

BOWEN'S EXPLANATION. HIS SIDE OF LOOMIS CASE. How Scandal Came to His Notice at Venezuelan Capital.

Herbert W. Bowen, ex-Minister to Venezuela, issued a printed statement yesterday in explanation of his dismissal from the diplomatic service of the United States. At the same time Mr. Bowen stated that in a few days he intended to go to Woodstock, Conn., to spend two or three months. The statement in full is as follows: The Venezuelan scandal constitutes a national disgrace. The recent departmental inquiry and the subsequent investigation into the facts, suppression of the truth will never establish it. I believe that I will never be considered a wrongdoer. When I went to Venezuela in 1891 as the successor of Mr. Loomis as American Minister I found both in governmental and private circles in Caracas and many of my countrymen, both as a man and as a representative of my government. Soon after my arrival, however, Venezuela, Germany, the United States and other countries so serious a character that for a long time I was unable to adjust myself to the situation. My share in adjusting these difficulties, including the securing of the subsidy to the armaments of the United States, was a most important and interesting international peace. When the act of the United States had been generally recognized at the time. When the act of the United States had been generally recognized at the time. WIRE THIEF NEARLY CAUSES WRECK. Express Almost Runs Into Local at 165th-st. When Signals Are Out. By the arrest of John Ward, an inmate of a lodging house, officials of the New-York Central Railroad have averted a disaster which would have caused a disastrous wreck on the line at 165th-st. early last Thursday morning. Four signal wires, two on the express line and two on the local, were cut, and 2,000 feet of the copper wire was stolen. Careful patrolling just saved a New-Haven express from crashing into a local train at the curve at 165th-st., while the wires were down. When Ward was arrested he had a coil of copper wire in his hand, and could not give a satisfactory account of how he came into possession of it. He would give no account of himself at the police station, and denied that he had any part in the cutting of the wires.

ITALIAN CHILD IN INCUBATOR. First Baby of Nationality. It Is Said, to Be Treated. The first child of Italian parentage in the history of child incubation, it is said, has been entered on the register at the "Baby Incubator," in Dreamland, Coney Island. The little girl is the daughter of well known members of the Italian colony in this city, but Dr. Fischer, who is in charge of the incubator, states that it has been so difficult to bring the parents to have their baby treated that mentioning their names might cause the exposure of the young mother. Italians have had a strong prejudice against the treatment.
