The greatest difficulty of Emperor William's physicians is to keep him from overtaxing his voice. They have told him that he must not speak above a whisper, and not often. State business is piling up, and various matters in which the Emperor is personally interested are coming up for discussion.

REPORT ON RUSSIAN PEASANTS.

St. Petersburg, Nov. 12.—The result of the inquiry instituted by the czar into the cause of the increasing poverty of the peasants has been published. The commission appointed to carry out the inquiry was thoroughly representative, containing village elders and landed proprietors, as well as government officials. They attribute the decline in peasant prosperity to oppressive passport regulations, labor restrictions and lack of education. The regulations, they say, are due as much to vexatious officials as to bad laws.

Denver, Nov. 12.—Citizens of Denver have been advised to use force at the election on December 10 next, to pry the ballot. At a public meeting, called by the League for Honest Elections, facts and figures were presented, showing that at recent elections in this city thousands of illegal votes were counted. Ralph Talbot declared in favor of having one hundred men, armed with rifles, go to the precincts in the downtown wards, where crime on Election Day is rampant, ready to shed their blood for the purity of the ballot at the next election. AIRSHIP AT HIGH SPEED.

Lebaudy Brothers' Machine Makes Fast Time Over 46-Mile Course.

Paris, Nov. 12.—One of the greatest triumphs of dirigible ballooning was achieved to-day by the Lebaudy brothers, whose balloon in one hour and forty-five minutes covered the forty-six miles separating Moisson and the Champ de Mars, Paris.

The balloon attained an extraordinarily high speed, dashing through the air sometimes at the rate of two-thirds of a mile a minute, the mean speed being about twenty-seven and one-fourth miles an hour.

For some time the Lebaudy have been preparing the balloon for the voyage, with the object of surpassing any performance made by Santos-Dumont.

Only a few persons witnessed the departure of the balloon from Moisson at 9:20 this morning. A moderate breeze was blowing toward Paris. In fifteen minutes the balloon arrived at Mantes-sur-Seine, ten miles from Moisson. Observers there saw no evidence of difficulty in steering. At 11:01 the aeronauts arrived at the Champ de Mars. The balloon was in excellent condition.

The Lebaudy were not in the balloon, which was steered by a pilot, Juchmes, assisted by a machinist named Rev. Juchmes said:

We proceeded by way of Cherone, Vertheuil, Fontenay, Saint-Pere and Garzeville. To avoid obstructions we followed the southern shore of Vertheuil Forest, and recrossed the Seine one hour after our departure. We saw Poissy, passed the Forest of St. Germain and then Montesson, crossed the Bois de Boulogne and entered Paris above the Bois de Boulogne. The maximum altitude was 300 and the mean 190 metres.

FRANCE'S SCHOOL LAW.

Further Restrictions for Religious Orders Proposed.

Paris, Nov. 12.—The Senate was crowded to-day to hear Premier Combes' declaration of the further purposes of the government concerning the religious orders. Prior to the opening M. Waldeck-Rousseau, the former Premier, announced his opposition to the governmental proposition to forbid teaching by those who had taken the vow of celibacy.

M. Combes declared that the government accepted the principle of the proposition, and said it intended to introduce a bill forbidding primary, secondary and superior teaching to all members of congregations. Concerning members of the secular clergy, the government reserved its course until a determination on the question of the separation of church and state had been expressed.

The Premier added that one of the features of the government bill would confer power on the executive to close by decree teaching institutions which might be considered contrary to the constitution, laws or morals. He appealed to the various elements to give to the government their undivided support.

When the session of the Senate was resumed M. Denoié proposed that debate be adjourned until the Government bill forbidding primary, secondary and superior teaching to all members of the congregations was brought in. The proposal was rejected by the narrow majority of 141 to 135.

During the debate there was a violent altercation between Henri Maurice Berteaux, Radical Socialist, and Georges Berthoulet, Independent Republican, which compelled the President of the Chamber to suspend the sitting for a few minutes.

Cases of Great Britain and Italy Concluded—Speeches May End To-day.

