

NO DELAY ON THE CANAL Panama Commissioners Ready to Take the Field—Moody's Plans.

Washington, March 4.—President Roosevelt this afternoon signed the commissions of the seven Panama Canal Commissioners and learned from Admiral Walker, chairman of the board, that the members expected to sail from New York for the scene of their labors on March 22. It is by no means unlikely that the members are not able to reach Washington in time to perfect their organization, talk with the President and make the steamer which sails on that day, the commission will wait a week and sail on the next steamer. The President has told Admiral Walker that he wishes all the members to make the trip and to go as soon as possible. Admiral Walker telegraphed Mr. Grunsky, the Pacific Coast member, to-day, asking him if he could wind up his business affairs in time to join the other members here before the 22d inst., and received an affirmative reply.

Under the law authorizing expenditures for "defense" of the Panama Canal out of the \$10,000,000 already appropriated by the Spooner act the Navy Department will soon build extensive barracks for the marines who are acting as guard of the strip.

"New quarters are badly needed on the isthmus," said Secretary Moody to-day. "The old buildings now occupied by the marines were put up by the Panama Canal Company, and are not, by any means, what they should be, either from the standpoint of comfort or sanitary safety. Still, when everything is considered, we have been fortunate, for we have not lost a man during our occupation. The buildings occupied by the marines have one good feature that it may be found expedient to use in those that are constructed later—they are raised from the ground so that the air can circulate freely beneath them.

"We have not looked into the matter of money or construction yet, but I have no doubt that we can take what we need from the appropriation for 'defense.' In order to 'defend' the property we must have proper buildings in which to house the men who are to guard it. It is at present we have only 450 men on the canal strip. The rest of the 3,300 that were sent there at first have been moved away, as there was no necessity for such a large force on the ground. If we need more at any time they can be sent from Guantanamo.

"We feel pretty well satisfied at the fine condition our marines are in after their five months' occupancy of the isthmus. This is as much the result of their splendid obedience of sanitary orders as it is to the first class work of the engineers in charge. We have some of the best surgeons in the service there, and will keep them on the scene as long as there is any necessity for their presence on the strip."

PRESIDENT PREVENTS FRICTION.

Possible Contest in Isthmian Commission Avoided—Dr. Rixey Going to Panama.

Washington, March 4.—The President adopted an unusual procedure in specifically naming in the list of nominations for Isthmian Canal Commissioners Admiral Walker as chairman of the commission. It is usual to leave the selection of the chairman to the commission itself. But there already were slight signs of friction, and Admiral Walker was appointed to prevent any contest in the commission by naming the chairman himself.

Rear Admiral Rixey, surgeon general of the navy, is going to Panama to make an inspection of the sanitary conditions on the isthmus. No date has been set for his departure, but he will leave on a conference with Admiral Walker before working out the details of his trip. It is felt to be expedient that the surgeon general of the navy shall have an intimate knowledge of the situation there, as the marines are to be left there for some time to guard the isthmus. It is expected that the regular commission to be charged with the protection of the public health along the canal will be headed by a doctor of international reputation. The efforts of the navy will be confined to safeguarding the health of the sailors and marines.

MAN DIES IN CAB.

C. C. Whitney, of the New-York Life, Expires on Way Home.

Charles Carroll Whitney, secretary of the New-York Life Insurance Company, died suddenly yesterday while on the way home from the office of the company, at No. 346 Broadway, Manhattan. Mr. Whitney lived at No. 209 Garfield Place, Brooklyn. He left the office at 5 p. m., and, as was his custom, took a cab. When the cab reached the house the driver was surprised after waiting a moment to see no move on the part of Mr. Whitney to leave the vehicle. Getting down, he found his passenger leaning back apparently asleep, still holding the stub of a cigar.

HEART DISEASE THOUGHT CAUSE.

Mr. Whitney was married twice, and his second wife survives him. Two daughters and one son by his first wife and one daughter by his second wife are also living. One daughter, Mrs. William Dull, lives in Washington, D. C., and the son, Robert E. Whitney, in Denver, Col. The other two daughters are unmarried, one living in California and one at home.

TOMATOES IN CANS COST MORE.

The Baltimore Fire Has Sent Them Up—150,000 Cases Burned.

Baltimore, March 4.—This city being the largest canned goods center in the world, there has been a decided advance in the price of canned goods throughout the country as a result of the great fire. Canned goods brokers to-day estimate that over 200,000 cases of goods were burned, of which number 150,000 cases were tomatoes. As a consequence, this line of goods has advanced more sharply than any of the others.

BEGIN CORTLANDT-ST. STATION WORK.

Pursuant to the order of the State Board of Railroad Commissioners, the improvements at Cortlandt-st. elevated station were begun yesterday. The additional roadway to the southbound platform must be completed within sixty days.

This roadway will run from the door in the south side of the station, which has not been used since the station was opened. It will turn east after a twelve-foot drop and be carried down to a point just over the curb of Cortlandt-st., and then turn south again to the pavement, about fifteen feet south of the corner in green-paint. This will be equal to any now in use by the city.

Work was begun in the morning almost before the dawn had faded. The West Side Association chairman of the elevated station committee, said a reporter yesterday that the company evidently meant to begin work on the station as soon as the city association to-morrow.

It is also reported that he had just received a letter from the State Board of Railroad Commissioners assuring him that the company showed intentions of complying fully with the order.

"STOCKHOLDERS CAN SUE DIRECTORS."

Justice Gaylor Says There Can Be No Rule Which Would Prevent It.

Criticizing a supposed rule laid down by the Appellate Division of the Supreme Court, Justice Gaylor in an opinion in the Supreme Court, Brooklyn, said yesterday:

There is not, never was, and could not be, such a rule. It is deplorable that such a declaration has been given and will be referred to for years to come. A shareholder has a right to interfere when anything is done by the directors of the company based on fraud or acts in excess of powers.

The opinion was given in determining a suit brought by Ella C. Polhemus against Horace G. Polhemus, Herman Steenkens, James Parker, E. Dixon Polhemus, wife of Horace G. Polhemus, and J. A. Ackerman, who comprise the board of directors of the John Polhemus Printing Company.

Justice Gaylor decided against the plaintiff on the ground that she had not sustained her claim of fraud with relation to the sale, but added that the defendant's claim that they could not be sued without their consent was absurd. In that connection he used the language already quoted.

BOSTON GAS INTERESTS.

Payment to Thomas W. Lawson to "Keep Him Out of Gas Affairs."

Boston, March 4.—In course of the proceedings in the supreme court to-day, in the suits resulting from the recent effort to consolidate the local gas interests, Robert Winsor, of the banking firm of Kidder, Peabody & Co., one of the principal defendants, testified that 10 per cent of the profits from the reorganization of the New-England Gas and Coke Company, of \$57,245, was paid to Thomas W. Lawson, of Boston, who has been prominent in gas litigation for some years, to "keep him out of the game." The witness said, however, that he was not sure of the exact amount, but that it was not less than \$50,000.

In reply to an inquiry as to what harm might result from this action, the witness testified that Mr. Winsor said it was feared that too much might be said regarding the gas reorganization and that this would be to the detriment of the company.

Mr. Winsor also said that A. N. Brady, trustee of the New-England Gas and Coke Company and a director and president of the Boston Gas Companies, shared in the profits of the reorganization.
