The companies were organized to do a banking and investment business, then no limit should be set upon them; if they were organized to make work for the agents and pay a lot of salaries, the recommendations are wrong; but if they were organized for the benefit of the policyholders, the recommendations should stand.

NO CONGO INQUIRY.

U. S. Without Right to Interfere There, Mr. Root Shows.

Washington, Feb. 25.—The attitude of the American government toward the conditions in the Congo Free State and the American desire for some plan for the administration of all of Central Africa by the several powers ruling or exercising controlling influence there are stated in a letter sent by Secretary Root to Representative Denby, of Michigan. Secretary Root says this government has no opportunity or power to investigate Congo conditions. His letter follows:

I have your letter of the 15th regarding the widespread feeling among your constituents that our government ought to do something to bring about an international inquiry with a view to authoritative adjudication of the issues to which the Congo Free State is related. The conditions supposed to exist in the Congo Free State are of a nature which are not of the character of the Congo Free State. Your inquiry expresses the difficulty in the way. It is not clear that the United States is in a position to bring about such an international inquiry and adjudication. We are parties to the Congo Free State and the regulation of the firearms and liquor traffic in Central Africa, but that act delegates and confers upon the several powers having possessions or spheres of influence in Africa. The United States has neither, and its participation in the general act is on the distinct understanding that it had no territorial or administrative interest in that quarter.

Our only potential function is in relation to the search and capture of slave vessels which certain waters of the African coast, and no occasion has arisen to exercise that function. We are not parties to the other more commonly cited general act of the Congo (signed at Berlin on February 26, 1885). Our treaty relation to the Congo State is that of one sovereign to another, wholly independent of any relations created by or deducible from the general act of Berlin, which applies only to its signatories. We are not parties to the treaty which gives the signatories the right to intervene in any matter of theirs in the internal affairs of any of them. The Congo State absolutely denies any right on their part to intervene in its affairs, and none of the other signatories appears to controvert that denial. However this may be, it is certain that the United States has no treaty right of intervention. We could not rightfully submit the Congo State to any international conference looking to intervention, adjudication or enforcement of a general accord by other foreign powers against the Congo State.

MUTINY THE CHARGE.

Transport Officer Says Seaman Stabbed Him at Sea.

Charles Watts, a seaman, was removed from the United States transport Summer, lying off 55th-st., Brooklyn, yesterday afternoon, and locked up in the 4th-ave. police station, Brooklyn, on a charge of assaulting Harry P. De Winter, master-at-arms. De Winter himself made the charge yesterday morning. According to a statement of De Winter to the police, Watts attacked him on the high sea on February 16, when the transport was off the southeast coast of Cuba. Watts had been drinking for some time and was under surveillance. On the morning of the 16th De Winter went to the forecabin and, he said, carried off a bottle of rum from Watts's bunk. Watts saw him and remonstrated, then drew out a knife to slash him, according to De Winter.

FRENCH EXILE A SUICIDE.

Man Said His Father Drove Him Out of Country.

Mystery surrounds the suicide of a well dressed Frenchman who shot himself last night at No. 114 West 49th-st. Before he fired the shot he told a young woman in the house, according to her story to the police, that his father called him from France because of a woman. In telling the story to the woman, according to the police, he said he felt his life wrecked. Seven months ago he arrived in this city, and convinced himself that the new environment would help him forget the past.

BOY ROBS FATHER AND DISAPPEARS.

Steals \$400 and Departs for Rhode Island—Captured by Stern Parent.

Providence, Feb. 25.—Patrick Cassidy, a fish and oyster dealer, of New-York, living at Floral Park, carried the proceeds of last Friday's trade to his home, and Saturday morning his son, Charles, thirteen years old, had disappeared with the money, amounting to about \$400. The child's father had been told by a neighbor of Providence, and boarded a night train for this city, surmising that the boy had gone by boat by way of Fall River on Saturday night. Mr. Cassidy reached Riverside in time to meet the boy and a young companion, Otto Smith, as they stepped from the Fall River train this morning. All but about \$60 was recovered in the possession of young Cassidy; the rest disappeared when the Smith boy made his escape. The fish man and his son returned to New-York last night.

WAITING AT ALGECIRAS.

The Moorish Bank Scheme—Views of the Delegates.

Algeciras, Feb. 25.—The bank scheme which the Moorish delegation put forward at the session of the conference on Saturday is, according to the French and British delegates, a loosely drafted mixture of the German and French proposals, following chiefly the German lines. The British and French delegates hint that the scheme was inspired by Germany, and that its object is to indicate the concessions which Germany is prepared to make. The committee, which is considering the three bank projects, has instructions to endeavor to agree on a definite draft of the proposals and to submit it to the full conference at the earliest date possible. A pessimistic view is held among the French and British delegations concerning the likelihood of an agreement being reached on the final draft. They foresee the probability of the conference leaving the bank question unsettled and proceeding to the discussion of the peacemaking problem, which, they believe, cannot be solved unless the neutral powers make efforts at Berlin and Paris. They predict that the conference will last another fortnight and that the delegates will separate after having embodied in a protocol the reforms already adopted. Other matters, however, do not share the French and British pessimism and consider that the longer the conference lasts the greater is the probability of a definite agreement being reached.

