

NOW VOTE \$1,500,000. OVER TWO MILLIONS.

HOUSE-FOLLOWS SENATE. CITY'S BIG RELIEF FUND.

Relief Appropriation Increased to Meet President's Request. Many Give Large Sums and Withhold Their Names.

Washington, April 23.—When the Senate convened today, a message was received from the President, conveyed by Assistant Secretary Baucus, recommending the appropriation of an additional \$1,500,000 to alleviate suffering at San Francisco. The message was made public when received by the House on Saturday. It was referred to the Committee on Appropriations. The House joint resolution appropriating \$1,000,000 additional for the relief of San Francisco passed on Saturday was laid before the Senate. Mr. Allison, chairman of the Committee on Appropriations, stated that his committee had received an advance copy and had considered it to-day. He offered an amendment increasing the appropriation to \$1,500,000, in accordance with the President's request. He also offered an amendment making the fund applicable to the payment of extra mileage and transportation of troops occasioned by the calamity on the Pacific coast. In this form the resolution was passed. During the considering of bills affecting the interests of the District of Columbia in the House the committee of the whole rose and Speaker Cannon laid before the House the joint resolution passed by the House last Saturday appropriating an additional \$1,000,000 for the relief of the sufferers in San Francisco and other California cities with the amendments of the Senate making the amount of the appropriation \$1,500,000. Without debate the Senate amendments were concurred in.

STATE GIVES \$250,000.

Legislature Passes Bill at Suggestion of Governor.

(By Telegraph to the Tribune.) Albany, April 23.—Governor Higgins sent to the Legislature to-night a message urging an immediate appropriation for the relief of the San Francisco sufferers. Senator Raines immediately called for a bill calling for an appropriation of \$250,000. The Governor's message was as follows: With the calamity that has so recently fallen upon the city of San Francisco and the state of California fresh in our minds, the question is not whether we shall contribute to the relief of the afflicted population of our sister state, but rather how speedily and how liberally may we come to its assistance. Later information serves only to confirm the earlier reports of widespread and appalling disaster, bringing ruin to many hundreds and suffering to many thousands. The Empire State has never shown itself backward in such emergencies. As the need is great, so should its contribution be generous. I therefore recommend the immediate appropriation of \$250,000 for the relief of the people of California who, as a result of the recent earthquake, are afflicted or distressed in body or estate. I suggest that the said amount be placed at the disposal of the Governor without delay, to be expended by him through the agency of the American National Red Cross or otherwise. The appropriation bill was immediately passed by both houses.

AUDITOR FOR RED CROSS.

President Suggests That Expert Keep Account of Distribution.

Washington, April 23.—President Roosevelt yesterday addressed the following letter to Miss Mabel T. Boardman, of the Red Cross Central Committee: You have seen the notice to the public which I have issued asking that Dr. Devine be sent all contributions in the interest of the Red Cross Association. I very earnestly suggest that through Cleveland H. Dodge or through Jacob H. Schiff you send out an expert auditor to San Francisco to check the expenditures, and to keep the account of not only the money, but of the supplies, so that we may be able to give a full statement not only as to the money, but as to the supplies. I do not intend that any red tape shall interfere with at once supporting the San Francisco people in their dire need, but it is necessary that at as early a date as possible we shall have things in such shape as to enable us to make a clear statement of what we have done, as in the case of the American National Red Cross. The public in this matter, will you not take this up at once and let me know about it? Miss Boardman immediately advised the President that the Secretary of War, as president of the Red Cross, had requested Judge Morrow to immediately appoint a treasurer and auditor.

CALIFORNIA RELIEF ASSOCIATION.

Forming Plans to See Contributions Are Properly Distributed.

