

ALL WIRES DOWN. Western Union Has None on P. R. R. in Pennsylvania.

Philadelphia, May 22.—The Western Union Telegraph Company today has not a wire working on the lines of the Pennsylvania Railroad in this State. Officials of the Western Union say, however, that the company is keeping up with its through business by using wires along the Baltimore and Ohio and the New-York Central railroads. The work of removing the Western Union poles and wires from the lines of the railroad was continued to-day.

It was announced at the office of the Pennsylvania company that it would not permit the Postal Telegraph Company or any other corporation to own the poles for telegraph service along the lines of the railroad. According to officials of the company, it is the intention to replace the poles of the Western Union Telegraph Company by others owned by the railroad company.

Baltimore, May 22.—The Northern Central Railroad Company, a branch of the Pennsylvania system, to-day began cutting the Western Union wires from all poles on that line. The poles belong to the Northern Central, and are not being disturbed.

Hagerstown, Md., May 22.—A large force of men is removing the poles of the Western Union Telegraph Company along the Cumberland Valley Railroad, which belongs to the Pennsylvania system. Gangs are working toward Harrisburg and Winchester from this city.

WILL GO TO THE SUPREME COURT. Western Union Counsel Says P. R. R. Officials Are Running Loose Like Vandals.

Officials of the Western Union Telegraph Company yesterday declared that they would sue the Pennsylvania Railroad Company for the damage done to the company's poles along the lines of the Pennsylvania Railroad Company in Pennsylvania. Robert C. Clowry, president of the Western Union, and Thomas F. Clark, one of the vice-presidents, said that the company was transacting its business as usual. That was all they would say about the situation. Operators at the offices of the Western Union in the city had instructions not to receive messages for certain points in Pennsylvania, but they would not disclose any lists of places. Many messages were taken for transmission "subject to delay."

Ex-Judge John F. Dillon, chief counsel for the Gould interests, intimated that suits for damages would be brought against the Pennsylvania Railroad Company. The Western Union would carry its case to the United States Supreme Court, he said, adding:

The Supreme Court will ultimately judge as to the rights of the telegraph company, and if those rights are established the company will be restored to its rights on the Pennsylvania Railroad, and compensated for all damages to its property and business.

STORMS KILL SIX. Three Drown, Two Die in Tornado, One Struck by Lightning.

Lincoln, Neb., May 22.—Storms and high water caused four fatalities and much damage to property in this State to-day. At Sterling, in attempting to cross the Nemaha River on a weakened bridge, three persons—Frank Harns, a farmer; his sister, Mrs. Edward Puhke, and her six-year-old child, were drowned. At Lewistown, in an electrical storm, John Bowen, a Rock Island Railroad employe, was killed by lightning.

Clay Centre, Kan., May 22.—A severe tornado passed over Clay and Riley counties this afternoon. At Bala, Riley County, two little girls named Daub were killed, and several persons were injured. Five houses were blown away and many cattle were killed. The storm cleared a path forty rods wide.

TEMPERATURE A BIT COOLER. Showers Help the Grass a Little—Two Prostrations.

Slowly but surely the weather is assuming its normal condition. Yesterday the maximum temperature was 85 degrees, recorded at 3 p. m., was 1 degree lower than that of Thursday. Additional showers early in the morning helped the grass a little, and gave further hope that the drought was finally broken. That a normal condition is approaching was further demonstrated by the forecast given last night. This was for fair weather to-day, except for showers, and a lower temperature on the coast. To-morrow there are to be faint showers, with a north wind, becoming variable.

The total rainfall for May is now .23 of an inch. An inch has been needed for the past week. The showers which are to come will be due to the large area of low temperature approaching the coast. There were two prostrations from heat reported yesterday.

TO TAKE IN MANY COTTON MILLS. Southern Textile Company Holds Meeting in This City.

At a meeting of the directors of the Southern Textile Company held in this city yesterday, Walter H. C. Fayetteville, N. C., and D. L. Lewis, of Sylvania, Ala., were added to the board. Contrary to reports, all the mills in Alabama, Mississippi, Tennessee and Georgia are being taken into the company, while many of the manufacturing concerns in this country have been organized with a view to amalgamating with the larger concerns. The Holt mills, of No. 33 North-st., New York, were absorbed, and the American Light and Traction Company will become the headquarters for the handling of the woven products. The yarn will be in charge of T. Ashley Elythe, of Philadelphia.