COSSACK BRUTALITIES.

Russians Aroused by Treatment of a Girl Assassin.

St. Petersburg, Feb. 25.—Great wrath has been aroused in Liberal circles by the publication of a letter from Mile. Spiridonova, the seventeen-year-old girl who shot M. Luzhenofsky, chief of the secret police at Tamboff, in which she describes the indignities and brutalities to which she was subjected. On account of her youth and her self-sacrifice in executing the sentence against M. Luzhenofsky, who was detested on account of his cruelty in suppressing the peasant disorders, she has been made one of the heroines of the rebellion, and is called a second Charlotte Corday. The letter says that after the shooting of Luzhenofsky, whose bodyguard of Cossacks did not save him from five well aimed bullets, Mile. Spiridonova was knocked down and beaten with the whips of the Cossacks and rifle butts. She was then dragged by her hair downstairs to a sleigh by the Cossacks, taken to the police station, undressed, and thrust into a damp, cold cell, where she was subjected to eleven hours of torment in order to force her to reveal the names of her accomplices. The girl says that two officers took brutal pleasure in kicking her back and forth across her cell, tearing her hair, burning her flesh with their cigarettes, and threatening her with abandonment to the Cossacks unless she confessed. The newspapers demand the instant trial and punishment of the two officers, whose names are given, but the vengeance of the revolutionists will probably anticipate official action. The "Russ" also condemns the organization "which sent this child on such a mission."

NON-UNION MAN KILLED.

Ironworker's Injuries Fatal—Violence May Break Strike.

The death of one non-union man late Saturday night from injuries inflicted, it is alleged, by former union workers on the new Post & McCord structure at Nos. 304 and 306 East 23d-st., and the remanding to the Tombs yesterday of men alleged dynamiters, also said to be union men, threw a serious light on the labor troubles on that and other buildings caused by the strike of the ironworkers. It is not unlikely that these incidents may have a tendency either to break the strike or to do away with the dangers incurred by men who wish to work. John Jahradorfer, who was assaulted on his way home from work on February 7, died late Saturday night in the Bethany Deaconesses' Home, Williamsburg. Paul Cooper, twenty-eight years old, who was recognized by the dead man as one of the three who assaulted him, was rearrested and held without bail yesterday for further examination. Cooper was arrested soon after the assault, but released on bail. He was formerly employed on the Post & McCord building.

Charles Moran, of No. 62 Nelson-st., Jersey City; Thomas Weir, of No. 405 East 24th-st., and John Guthrie, of No. 316 7th-st., Jersey City, who were arrested Saturday night in front of No. 322 2d-ave., suspected of being implicated in a plot to dynamite the Post & McCord building, were remanded to the Tombs yesterday morning by Magistrate Barlow in the Yorkville court. All three are ironworkers. They maintained silence from the moment they were arrested, and calmly agreed to be remanded to the Tombs when Detective Sergeant Jackson asked the magistrate to do so. The detectives expect one of them to turn State's evidence at any moment. It was told in The Tribune yesterday, they were arrested as the result of the complaint of a family living in the neighborhood of No. 292 2d-ave., which is the rear of the Post & McCord building. Detective Mullen, who helped make the arrest, said yesterday that he and his companions had seen the three men near the building, and that they were a sample midway between the ferryhouse and the recreation park, at East 23d-st. After the arrest the bag was found, and it contained ten pounds of dynamite and a fuse. Guthrie was arrested while standing outside the Post & McCord building. The men refused to say anything yesterday, nor did they ask for counsel. It was denied yesterday by the officers of the Housemaids and Bridgemen's Union that Thomas Guthrie, who was arrested in connection with the dynamite building in East 23d-st., where Post & McCord building is located, was a member of the union. Delegate Kelly, of the union, said that he knew no such men, and was convinced that the alleged plot was not concocted if there was a plot, by any member of the union.

WARRANT FOR WITNESS.

Judge Seabury Determined to Investigate "Fake" Juror Frauds.

Stanley S. Bagge, one of the important witnesses against the New-York City Railway Company in the "fake" juror frauds, is missing, and his absence has temporarily blocked the investigation started by Judge Seabury, of the City Court. The latter is determined, however, that he will go to the bottom of the charges that fraud was committed in certain parts of the City Court by agents of the railroad, and will not permit the absence of one witness to stop the inquiry. When Bagge failed to respond to a subpoena on Saturday, a warrant was issued for his arrest for contempt of court. Up to last night detectives had been unable to find him. His home is in Mount Vernon. Henry M. Stevenson, who is acting as counsel in the investigation, said last night: "While Judge Seabury has no desire to appear to be a professional juror, he is determined to get to the bottom of the charges that fraud was committed in certain parts of the City Court by agents of the railroad, and will not permit the absence of one witness to stop the inquiry.
