

AT THE NATIONAL CAPITAL SERVICES AT ARLINGTON.

Charles Emory Smith's Tribute to the Men Buried There.

Washington, May 30.—With solemn and impressive ceremonies Memorial Day was observed in the national capital on a more elaborate scale than ever before.

The weather was perfect, cool but with a brilliant sun shining from a cloudless sky.

After a short march through the city the organizations in the parade boarded electric cars for Arlington, the most beautiful of the national cemeteries, overlooking the Potomac.

The procession reformed at the gates, and a national salute was fired by the 4th Battery, United States Field Artillery.

The procession marched to the tomb of the "Unknown Dead," which had been decorated by a special committee.

At the conclusion of the ceremony of decorating graves, a great crowd gathered in the amphitheatre.

The beauty and sanctity of Memorial Day, instead of declining, rather increases with the passing years.

The old issues have passed away. There are new questions of deep import—questions which come in some measure to excite the old feeling.

The war for the Union had to come before we could enter upon our great national development.

Later in the afternoon the monument and bust of the late Senator Cushman K. Davis, of Minnesota, was unveiled with appropriate ceremonies.

In concluding his tribute to the memory of Senator Davis Mr. Castle said:

His soul was the sanctuary of great designs and grand ideals. He walked the mountain ranges in his thought; he compassed the world in his intellectual conceptions.

Under the auspices of various posts of the Grand Army of the Republic memorial services were held in all of the cemeteries of the District of Columbia, national and private.

THE POSTAL INQUIRY.

No Important Developments—To Examine Leases.

Washington, May 30.—To-day was observed as a holiday in all departments except the Postal Inspection Service, where the inquiry into postal administration was pressed vigorously.

The published suggestion that the defence of former Superintendent Machen will be that he was a partner in the firm of Groff Brothers, which had the contract for furnishing patent fasteners to the government, is declared, in without foundation, and the statement is made that this is not the line of Mr. Machen's defence.

There will be a thorough examination of the leases of postoffices throughout the country when investigation of the affairs of the salary and allowance division is taken up actively.

This is the division of which George W. Beavers, of Brooklyn, N. Y., was the head when he suddenly resigned, several months ago. The leases of third class postoffices, which constitute by far the largest number of the three Presidential grades, number approximately thirty-five hundred, and are limited in specific terms by law to a maximum of \$400 a year, plus \$60 a year for fuel.

It is said that more than one go-between may have figured in the alleged transactions which led to the arrest of Mr. Machen.

This is a clear case against McCue. It seems that for eight months he has been working for the property of the Charles J. Hershfeld, was rearrested in the Tombs Court yesterday before Magistrate Denel, and held in \$50,000 bail for further examination to-morrow.

UP GOES PRICE OF ICE.

Trust and Independents Add 50 Cents a Ton.

SMALL DEALERS TO MEET TO-DAY.

It became known yesterday that last Thursday the American Ice Company advanced the wholesale price of ice from \$2 to \$2.50 a ton, an advance of 50 cents, or \$1 over the price prior to April 1, when it was raised from \$1.50 to \$2.

In Manhattan this will probably raise the retail price a hundred pounds from 30 to 35 cents. But it is on the East Side that the blow will fall hardest.

According to a statement made last night to a Tribune reporter by a representative of R. G. Foster, one of the largest independent East Side ice dealers, the trust and the independents agreed to raise the price.

"Selling at \$3, we shall not have to pay our harvester the same percentage as at \$2.50," he said, "and consequently shall be able to make 50 cents a profit as well as 30, as in recent weeks. The retail dealer will have no cause to grumble, as, when he sells to the householder at 22½ cents a hundred, by selling to us at 15 cents, he makes a profit of 7½ cents, against 5 cents when he bought from us at 12½ cents, selling at 17½ cents."

The principal fear of the East Side Ice Dealers' Association, composed of small retail ice dealers, is apparently that the Ice Trust will undersell them with their own customers.

CROWD AT ASBURY PARK.

WELL LIGHTED AT NIGHT.

The new boardwalk is now controlled by three commissioners appointed by the city—Fronzier Bradley having turned over his possessions to the municipal authorities.

With the city in possession of the beach and with promises of a more liberal policy in the management of the same, capital is already being attracted to the new Asbury Park. New hotels are being contemplated and old ones are to be remodelled.
