate with the Labaki-Tapo Order of Merit. The recipient, anxious to display the decoration at the party, applied at once to the Ministry for permission to wear it. While readily granting the permission, the minister inquired, with the ghost of a smile, "Do you know what the order is like?"

"Certainly," replied the delighted applicant; "it is a beautiful gold ring, and hanging from it a small red enamel pipe of peace. I should like to wear it."

"Of course you may wear it; but according to law you have to wear it as it worn by the natives in Africa."

INDIANA—THE MOTHER OF GREAT MEN. Between the blue of inland seas and sunset's golden gleam, and under her fern farms And waves the web of state. The weft and warp of power and fame are woven smoothly together; The whirling of her busy loom is heard in distant lands.

From her log-built cabin door, Full running, her curly hair has gone The nation's loom to tread; From her loom, the loom of scroll You place the good and great, Among the Union's glorious names Write him in.

Objection to the use of the French word "chauffeur" in the ordinance regulating the speed of automobiles in Kansas City has led to the substitution of the word "operator" to designate the man controlling the machine.

"She's evidently the apple of his eye." "He told me she was a peach." "He said that she was a peach, they are a fine looking pair."—Indianaian.

The question of Sir Walter Raleigh's burial place has lately been revived in England. Three churches claim both the head and body of the gallant courtier. Immediately after the execution, which took place in Tothill-st., Westminster, on October 23, 1618, his wife placed the head in a red bag and rode off with it in a mourning coach.

After two or three banquets whereat the menu consisted of the most delicate finger dishes of many syllabled French words, it must gratify the sense of delight in contrast for the President to be invited to a dinner of beef, mutton and sweet potatoes in the Mississippi wilderness.

In the mean time volcanic disturbances are reported from other parts of the globe. Stromboli's performance is not a fresh outbreak, because it has for many years remained continuously active. The display of energy has been a modest one, though. Stromboli is often cited as an illustration of the moribund volcano.

City, by the Army of the Potomac, supported by national guardsmen rushed from New-York, Philadelphia and other Northern cities to the point of danger. Our country is now happily united and at peace. But if an army ever marches to sack Philadelphia, or a hostile fleet ever sails up the Delaware to bombard it, we are sure Mr. Coxie will not be among the timid merchants praying the government for protection.

The anti-American spirit in Cuba must be overcome. Relations between the two countries must be put upon an exceptionally and exclusively intimate basis. The policy of three-quarters of a century and the results of a costly war must not be abandoned nor questioned.

The work of establishing proper relations has been too long neglected, but it must be done. It will be harder than it would have been, but it must be done; and it will be done. Of that fact the United States and Cuba and all the world may as well take notice.

THE CORONER'S OFFICE. A bill to abolish the coroner's office in this city, such as the local medical societies are understood to favor, may wisely be introduced in the legislature at the coming session.

THE TARIFF COMMISSION PLAN. The President, according to our Washington correspondent, intends to ask Congress to appoint a tariff commission, which shall scientifically investigate and consider the question of tariff revision and shall report the result of its labors to the new Congress a year hence.

FOREIGN.—Manufacturers in Bradford, Leeds and other industrial cities of England complain of the decline of their trade with America, owing to the protective policy of the United States.

DOMESTIC.—The President passed through Knoxville and Asheville on his return to Washington, where he expected to remain for a few days to-day.

CITY.—Stocks were strong and moderately active. Both Strubel made two attempts yesterday to commit suicide, after having been arrested by Chief of Police.

THE WEATHER.—Indications for to-day: Fair. The temperature yesterday: Highest, 57 degrees; lowest, 45.

THE ALIENATION OF CUBA. The report of the development of a strong anti-American spirit in Cuba will naturally give rise in this country to varied emotions.

THE ALIENATION OF CUBA.

The report of the development of a strong anti-American spirit in Cuba will naturally give rise in this country to varied emotions. There will be regret, and there will be resentment.

There is no occasion for surprise, if even for resentment, either, at the discovery that other countries have been making the most of the situation for their own advantage.
