La Vida Corsets are Favorites On Both Sides of the Atlantic.

Previous straight front corsets (admirable as they have proven for the average figure) were not an adequate type of garment for women overdeveloped below the waist line. The straight front has assisted these figures splendidly by flattening the abdomen and grading the hips, but this improvement was effected at the expense of another part of the body—in other words, all the flesh which was displaced from the side and front, was thrown back below the spine, unpleasantly exaggerating the body at this point. To overcome this annoying fault, we have created an entirely new sort of corset which presents the latest high bust effect, flattens the abdomen and not only rounds out the waist into a more slender effect, but still further reduces the hips and flattens the back as well. It is shown only in our well known La Vida line.

Hand-made whalebone-filled—built of the finest imported cloths and exhibits the most precise excellence of craftsmanship—fitting qualities and grace of line.

This new La Vida is but one of the many original ideas to be found among our Spring models.

Priced from \$3.50 to \$20 the pair.

Made in batiste, coutil and silk and linen fabrics.