MAY LEASE BIG GAS COMPANY. Negotiations are in progress, it is learned, for the leasing of the American Light and Traction Company, of the Washington Heights Baptist Church, at Convent-ave. and One-hundred-and-forty-fifth-st., who was committed to Bellevue Hospital on Thursday by Magistrate Zeller, in the Harlem court, to be examined as to his sanity, was taken from the institution yesterday by his mother, Mrs. M. J. Schuyler, who said he was insane.

PASTOR'S SON NOT INSANE, IT IS SAID. Schuyler Chamberlain, the son of the Rev. John Chamberlain, pastor of the Washington Heights Baptist Church, at Convent-ave. and One-hundred-and-forty-fifth-st., who was committed to Bellevue Hospital on Thursday by Magistrate Zeller, in the Harlem court, to be examined as to his sanity, was taken from the institution yesterday by his mother, Mrs. M. J. Schuyler, who said he was insane.

RUBBER TRUST ORGANIZES. The Board of Directors of the United States Rubber Company organized yesterday by electing the following officers and executive committee for the ensuing year: President, Samuel P. Colt; vice-president, Costello C. Conner; secretary, James H. Ford; secretary, Samuel Harris; assistant secretary, John J. Watson, Jr.; assistant secretary, John J. Watson, Jr.; assistant secretary, John J. Watson, Jr.; assistant secretary, John J. Watson, Jr.

METROPOLITAN GOLF CHAMPIONSHIP at Deal Beach next week. Forecast of the results, with pictures of prominent contestants, in to-morrow's Tribune.

ROYAL BAKING POWDER Absolutely Pure THERE IS NO SUBSTITUTE

CRITICISE MANAGEMENT. A MOSQUITO LUNCHEON.

Appropriation for Disciplinary Training School Opposed. Guests Talk About Pests and See Them Killed.

Henry M. Lechtrecker, an inspector of the State Board of Charities, and D. C. Potter, chief executive officer of Accounts of Institutions in the Controller's office, appeared before the Board of Estimate and Apportionment yesterday and opposed the application of the managers of the Brooklyn Disciplinary Training School for the appropriation of \$25,000 for new barracks for the school. Some of the criticisms are as follows:

Lack of interest and attendance on the part of the Board of Management.

A MOSQUITO LUNCHEON.

Guests Talk About Pests and See Them Killed.

The Mosquito Luncheon given yesterday by Henry Clay Weeks at the Sheepshead Bay Club, under the patronage of William C. Whitney, was a success. Mr. Weeks is engaged in exterminating the anophelis and culex, the family names of the two species of mosquitoes inhabiting the southern shores of Long Island. Mr. Whitney has employed the mosquito exterminator to rid his training stables on the old Garrison place, adjoining the Sheepshead Bay racecourse, and the territory immediately surrounding it, of the little pests, whose chief aim

YESTERDAY'S MOSQUITO PARTY AT SHEEPSHEAD BAY. Otto Kemper, Dr. L. C. Howard, Cornelius Fellows, Dr. Joseph Raymond, Henry Clay Weeks and others discussing mosquitoes on the veranda of the Sheepshead Bay clubhouse.

Lack of efficiency in the executive and professional staff. A persistent violation of the laws of the State Board of Charities and the Board of Health, as to overcrowding the dormitory quarters, and the maintenance of unsanitary conditions. There should not be more than two boys in a room which has 250. No compliance with the vitally necessary rule of institutions of this class for sufficient lawful space between beds. The cost per capita is about double that in private institutions.

James Farrell, superintendent of the school, warmly resented the criticism of Messrs. Lechtrecker and Potter, and asked that a committee be appointed to visit the school and make a report. "I will furnish affidavits," said Mr. Farrell, "showing that the assertions of these two gentlemen, who are paid to find fault, are in many cases absolutely without foundation."

The Mayor, Controller and President of the Borough of Brooklyn were appointed a committee to investigate the management of the school.

MCLUSKY GETS FLATHOUSE THIEF. Has Diamonds and Other Valuables Worth \$1,000—Companion Escapes.

William Mitchell, a flathouse thief, sent away some years ago, for burglary, whose picture is in the Rogues' Gallery, was arrested yesterday coming out of the apartment house, No. 243 West Fifth-st., with a bundle of diamonds, jewels and other valuables which cost not less than \$1,000. He and another man had been followed by Detective Day and Deering, of Inspector McClusky's staff, for three hours and all the way up from Twenty-third-st. and Eighth-ave. The other man escaped.

According to the detectives' story, the men set watch on the flathouse, No. 243 West Fifth-st. Presently Mrs. Freda Bashay, a tenant on the second floor, went out. The two men rang the bell, the front door did not open, and they went into the basement, the detectives say. Deering went into the back yard, and he says the men got on the fire escape in the rear and ascended to the second floor where, he declares, they got into the apartments of Mrs. Bashay. After a time Mitchell came out and was arrested, but Riley escaped by way of the roof.

