New York Daily Tribune

MONDAY, MAY 1, 1905.

THE NEWS THIS MORNING.

FOREIGN—General Linevitch reported the capture after sharp fighting, of Tung-Hu-Siang (Tung-Hua), a town near the Korean border.

DOMESTIC—All efforts of the Federation of Labor in Chicago failed; the Federation of Labor passed a resolution asking President Roosevelt, Governor Deane and Mayor Dunne to investigate.

CITY—H. H. Knowles said that Gage E. Tarbell in writing insurance for the Equitable Assurance Society, had been indicted for embezzlement.

IMMIGRATION TO THE SOUTH. "It's an ill wind that blows nobody good"; and in the excessive inflow of immigration from Southern Europe, which causes misgivings elsewhere, the Southern States see a chance to improve the far from satisfactory conditions which rule in their present labor market.

There is room for thousands of Italian agricultural laborers in the South at better wages than they have ever obtained in their native country, and there is domestic employment for thousands of others in the cities, where negro help has become entirely unobtainable and untrustworthy.

under "Oom Paul's" reign. The legislature is to contain nine appointed members, it is true, but it will contain thirty elected members, who will, of course, be able to dominate the body.

ALBANY'S DUTY TO NEW-YORK.

There will be officially disclosed this evening at Albany, as there has already been unofficially disclosed, an urgent duty of the State government toward the city of New-York.

The precise terms of such a measure may form a proper subject of deliberation, though the recommendations of an unusually competent committee indicate the general lines on which remedial legislation should be drafted.

One of them should be adopted without a dissenting voice. That is the recommendation that authority be given to this city to utilize its own water power for the generation of electrical energy for the city's use, so far as experience may show the wisdom of that municipal undertaking.

PRESERVE THE DUCKS.

The members of sportsmen's clubs and others interested in the preservation of wild fowl will do well to be on their guard to prevent the spring shooting bill from sliding through the Senate in the hurry of the last hours of the session.

MONEY AND BUSINESS.

Still lower prices were attained in the security market during the last week, the sixty most active railway stocks averaging about 84 cents.

Liberal offerings of time money extending over the end of the year at 3 1/2 per cent indicate that the financial community is expecting no stringency. Spring trade and agricultural preparations have brought a little more demand for money in commercial channels, but the supply of funds is sufficient to maintain easy terms.

SOUTH AFRICAN GOVERNMENT.

Lord Milner's scheme of government for the Transvaal does not escape criticism. Some, especially Boers who have transformed themselves into Uitlanders in other countries, are bitterly denouncing it as a betrayal. It is nothing of that sort, of course. It does not, it is true, fulfil the promise of complete self-government, but then it is avowedly a temporary measure, intended to prepare the way for something better.

FATAL RAILWAY ACCIDENTS.

In the May number of "Cassier's Magazine" Day Allen Willey throws some new light on an old subject. Occasionally an American writer, in discussing the greater sacrifice of life on railways in this country than is reported in the United Kingdom, dilates upon the fact that many more miles of track are operated here than there.

A variety of causes for this sacrifice are pointed out, but Mr. Willey considers the rear end collision the most potent factor in the problem. As a possible means of relief, that writer proceeds to describe the block system, which has been installed more extensively on British roads than in America.

THE TALK OF THE DAY.

Scotch fishermen have introduced fishing boats driven by motors. Experiments have demonstrated the great advantages of such boats over sailing craft in calm weather or when the wind is unfavorable.

AN INNOVATION—KELLY—PHWAT ARE YE ON STRIKE FOR?

An Innovation—Kelly—Phwat are ye on strike for? Kerrigan—Shorter hours. Kelly—But ye were only wurrukin' eight hours a day.

WISDOM COMES TOO LATE—ASKITT—YOUR FRIEND LAMBIE IS QUITE WELL, ISN'T HE?

