Taylor Elyson, who has made a tour of the State and finds sentiment strong for Parker. FULL TIME ON NEW-HAVEN ROAD.

Ten Hour Workday Restored to Three Thousand Men.

New-Haven, Conn., April 2.—An order recently issued for resumption of full working time by car workers employed by the New-York, New-Haven and Hartford Railroad went into effect to-day throughout the system. This order restores for the three thousand workmen in this department the ten hour day schedule which was in force before January 23. On that date the working time was reduced to nine hours, and this was followed on February 13 by a reduction to eight hours, business being given as the reason for the order. It was understood at that time that the reduction was only temporary, and that the old schedule would be restored about April 1.

At the general offices of the railroad here the following statement was made to-day regarding the demands which have been made by the boiler-makers and their helpers: "The matter was originally presented to the superintendent of motive power, and is now under consideration. This demand was for a nine hour day, with a 15 per cent increase in wages, amounting to about

HEARST BOOM SHATTERED.

No Recognition for Labor Vote in Massachusetts.

Boston, April 2.—The Hearst boom that has been so carefully nurtured in this region for the last three weeks is being shattered, and bitter internecine strife is going on among the Democrats. Another Hearst delegate gave to the press a statement to-night declaring that his signature to Hearst delegate papers was a forgery, and a fight is going on in Cambridge among the leaders as to who shall go to St. Louis.

Up to a few days ago it was generally conceded that the delegates from that district would be Mayor Feeney of Woburn and Francis P. Curran, of Cambridge, but the Hearst leaders did not reckon on the labor element, and were much surprised when the latter demanded a delegate. Labor support was wanted, but the Hearst people did not propose to give recognition to it. The labor men demand it or will quit. Olney men see high prospects ahead in the local fights around Boston.

IRISHMEN AGAIN BOLI.

Sinnott, of Mount Pleasant; Dr. E. F. Sheehan, of Ossining, and James S. Martin, of Cortland. Mr. Walsh said that Clune and Murphy had bolted Franklin Couch, Stephen Van Tassel and E. W. Pike when they ran for county office. The most sensational feature of Walsh's speech was his accusation that bribery had been resorted to in the attempt to get delegates for Judge Parker. He said that the Hill people had tried to buy delegates and proxies and had offered money to some of the delegates to remain away.

"Colonel Larkin is sore," Walsh continued, "because as State committeeman I would not indorse him as counsel to the New-York Watershed Commission. He had not been a Democrat for eight years, and then he suddenly demanded the best office within the gift of the party in the county."

The Hill wing nominated as State delegates Matthew J. Clune, Thaddeus K. Greene and Colonel Francis Larkin. Edward Wells, ex-Alderman of the Elks, of Peekskill, was chairman. Mr. Torphy, who was secretary of the Hill convention, showed the reporters a list of the bolting delegates, which contained thirty-four names, including the names of the Hill people. The other faction claims that thirty-three delegates voted at their convention. Each side accuses the other of fraud and attempted bribery. The contest will be settled at the State convention, Hill will be in control, and will seat the delegates nominated at the bolting convention yesterday and the one at Mamaroneck.

The pleasure that comes from listening to good music is one thing; being able to produce it one's self is another. The ownership of a PIANOLA means the making of both forms of enjoyment immediately available to every member of the family.

There Is But One PIANOLA Made Only by the Aeolian Company

If the thousands of owners of "silent pianos" could be brought to a keen realization of how much of pleasure they are losing, every one who could afford a PIANOLA would have one.

But music must be heard to be appreciated. No written description of an opera or a sonata, a symphony, or a song has ever conveyed to the reader more than a very faint idea of its real fascination.

It is so with the PIANOLA—one must be brought into personal contact with it before it is possible to arrive at a realizing sense of what its possession will mean in the life of the home.

The METROSTYLE PIANOLA is the latest and the most important development of the piano-player idea. Public recitals or demonstrations take place every day. At any hour the instrument will be exhibited to the merely curious as well as to those who are directly interested in the piano-player question.

Pianola, \$250; with Metrostyle, \$300. May be bought on moderate monthly payments.