Mitchell was taken to Police Headquarters with the bundle. When opened, the police say, diamonds, pearls and other gems and jewelry, with various articles of value, worth at least \$1,000, were wrapped up in it.

BOY UNCONSCIOUS AND NUDE. He Is Found on Rockefeller Estate—A Foreigner, and Cannot Talk Intelligibly.

The police of North Tarrytown have a peculiar case on their hands. An unknown boy was found naked and unconscious on John D. Rockefeller's estate yesterday. When he came to his senses he talked in an incoherent manner, and no one could understand him. His clothing has not been found and the police have searched carefully for it.

The boy was discovered on Mr. Rockefeller's property, about thirty feet from the Gory Brook Road. William Hutton, who found him, thought the boy was dead, and happened to find the head in a bush. The ambulance was summoned and the boy was taken to the hospital. He is recovering. The boy is a foreigner.

VAN WORMER BOYS MUST DIE. Their Conviction of Murder Affirmed by Court of Appeals.

Albany, May 22.—The Court of Appeals to-day affirmed the conviction of murder in the first degree against the three Van Wormer boys sentenced to death for the murder of their uncle, Peter A. Hallenbeck, at Greenport, Columbia County, on Christmas Eve, 1901.

seems to be to make life for man and beast as much of a burden as possible. Mr. Weeks, with the assistance of Mr. Whitney, gave the luncheon to enlist the interest of the city authorities in his project, so it may be extended considerably beyond the range of his personal efforts to sweep away the last remnants of mosquitoes, from Canarsie to Norton's Point and Fort Hamilton northward to Prospect Park.

The plan involves the draining of stagnant pools wherever possible, the covering with petroleum of shallow ponds and swales which cannot be drained, smothering the larvae as they rise to the surface to take on wings and join the choral insective, the cleaning out of bad cisterns and cess-pools, and the abolition of rainwater barrels and other receptacles for fresh water, which is afterward allowed to stagnate.

When Mr. Weeks undertook this task for Mr. Whitney he asked the co-operation of the health authorities of the State, city and borough, and of the police, and they tendered him their assistance to the extent of their authority and available resources. He also enlisted the co-operation of the Agricultural Department of the federal government, and yesterday Dr. L. O. Howard, said to be the world's greatest mosquito expert, was one of his guests.

After the dinner Mr. Weeks called on Dr. Raymond, Deputy Health Commissioner of Brooklyn; Otto Kemper, representing the Department of Public Works; Mr. Cortelyou, representing the Brooklyn Rapid Transit Company; Stanley Brown, assistant engineer of the Long Island Railroad; Captain Piper, Deputy Police Commissioner; Frank T. Clarke, president of the Sheepshead Bay Club; Cornelius Fellows, secretary of the Coney Island Jockey Club, and H. C. Macdonia, representing Mr. Whitney, to declare their attitude toward the project nearest his heart, which he habitually mentioned as his "important proposition." Each pledged, so far as he had authority to speak for his department or corporation, his hearty support. Dr. Howard had briefly discussed the character and habits of the mosquito over the coffee, and had declared that it could be wholly exterminated in any locality by the adoption of such measures as Mr. Weeks proposed.

The parts of the borough requiring treatment were clearly shown on maps on the wall, to which Mr. Weeks referred. He said one of the worst mosquito breeding places in the borough was an estuary of Coney Island Creek about midway between the Sheepshead Bay and Brighton Beach race tracks. He advocated dams across Coney Island Creek at the head of navigation of Sheepshead Bay, and the building of a dam at the mouth of the creek, which would prevent tidal water from flowing into the creek, and which would prevent the water from being polluted by the sewage of the city.

"A thoroughbred horse is all nerves," said he, "and a few mosquitoes can put it out of racing condition."

Secretary Fellows of the Coney Island Jockey Club, who said that which should be done, which I urged before the Governor in Albany, has been accepted by the Attorney General. This shows what an aroused public spirit can accomplish.

PRaises L'HOMMEDIU BILL VETO. James S. Lehman, chairman of the West Side Committee of One Hundred, said yesterday to a Tribune reporter, regarding the veto by Governor O'Connell of the so-called "L'Hommedieu Grab Bill," which sought to extend consents for street surface railroad extensions in counties adjoining cities of the first class:

I appreciate very much the action of the Governor. He did just what I expected him to do. I am glad to see the constitutionality of the law, which I urged before the Governor in Albany, has been accepted by the Attorney General. This shows what an aroused public spirit can accomplish.