Out of the meeting of Californians in the Casino last Saturday has grown the California Relief Association, which was formed yesterday at a meeting in the Astor Gallery of the Waldorf. The leaders in forming the society were Miss Blanche Bates, Miss Margaret Anglin, Mrs. William Collier, Mrs. Frances Del Mar, Miss Alice M. Brown, Mrs. Charles J. Brooks, W. K. Ketchum and Dr. Adolph Danziger. Joseph Redding, the San Francisco lawyer, was chairman of the meeting. He explained that the purpose of the association was not to collect funds, but to see that the millions contributed were distributed in a proper manner. He predicted a rapid subsiding of the city, adding: "The chief fault of the disaster was a false economy. The water mains and sewers of San Francisco were of the old Roman style of cement and brick arches, and, when needed, moist, melted away like molten sugar. It has been an awful lesson, but the city that will rise from the ashes will have steel mains and a proper sewer system." The permanent committee, of which W. K. Ketchum is chairman, will meet daily at the Waldorf. The committee on supplies has its headquarters in rooms 134 and 136, which will be open day and night.

"BIG SIX" TAKES UP COLLECTION.

About two thousand five hundred printers, their wives and sweethearts, attended the annual ball of Typographical Union No. 6, popularly known as "Big Six," at the Grand Central Palace, last night. The receipts of the ball amounted to about \$3,000, which will go to the hospital fund. At midnight a collection was taken up for the San Francisco fund.

Yesterday's subscriptions received by the Chamber of Commerce committee amounted to \$74,238.25. Up to Sunday the committee had received \$671,800. One contribution was taken to the committee by a stranger, who laid \$100,000 in gold certificates on the desk with the remark: "Here is a little sum we want to give to this cause." Another gift of \$10,000 was by Sargent & Co. Several persons sent their contributions, amounting to \$4,890, through Brown Brothers. FLOWER AND FRUIT MISSION.

The Fruit and Flower Mission, of San Francisco, a non-sectarian organization, which for the last twenty years has devoted its exclusive attention to looking toward the relief of the poor, has, through the recent destruction, suffered great loss by the burning down of its warehouse. The society consists of nearly two hundred active members, who are the wives and daughters of some of the most prominent families of San Francisco. To assist them in carrying on their worthy work among the poor a committee has been organized in this town consisting mainly of former "Frisco residents, who have undertaken to raise a fund to assist the society. Max I. Koshland, of the firm of Sternberg, Sinn & Co., No. 74 Broadway, will receive subscriptions large or small, for the cause.

MORE AID FROM STAGE.

Receipts of Many Plays Going to San Francisco Sufferers.

The theatres continue their activities to aid the San Francisco sufferers. Last night the proceeds of the evening performance of "The Lion and the Mouse," augmented by the salaries of players and musicians—\$2,022.50 in all—was turned over to the fund. All the receipts at the Madison Square Theatre also were turned over, as will be the case to-night and Wednesday. The performance of "Arms and the Man," announced for yesterday afternoon, was postponed till Wednesday, that the receipts may be greater. To-day Joe Weber gives the receipts of his matinee for contributions.

Yesterday Al Hayman cabled \$1,000 as his gift, to be sent through the managers' association, and for the managers' association benefit, on May 4, at the Opera House, Mrs. Ballington Booth offered her services. She will make an address. Next Sunday there will be a benefit at the Casino, which Mrs. Piske and Margaret Anglin will appear, while at the Academy of Music the annual vaudeville benefit for the American Relief Fund will take place. Receipts go to help all actors who suffered loss at San Francisco. At this performance Miss Hillan Russell and "Sisters" will be among the stars.

RUSH AT WEBER'S STORE.

Footlight Favorites More than Successful as Saleswomen.

The latest thing is out at Joe Weber's Colossal Department Store and Emporium of Trade in the Gleyse House, where a barrel of money already has been raised for San Francisco. A man stood a better chance of getting through Baxter street unhindered by pullers-in in the old days than he has of getting by the chorus girls from the music hall without buying something for which he has no use, at a price decidedly above par. But it is not for charity, and he seems to be getting separated from their money by the pretty girls. If anybody has any money left after the expert ministrations of such capable "salesladies" as Marie Dressler, Bessie Maginn, Edith Moyer or Erminie Earle, Joe Weber, who makes a most imposing head floorwalker, gently steers him up against a big barrel in the middle of the room, with an open hand asking for contributions, every body who has a dollar or two to spare, hotly returned puller-in until the shop was filled again. A lot of mean men insisted on standing outside until some of the chorus girls took them by the hand and led them inside.

