Rear Admiral Charles S. Cotton, U. S. N., retired, and Mrs. Cotton are spending the summer in Europe.

Brigadier General E. V. Sumner, U. S. A., retired, and Mrs. Sumner will be until autumn at Atlantic City.

NEW-YORK SOCIETY.

Society still lingers in the country houses around New-York, making occasional motor trips into town, so that the appearance of the fashionable restaurants at luncheon hours, especially toward the middle of the week, serves to modify in a measure the impression created by the drawn blinds, the boarded-up entrances of the houses and the deserted appearance generally of the streets in the fashionable residential districts.

The suburban on Thursday and the various college commencement exercises will keep people round the New-York until the end of the month, when the madcap world will adjourn to Newport and other seaside resorts, stopping off on the way to take in the interuniversity boat races at New-London.

As usual, many yachting parties have been organized to see the rowing races.

This does not mean that the season at Newport is still to begin. Although nothing much has been done as yet there in the way of entertaining, many families have already arrived for the summer and numerous cottages have been opened, including those of Lispenard Stewart, Mr. and Mrs. George B. De Forest, Colonel and Mrs. De Lancy Kane, Mr. and Mrs. Elsie Dyer, Jr. and Mrs. Winthrop Rutherford, Mrs. Burke Roche, Mr. and Mrs. Charles M. Oelrichs and Captain and Mrs. Philip Lydig.

Mrs. Hermann Celfrichs, who sails from Havre at the end of the week with her son, will be on reaching New-York go at once to Newport, where her villa is being prepared for her arrival, as is also Beechwood, where Mrs. Astor is expected about ten days hence.

Every day one learns of departures for Bar Harbor, Lenox and Southampton, where the Meadow Brook Club is once more the centre of much society, while at the various country clubs and at the yacht clubs on both shores of the Sound there is plenty of life and animation.

At the Swanbush Athletic Club, on Travers Island, and at the Swanbush Corinthian Yacht Club, at Oyster Bay.

Among the weddings set for the week which opens to-day is that of Mrs. Schuyler Montgomery Roosevelt's daughter, Miss Augusta Boylston, and Donald Campbell on Wednesday, the ceremony, at St. James's Church, Skaneateles, N. Y., being followed by a wedding breakfast at Roosevelt Hall, the country place of the bride's mother and stepfather.

The bridegroom is a son of Major General John Campbell, U. S. A. (retired), and the bride is the daughter of Mrs. John R. Ralston, who married the currier Winchell.

Another wedding, that of Miss Florence Deane, daughter of Mrs. Schuyler Montgomery Roosevelt, and a granddaughter of Mrs. Samuel M. Shoemaker, of Stephentown, Md. Schuyler Montgomery Roosevelt is a cousin of the President and a member of other New-York clubs.

To-morrow the marriage of Miss Grace Dabney to Robert Wrenn, former lawn tennis champion of America, and one of the President's Rough Riders in 1898, will take place at Nahant, Mass. Miss Eleanor Sears, daughter of Hannah Stevenson, Miss Dorothy and Miss Elsie Carr, Miss Constance Armory and Miss Roxamond Saltonstall will be the bridesmaids, while William Larned, Albert Fish, George Ade and E. Townsend Irwin, all of New-York; Andrew Sage, of Albany; Chester Chapin Rumlill and Alfred Dabney, Jr., will be the ushers.

George Wrenn will be at another's best man. After the ceremony at the Union Church, at noon, there will be a reception at the Nahant Club. The bride is a well known amateur actress and a leading member of the Virent Club, of Boston.

Mrs. Thomas Andrews's house, in East 45th-st., was the scene yesterday afternoon of the marriage of her granddaughter, Miss Mary Constance Berry, to Mortimer Percy Arnold. Owing to the recent death of the latter's mother, Mrs. J. V. H. Arnold, only relatives and a few intimate friends were present at the ceremony. The bride, who is a niece of Mrs. John D. Zerega, was given away by her father, Oliver F. Berry, and was arrayed in a princess gown of white satin, trimmed with lace, and with the train of white tulle and carried with a bouquet of white orchids and lilies-of-the-valley.

Her attendants consisted of Miss Florence Deane, Miss Mary Beeson and Miss Sophie Sherwood, in frocks of blue organdie, trimmed with lace. They

Mrs. Paul Morton and her daughter sailed on the New-York yesterday for an extended trip on the Continent. Secretary Morton was at the pier to see his family off. As the New-York slowly backed out from her pier Mr. Morton, stationed on a prominent part of the strappings, enthusiastically waved his handkerchief to his family.

