FRENCH INCOME TAX BILL.

Debate Begins in Chamber of Deputies—Scope of the Measure.

Paris, Nov. 28.—The Chamber of Deputies to-day began the debate on Finance Minister Rouvier's bill establishing an income tax. The measure, which makes sweeping changes in the fiscal system, suppresses the present taxes on doors, windows and other evidences of personal property, amounting to \$40,000,000. The new plan contemplates raising \$26,400,000 by taxing individual incomes, and \$12,000,000 by taxing rentals of real estate. The tax on incomes is graduated, incomes under \$500 being exempted. Over \$500 the rate gradually increases, the highest rate being about 2 per cent on incomes above \$4,000. The tax applies to foreigners having a furnished residence in France or receiving revenues from French investments. Strong opposition to the measure is developing on the ground that it will drive out capital.

Defalcations Last July Said to Have Been About \$150,000.

London, Nov. 28.—Lord Rothschild, asked to-day regarding the alleged embezzlement of \$5,000,000 by Moses Blumenthal, said to have been head of the London department of the London house of the Rothschilds, was incensed at what he termed "such gross exaggeration," but otherwise declined to discuss the matter.

The defalcations took place in July, and it was stated at the time that the shortage was in the neighborhood of \$150,000. The whole matter was settled privately shortly after the embezzlement was discovered.

Those who were on board of her were thrown into the icy waters and were rescued with difficulty. Two men were drowned and several were seriously hurt by flying splinters. The other launch was so seriously damaged that she also went down.

AN AMERICAN WANTED.

Dewey Not Likely To Be a Member of North Sea Court.

[FROM THE TRIBUNE BUREAU.] Washington, Nov. 28.—The Russian and British Ambassadors called on the Secretary of State to-day to extend, on behalf of their governments, an invitation to the United States to appoint "a high ranking naval officer" to sit on the international commission of inquiry, which is to investigate the attack by the Russian Baltic fleet on British fishing vessels. It is expected that the President will discuss the invitation with the Cabinet to-morrow, and that the name of the American officer who is to take part in the inquiry will be made after the Cabinet meeting.

Contrary to an apparently general expectation, Admiral Dewey is not likely to be chosen. The admiral would be reluctant to leave home now. As the only admiral in the American navy, Dewey occupies a unique position, and is charged with heavy responsibilities and absorbed in important duties. There being no other officer of equal rank, it would be impossible to fill his place in his more or less prolonged absence, and it is regarded as of the utmost importance that he carry to completion the problems and duties on which he is now engaged.

When the Secretary of State informs the President of the calls of Ambassadors Cassini and Durand it is expected that the Executive will ask the Secretary of the Navy to make a recommendation, and the most accurate information obtainable is that Secretary Morton will suggest Rear Admirals Chadwick and Converse and Captain Mahan, in the order named. Admiral Chadwick, who is an officer of large experience, served for seven years as naval attaché of the American Legation at London, and is probably more familiar with the climatic and geographical character of the difficulties confronting the Baltic fleet than any other officer in the American navy. Admiral Converse possesses all the qualifications necessary for the delicate task which will confront the court, but his present duties are so important in an advisory capacity to the Secretary of the Navy, that the latter would be loath to spare him for prolonged foreign duty. Captain Mahan, although on the retired list, has won a reputation as an authority on naval affairs, and may be regarded by the President as the most available of the three men suggested. The advantage in the selection of Admiral Chadwick would be that he is now on his way to Great Britain from Brazil, and will probably reach London within a week, so that his selection would not involve the least delay on the part of the American representative.

Several officers were mentioned in rival circles to-day, but there is little reason to believe that the name of any one except the three above suggested will be presented to the President to-morrow by Secretary Morton.

CONFERENCE AT PANAMA.

Republic's Contentions Laid Before Secretary Taft.

Panama, Nov. 28.—The first conference to adjust the questions in dispute between the United States and Panama was held this morning. There were present Secretary Taft, President Amador, Ricardo Arias, a member of the Panamanian Fiscal Commission, and General Guardia, the Panamanian Minister of War. The case for Panama was presented, but beyond this nothing was given out, the proceedings of the conference being kept secret until an agreement is reached, which probably will be to-morrow.

A reception to Secretary Taft was given at the American Legation this evening. There were present President Amador and the members of his Cabinet, two hundred prominent Panamanians and the leading canal officials.

PAID FINE IMPOSED ON GURNEY.

But the State Department Returned the Money to the British Ambassador.

Washington, Nov. 28.—Announcement is made at the State Department that it received from the British Ambassador at Washington a check for \$25,000, the amount which a Massachusetts magistrate fined Hugh Gurney, third secretary of the embassy, charged with exceeding the speed limit for automobiles in Massachusetts. The check was received immediately after the magistrate apologized for his conduct, and was promptly returned to the Ambassador by the department with a cordial note informing him that, as the arrest of his secretary was unwarranted, the fine was irregular and could not be accepted. The announcement of these facts is made by the State Department that it may be known that the British Embassy was ready from the start to make all appropriate amends.

ITALIANS FIGHT MAFIA.

Two Dead, One Wounded From Attempt to Drive Out Robbers.

Scranton, Penn., Nov. 28.—As a result of the efforts of the better class of Italians in and around Carbondale to rid their colonies of the members of a lawless gang who have been committing many outrages, a street battle occurred at that place to-night, which was attended with the loss of two lives and the serious injury of a third man.