Wisdom Comes Too Late—Askitt—Your friend Lambie is quite well, isn't he? Knowlton—Yes; but he didn't realize it until after he had taken a flyer in Wall Street—Chicago News.

cents a bushel from the highest point to which it had been manipulated. There will be little sympathy for the speculators who lost fortunes in this unsuccessful endeavor to corner one of the necessities of life; and it is to be hoped that with the return to a more normal position, foreign purchasers will again take wheat freely, in which case it will soon be possible to report an increase in exports as compared with the corresponding week last year.

GENERAL LINEVITCH THINKS GENERAL KUROPATKIN MADE A MISTAKE WHEN HE RETREATED FROM MOUKDEN.

General Linevitch thinks General Kuropatkin made a mistake when he retreated from Moukden. Had the Japanese given Kuropatkin as much time to think the matter over as Linevitch has had it is barely possible he might have arrived at the same conclusion.

MANAGER KIRK LA SHELLE THINKS THE TIME IS RIPE FOR THE GREAT AMERICAN PLAY.

Manager Kirk La Sshell thinks the time is ripe for the great American play. Hardy, the great American novel, we are constantly told, is yet to be written, and how can it be dramatized before it is written?

TO-DAY IS THE ANNIVERSARY OF ADMIRAL DEWEY'S VICTORY AT MANILA.

To-day is the anniversary of Admiral Dewey's victory at Manila. Will May see again this year a decisive naval battle in the waters of the Far East?

STATISTICS SHOW THAT THE MESSENGER BOY SERVICE GRADUATES A LARGE PROPORTION OF SUCCESSFUL MEN.

Statistics show that the messenger boy service graduates a large proportion of successful men. Every messenger boy carries in his knapsack the baton of a field marshal of industry, and he ought to feel a lively pride in his business.

THE NECROLOGY OF THE MADISON SQUARE GARDEN SINCE THE ANIMALS OF ALL CLIMES BEGAN TO BE ROUNDED UP THERE.

The necrology of the Madison Square Garden since the animals of all climates began to be rounded up there nowhere discloses a more pathetic incident than the death of the azimuth, which took place a few days ago. An azimuth is as rare a creature as a jabberwock.

One of the strangest of modern industries is that carried on in the Fur district in France. It consists in taking the fur from live rabbits and weaving it into a textile fabric which makes the warmest kind of clothing material known.

On November 29 Mr. C. Goodwin came forth as John Maddox in a play called "The Tramp," written for him by Dr. Morris. Mr. Goodwin's performance was a brilliant success, the humorous, unpolished, dry, whimsical style for which his acting has long been attractive.

The season of 1904-'05, which practically has closed, although a few more notable performances may perhaps occur before the hot weather puts an end to crowded assemblies, has been more remarkable for activity and laborious effort than for memorable achievement.

On September 26 also, when Mr. Skinner Frohman launched this nonsense, Mr. Otis Kellner, always and deservedly welcome in this capital, made known, at the Lyric Theatre, Mr. Richelieu's drama, "The Harvester," in the matter of the Harvester, richly fraught, as it was, with pictorial beauty, sweetness of temperament and dramatic power, he obtained an unequivocal success; a success that it was a privilege to record and a pleasure to remember.

On October 17, at the Knickerbocker Theatre, the much heralded appearance of Miss Julia Marlowe and Mr. E. H. Sothern, as "co-stars," took place. These popular players were welcomed in Shakespeare's "Romeo and Juliet."

On October 25, at the Lyceum Theatre, the veteran actress, Mrs. G. H. Gilbert, began her first, and, as it proved, her last, engagement as a "star," appearing as Mrs. Tomson, in Clyde Fitch's feeble adaptation from the French, called "Hedda Gabler."

admirably picturesque and symmetrical, is a conspicuous representative of the delightful style of acting that blends buoyancy and grace of manner with unobtrusive feeling and delicate sentiment.

On November 15 Shakespeare's "Hamlet" was performed at the Knickerbocker by Mr. Sothern, Miss Marlowe and their company, Miss Marlowe was appearing for the first time in New-York, as her character first assumed by her on October 3, 1894, at the Illinois Theatre, Chicago.