PROPERTY AS WEDDING GIFT. Cass Cohen, the furrier, bought yesterday from Alexander Louis Minsky, through S. Steingut & Co., No. 592 to 594 Eleventh-ave., three story houses with stores on a plot 75x100 feet. Each house has fourteen rooms. He will improve the property and give it as a wedding gift to his son George Cohen, who will be married in about two weeks.

TO LIST 50,000 BABIES.

Dr. Lederle Has New Plan for Guarding Milk Supply.

Concerning the purpose of the \$10,000 which was voted by the Board of Estimate and Apportionment to the Health Board yesterday, Commissioner Lederle told a Tribune reporter last night that it would assist several new features of the department's work, including the obtaining and compilation of all new birth certificates in certain districts.

"By this means," said Dr. Lederle, "in two or three months we shall have a list of some fifty thousand babies, and thus be able to take notice of the milk supplied, without having to send men around first to find out as to the babies in the house."

"Each of the inspectors," he added, "will have so many hundred babies assigned to his special charge. The family names of the two sections of the 'malaria' and 'typhoid' in the 'malaria' section, additional inspectors will be employed for checking the propagation of the malaria breeding mosquito and the purchasing of oil to be scattered over the territory where the mosquito lives and thrives."

The 'typhoid' section, the working of which the appropriation will materially assist, includes the inspection of the Brooklyn and the Croton reservoirs, the testing of clams and oysters and a more rigorous investigation of milk sources."

A DEVERY MAN ARRESTED. E. J. Milan, Said to Have Been "Close to the Throne," Taken on Poolroom Charge.

Edward J. Milan, who in Devery's administration of the Police Department was said to be "close to the throne," was arrested yesterday, charged with keeping a poolroom at No. 35 Myrtle-ave., Brooklyn. Others arrested in the raid were Eugene Murray, of No. 125 West 10th-st., and Frank Murphy, of No. 145 Atlantic-ave. The prisoners were released in \$1,000 bail.

Milan used to keep a notorious saloon, but his license was revoked about a year ago. The place has since been run under another name.

PROMINENT ARRIVALS AT THE HOTELS. ALBEMARLE—Captain Francis Winslow, U. S. N. (retired). ASTOR—Stewart Railroad Commissioner F. M. Baker, of Oswego; Señor Jean P. de S. G. G. of Washington, and A. F. NEW-YORK CITY. A company of New-York negro business men has recently contributed money for two scholarships at the Tuskegee Institute.

At the Fifth Avenue Presbyterian Church, to-morrow the pastor, the Rev. Dr. J. Ross Stevenson, will preach in the morning on "Not Far from the Kingdom," and in the afternoon on "Misplaced Solitude."

At the First Baptist Church, Broadway and Seventy-ninth-st., the Rev. I. M. Haldeman, the pastor, will deliver the second sermon of the morning series on "Divine Certainties," the topic being "The God of the Universe a God of Love." In the evening, by special request, he will preach on "The Kishineff Horror: Its Relation to Prophecy; Its Effect on Zionism; Russia's Doom, as Foretold in the Bible."

At the Scotch Presbyterian Church, Ninety-sixth-st. and Central Park West, the Rev. George A. Armstrong will preach to-morrow morning on "Spiritual Harvesting," and in the evening on "The Lamb of God."

Mrs. Telika will speak on "My Six Months' Experience with Miss Stone Among Brigands" at the men's mass meeting in the West Side Young Men's Christian Association, No. 318 West Fifty-seventh-st., to-morrow at 4:35 p. m. Julian Walker and a mixed chorus will sing.

"The Negro and the South" will be the subject of the Rev. Dr. Dean Richmond Babbett to-morrow evening at the Church of the Epiphany, McDonough-st. and Tompkins-ave., Brooklyn. This will be the third of a series of Sunday evening sermons on "The Gospel and the Race Problem."

At Bloomingdale Reformed Church, Broadway and Sixty-eighth-st., the Rev. Dr. G. S. Johnson will preach to-morrow at 11 a. m. on "Does God Care for Man? A Study of God's Attitude Amidst Misery and Drouth." In the evening he will preach on Emerson's words, "Hitch your wagon to a star."

At the Old First Presbyterian Church, Fifth-ave. and Twelfth-st., the pastor, the Rev. Dr. Howard Duffell, will preach to-morrow at 11 a. m. on the "Tokens of God's Love." At 4:30 p. m. the oratorio "The Holy City," by Alfred R. Gaul, will be sung, under the direction of William C. Carl.

PROPERTY AS WEDDING GIFT. Cass Cohen, the furrier, bought yesterday from Alexander Louis Minsky, through S.
