

CITY HALL BOTTLE

Chicago's "House on the Sands" Shivers and Shakes.

Chicago, April 30.—Chicago's City Hall has settled to such an extent since the completion of the excavation for the adjoining new county building that it was necessary yesterday to rope in the entrances to prevent pedestrians from being killed by the falling sections of coping and cornices. At the south end of the building, on Washington street, the foundations have sunk several inches, while the entire building is named a list in the direction of the hole which the new building will cover.

The City Hall and the county building were of the same massive construction, and as it was necessary to use giant powder to wreck parts of the latter, there had been no preparation of the city's administrative building collapsing. However, though its foundation walls are many feet thick, they do not rest on the rock which underlies the city, but merely on the clay sub-soil.

Yesterday ominous shivers ran through the building, and with many snaps and groans cracks appeared in the board floors and desks and seats. The floor cracked tilted and dirt emerged from crevices where it had lain undisturbed for years. Skylights doubled up and plaster fell from the walls and ceilings.

Two employees narrowly escaped being killed and two were entering the building. The employees were in the building when the shivers ran through it. One of the employees was in the building when the shivers ran through it.

BRUNNEN'S FETE.

Day Spectacle Where Five Hundred College Girls Appear.

At the Brunnens College campus will today see a portion of the Elizabethan May Day fete of 1900. The idea of such a spectacle was in that year the inspiration of the chairman of the newly organized committee whose special function was to devise means of raising money for the much needed new stair more urgently needed, students' dormitories.

The preparations were carried through in six weeks, and the sum of \$5,000 was cleared. The fete has been only a memory of a day and night, and to the present undergraduate tradition handed down as such traditions of the past.

These give some faint idea of the pageant which will be held, decorated with roses and garlands. The pageant will be followed by the four magnificent oxen, procured some weeks ago, and which will be shown in an interested and generous neighborhood.