One of the first purchases yesterday was made by Mrs. Charles Zelle, who bought a pair of silk buttonholes to everybody. Nobody escaped without at least one. Cold cream and "fresh goods" were disposed of with a lavish hand by Erminie Earle, and if her customer had any money left after that she had a large supply of toothbrushes and a pair of hairpins. One of the most generous returned puller-in until the shop was filled again. A lot of mean men insisted on standing outside until some of the chorus girls took them by the hand and led them inside.

All the money received thus far has been placed in the big barrel in the store, and it is even now half full of coin and bills and checks. Additions to the stock received, among them, hats and capes, grocers, florists, provision dealers and the general public. At 4 o'clock the company knocks off work and Mrs. Weber takes charge of the store.

CHINESE GIVE \$2,700 TO FUND.

The Chinese of Manhattan turned in to the Mayor's office yesterday \$2,700 for the relief of the San Francisco sufferers, and promised the Mayor that there was more to come. John Lee, Lee B. Lok, Ching Pong and H. K. Woo, merchants, called at the City Hall and asked to see the Mayor. They told Sergeants Kennel and Kelley that they had money for the San Francisco fund. Mayor McClellan, who remembered that the Chinese sufferers had raised more than \$1,000 for the St. Louis disaster sufferers, came out and shook hands with the visitors. Mr. Lee was the spokesman.

"This is only part of what we shall raise," said Mr. Lee.

"Do you give it with the understanding that it is to be used for the relief of the Chinese in San Francisco?" asked the Mayor.

"No," said Mr. Lee, "just put it in the general fund for everybody."

The Mayor returned to his office, and the visitors sat down in the big barrel. After the Chinese there for fifteen minutes Sergeant Kennel asked them as delicately as possible what they were waiting for.

"We want a receipt," said Mr. Lee, with a genial smile. And they waited ten minutes longer till they got it.

GERMANY ABANDONS RELIEF PLAN.

Ireland to Offer Material Aid, However, Despite President's Statement.

Berlin, April 23.—The various projects for expressing in an organized public manner German sympathy with the sufferers from the San Francisco disaster and forwarding material aid have been abandoned, owing to President Roosevelt's disclaimer of any intention to accept such offers. The "Tagblatt," especially, in a leading article, headed "Roosevelt and the New Monroe Doctrine," affirms that the President appears to be declaring himself independent of the Old World and warning foreign peoples to confine themselves to sympathy, and not to furnish material amelioration.

Dublin, April 23.—At a public meeting here this afternoon a fund was opened for the relief of the destitute of San Francisco. The subscriptions at this meeting amounted to \$1,600. Many well known persons have promised further sums. The feeling of the meeting, which was held at the Mansion House, was that in spite of President Roosevelt's announcement, Ireland's sympathy should take practical form.

FORM LONDON RELIEF COMMITTEE.

American Women Abroad to Help Rebuild San Francisco Hospital.

London, April 23.—The committee to promote some object to express sympathy with the sufferers in California will not be able to meet until May 1, owing to the absence from the country at present of many American women residing in England. In the mean time interest is being placed in the

Adjustment and Readjustment

SIZE is only an incident of our business premises—nevertheless quite important to us and interesting to you.

Careful measurements just revised give nearly thirty-two acres of floor space in our Broadway and Astor Place stores. To be exact, one million three hundred and eighty-four thousand, and twenty-eight square feet.

The Stewart Building is in general the Dry Goods Store, but it retains the Book Store. The Wanamaker Store—when Furniture is added—will be devoted entirely to Housefurnishing, except the first floor, which is entirely for Men's Wear. Remember these distinctions. To do so will help you.

Business history in New York records no exhibits equal in charming attraction with the Second and Third floors of the Wanamaker building. The Angelus and Piano stocks are housed in harmony with their beauty—Second floor. The Glass and China, Marbles and Bronzes, Lamps and Electrolites make a collection of color and form, that surprises you by its brilliancy and beauty. One glory of the collection is the lavish richness of the Rorstrand ware, from the Swedish pottery that is said to be the most ancient active ceramic works in the world. Third floor.

Carriage entrances on Ninth street to both the Stewart and Wanamaker buildings.

Adjustment in the new building is easier than readjustment in the old building. Both are needed for the progressive service we are now planning as an element of our larger future.