The Hague, Nov. 12.—Attorney General Finlay concluded his reply for Great Britain before the Venezuelan Arbitration Tribunal to-day, saying that the payments of the amounts allowed by the mixed commission out of 30 per cent of the customs should take too long to permit 30 per cent being considered as an adequate guarantee of the payment of the claims of the blockading powers.

KELSEY, CONTROLLER.

Appointed Day After His Fifty-first Birthday to Succeed Miller.

Albany, Nov. 12.—Governor Odell this evening appointed Deputy Controller Otto Kelsey State Controller in place of Nathan L. Miller, who was recently appointed Justice of the Supreme Court. The appointment is for the balance of

the term ending December 31, 1904. The salary of the office is \$6,000.

Mr. Kelsey to-night appointed as his first deputy Clark H. Timmerman, of Buffalo. The salary of this position is \$4,500, with an annual expense allowance of \$1,000. Mr. Timmerman is a lawyer of Buffalo and chairman of the Erie County Republican Committee.

When Mr. Miller to-day surrendered the office of Controller a handsome present in cut glass was presented to him by the employees of the office.

Otto Kelsey was born in Rochester on November 11, 1852. He was educated in the common schools of that city. Mr. Kelsey first held office as supervisor of Genesee, his present home. In 1883 he was first elected to the Assembly from Livingston County, and remained a member of the lower house until its last session. Defeated as candidate for a county judgeship, he was appointed First Deputy Controller to fill the vacancy caused by the resignation of Theodore P. Gilman, of New-York City.

During the sessions of 1900, 1901 and 1902 Mr. Kelsey was chairman of the Assembly Committee on Cities. He has always been a strict organization man.

These towns not wet.

Excise Commissioner Explains Working of Amendment Affecting Drug Stores.

Albany, Nov. 12.—Patrick W. Cullinan, State Excise Commissioner, to-day issued a statement, in which he says that his attention has been directed to reports that certain towns would be "wet towns" by reason of the amendment to the Liquor Tax law passed at the last session of the legislature, permitting a pharmacist to sell liquors in quantities of not more than one pint without the written prescription of a physician, upon payment of a special stamp tax for each transaction.

This amendment of the law, as stated by the Governor in a memorandum filed at the time the bill was signed, becomes operative only in towns in which the traffic in liquors is permitted in subdivisions 1 and 2 of Section 11, or where saloons or storekeepers' traffic is authorized by the electors. The State Commissioner of Excise, who sells the pharmacist's stamps, will not sell any stamps for use in any town of the State in which both saloon or storekeepers' traffic cannot lawfully be carried on.

CHINESE PILING UP.

So Many Held Up in Malone That Detention House Cannot Hold Them.

Plattsburg, N. Y., Nov. 12.—The detention house for Chinese at Malone, built to accommodate between 100 and 150 persons, now shelters 208 Chinamen. Word has now been received at Malone that 100 more Chinese landed yesterday at Vancouver on their way to Malone.

The large number of Chinese in custody is caused in part by a delay in trying the cases before United States Commissioner Wells, pending the settlement of a controversy that has arisen as to whether the United States Commissioner shall be allowed the fees amounting to about \$8 for each Chinaman, or simply \$3 to about \$4 as a reference. The United States officials at Malone are planning to rent another building for the accommodation of the Chinese.

ALLEGED BRIBER ACQUITTED.

Hugh H. Price Released Because Evidence and Indictment Did Not Agree.

Phoenix, Ariz., Nov. 12.—The case of Hugh H. Price, on trial in the United States Court for alleged bribery, has been dismissed on instruction of the court to the jury to acquit because the testimony presented was not consistent with the indictment. The case will be referred to the next grand jury.

The difference between the indictment and evidence was that the evidence did not show that money had been paid at all. The defendant was Surveyor General of Arizona, and was removed from office not long ago and accused of having charged applicants for mining patent fees in excess of those provided for by law. It was an old custom of the office, prior to and including Price's administration, to charge extra fees to those who desired early action on claims, the office being behind in clerical work, and the plea being made that in order to hasten matters it was necessary to hire clerks to work out of office hours. Chief Clerk Murphy, who had been in the office for years, was indicted jointly, but a severance of the case was granted. Four other indictments are pending against both Price and Murphy.