At 8 o'clock to-night Santo Carressi, one of the gang, was caught by a constable in the act of holding up and levying tribute on one of the Italians of the colony. The constable and three of the Law and Order men started to take Carressi to jail. Word was quickly passed to the gang's headquarters in a nearby saloon and four of them rushed out and opened fire on the constable and his posse. The latter returned the fire. When the attacking party emptied their revolvers they fled, leaving all three of the constables escort lying in the road with bullets in their bodies. The constable protected himself by holding his prisoner in front of him.

Joseph Tolerico was shot through the head and heart. Frank Ferrest died an hour later in the Emergency Hospital. The third victim received a bullet in the arm.

No trace has been found of the fugitive assailants up to a late hour to-night.

The Italians on Saturday gave to the Edgerton Coal Company the names of four members of the gang and asked that they be discharged and evicted. This was done, and two of the four left the colony. The others secured quarters with men who are suspected of being members of the gang. The reformers will now try to have the company agree to banish from the colony any one who gives shelter to any member of the gang.

The identity of most of the members of the gang has been revealed by one of its number, who was shot in the thigh by the alleged leader last week in a dispute over tribute money which was secured from some terrorized fellow countrymen. It is believed the gang is affiliated with the Mafia.

When the boy saw what had occurred he turned white and said: "It is just as I expected. This comes from hunting on Sunday."

PRESIDENT RETURNING.

THE TRIP UNEVENTFUL.

Large Crowds Cheer Him at the Stations—His Speeches Brief.

Altoona, Penn., Nov. 28.—President Roosevelt's special train arrived here at 11:45 and left for Washington five minutes later.

Pittsburg, Nov. 28.—The special train bearing President Roosevelt to Washington from St. Louis arrived in Pittsburg to-night at 8:30 and departed ten minutes later. A large and enthusiastic crowd was present at the Union Station, and cheer after cheer greeted the Chief Executive when he appeared on the platform of the rear car. The President said:

I am pleased to again set to Pittsburg, after an absence of a little over eighty hours. I have been to St. Louis to see the fair, and thoroughly enjoyed myself. I have also had the privilege of greeting American citizens in the States of Pennsylvania, Ohio, Indiana, Illinois and Missouri, which I appreciate.

A large squad of police and detectives was lined up on either side of the train during its stay in this city, and every precaution was taken for the President's safety.

Columbus, Ohio, Nov. 28.—President Roosevelt's train reached here at 1:30 o'clock. The President greeted a large crowd at the station, expressing his thanks for the reception.

Only one stop was made by the President's special train between Dennison, Ohio, and this city. The run was entirely devoid of incident.

At Dennison the President was greeted by a great crowd. The train pulled into the station shortly before 4:30 o'clock, and scores of school children were in the crowd. On the journey to St. Louis the President was presented with a raccoon, which is being taken back to Washington. In some remarks at Dennison, the President referred to the gift. He said:

I want to tell you all good evening, and to say how pleased I am to see you again, and to tell you that the "coon is getting along well. He feeds on everything and shows a little inclination to feed on every man, too. The fair was a most beautiful and wonderful scene, and I am very glad I went. I was glad to see the people of these States and Missouri. I wish you good night and good luck, especially the little folk.

Richmond, Ind., Nov. 28.—After two days in St. Louis, President Roosevelt is now speeding toward Washington, where his special train is expected to arrive at 7 a. m. to-morrow. The President, Mrs. Roosevelt and all the members of the party are congratulating themselves on the success of the trip. President Roosevelt has expressed his satisfaction with the arrangements, and just before his train pulled out of the Exposition grounds last night he congratulated and thanked President Francis and other exposition officials and the officers who were his personal attendants.

Secretary Loeb, on whom fell the task of perfecting the arrangements for the trip and for the safety of the President, now that the strain of responsibility, so far as the visit to the fair is concerned, has been removed, is feeling thoroughly satisfied.

Throughout the stay in St. Louis there was a notable absence of cranks who desired to see the President. One woman was taken in charge by the Secret Service men at the Thompson home last evening, but she made no trouble. Just before the train pulled out of the Exposition grounds last night a woman, leading a Texas steer, wearing a pair of horns with a spread of nearly four feet, approached the car. She was stopped. She had found the steer at one of the shows on the grounds and had brought it along to show to the President. At the suggestion of the officers, she led her curious pet away.

The trip has been without incident of particular note. The President and his party breakfasted about 9 o'clock. The President is passing the time in reading or in chatting with his friends. At Indianapolis, where the first stop was made after daylight, only a small crowd had gathered on the station platform. The President had not arisen and the people, although disappointed at not seeing him, made no noisy demonstration.

As the train stopped here Mrs. William Dudley Foulke and Miss Foulke, wife and daughter of ex-Civil Service Commissioner Foulke, entered the President's car. The President and Mrs. Roosevelt chatted with them animatedly for several minutes, then, from the rear platform, President Roosevelt addressed a large crowd that had assembled. The President said:

Ladies and Gentlemen: I am very glad to see you. I know Richmond of old. I have always thought highly of Indiana, but during the last three years has had cause to think of it more highly of it. (Voice in crowd: "How about Missouri?") I tell you Missouri is surely all right. Gentlemen, I want you to feel that I very deeply appreciate the responsibility put upon me by such a vote as that of November 8, and so far as in me lies, I will, with your help and with the help of those who represent you, do all I can to hold the total amount of money in Congress in this matter, said Mr. Shaw, this afternoon.