CHILDREN GUESTS OF MR. GOULD. Over two hundred little children from the Home at the Duchy of Woodbury, and a large number of the guests of Edwin Gould yesterday at the old Ogden estate, east of the Washington Bridge. The children were taken to the estate in the escort of their caretakers, and turned loose to enjoy themselves.

statement attributed to him is an outrageous attack upon the judicial character and personal integrity of every one of these men. They constitute the highest court of this State, and, if the mortgage tax is litigated, will pass upon its validity. Mr. Marling should not in the petty temper of disappointment give free rein to an unrelenting tongue against men better known, and for that reason, if for no other, much more trusted than himself. If he said what is attributed to him, he has wronged not merely them but the whole State by recklessly trying to undermine respect for the courts and faith in the administration of justice. Loose talk of this kind is most harmful. Some people believe it, and other people are led by it to discredit even moderate and responsible criticism.

The Tribune does not like the mortgage tax, and has repeatedly said so. We believe it mistaken in principle and unwise in some of its detailed provisions. Nevertheless, we think there is small ground for expecting any popular uprising against it or for fearing that it will result in any great practical harm. In many parts of the State it will be hailed as a great relief, for where the bulk of the mortgages are taxed now it will be a long step toward the total exemption which is sound in principle but evidently not yet attainable. In this city it will be felt more, but a large number of the sufferers will have to admit that their hardship lies in the fact that by look or crook they have little to manage to avoid personal taxes; and this is not an heroic pose. Those here who have not evaded it will find the new tax a boon, and, indeed, the bankers who have said that the old liability to taxation made one-half of 1 per cent difference in the rate on all mortgages may be right. It is that case a half per cent tax and no danger of confiscation is better than a half per cent insurance against confiscation and actual confiscation of the incomes of a few. Nobody knows just how much the tax will be felt, and it is sheer nonsense to talk of its alienating 90 per cent of the property owners of this city from the Republican party, as some people are doing. If 10 per cent of them think about it a year from now we shall be surprised.

The "big stick" seems to be bearing the olive leaves of peace. Denver now claims a population of more than two hundred thousand. We trust they take a census in that city with a little more circumspection and accuracy than they show in counting ballots.

Mr. Henry James thinks that "the common schools and the newspapers are too often influences which keep our speech crude, untidy and 'careless.' Doubtless there is room for much improvement in both common schools and newspapers; but did Mr. James ever stop to think what kind of speech we should have if it were not for the common schools and the newspapers? The mass of our people would probably be talking a hundred dialects, almost unintelligible to the cultivated speaker of the English language.

King Oscar has received the Norwegian address after all his refusal to receive the deputation which tried to present it. Now perhaps he will think better of it than he did at first.

More than two hundred officers of State savings banks were present at the annual meeting in New-York, and there was laid on the table a resolution opposing the further grant of powers to the Interstate Commerce Commission for the regulation of railways. Our steel highways have increased so enormously in power in recent years that the attitude of the President with regard to their government has undoubtedly the support of a large majority of the voters of the country.

Staten Island, says Dr. Doty, expects to get rid of its mosquitoes "in two or three years." Let us hope that this prediction is not another instance of optimism misplaced.

The agricultural institute founded by the King of Italy is to have a most important aim. It is to seek to do away with speculation in food products. At least, Mr. David Lubin assures us that the world may fairly look to it as having that as one of its chief purposes. In Chicago and in other great centres of the United States speculators have had so much to do with fixing prices for produce that the early success of the Italian body in its ambition will be looked forward to with sympathy.

Rates laws are the coming institution. Even on the Dark Continent the spirit of monopoly has to be curbed. Sir Charles Elliot reports that "in one district of Uganda the price of brides has lately been fixed by law at 13s. 4d., irrespective of beauty and accomplishments." This law had to be passed to stop a stop to enterprising members of the local stock exchange cornering all the eligible brides in the district and selling out at immense profits.

ALWAYS MAY OR JUNE. I wish 'at I could have my way: Time would always be in May, In June, when men and boys awake With new emotions, could forsake The dull way for 'stream an' 'lake, An' play.

ANTI-MORTGAGE TAX THREATS. A certain extravagance of statement is always to be expected from the critics of new legislation. The defeated party's privilege of swearing at the court may be extended to permit them to swear at the party which is responsible, the legislature which passes and the Governor who signs a measure which they oppose.
