

A BRITISH ULTIMATUM.

WARSHIPS LEAVE MALTA.

Measures Taken to Compel Turkey to Give Up Tabah.

Malta, May 4.—The British cruisers Carnarvon, Barham, Suffolk and Venus, and the special torpedo boat Vulcan, with destroyers, are on the way to the Pireus to-night.

The battleship Formidable, flagship of Vice-Admiral Lord Charles Beresford; the battleship Irresistible, and the cruiser Leviathan have arrived here from a cruise.

Paris, May 4.—It is officially confirmed that France is supporting Great Britain's demands at Constantinople, in connection with the Tabah incident. The influence of Italy and Russia is also given to Great Britain. The officials here expect an adjustment without a serious Anglo-Turkish breach.

London, May 5.—The presentation of what is tantamount to an ultimatum to Turkey and the preparations of the British Mediterranean fleet for a demonstration in Turkish waters in case of non-compliance are expected to produce a speedy yielding on the part of the Sultan and the settlement by the withdrawal of the small Turkish garrison pending delimitation of the rival frontier claims in the Sinai Peninsula.

Each country shall have the right of diversion for irrigation or extraordinary purposes in equal quantities of the waters of non-navigable streams crossing the international boundary.

The resolution in regard to the diversion of water from the Sault Ste. Marie River provided that the governments of the United States and Canada should reserve all water necessary for navigation purposes at present or in the future.

London, May 4.—The British Ambassador at Constantinople, Sir Nicholas O'Connor, yesterday presented a note to Turkey demanding the prompt withdrawal of the Turkish troops from Egyptian territory.

The Sultan has ten days in which to comply with the British demand for the withdrawal of troops from Tabah and other points on the peninsula, pending the delimitation of the frontier by a commission.

A Cabinet Council was held late this afternoon to discuss conditions which may arise as a result of the ultimatum.

The representatives of the various trades are meeting frequently at the Labor Exchange, but no further disorder has occurred.

NO DISORDER AT PARIS.

Strikers Estimated at 77,000—Arrests of Anarchists.

Paris, May 4.—The officials of the Prefecture of Police estimate the number of strikers remaining out in Paris and its vicinity at 77,000. Work on the subway has been suspended by agreement among the contractors not to resume operations until the men accept the former conditions.

The Prefect of Police, M. Lépine ordered the arrest to-day of a number of foreign agitators. Twenty-six of these were taken into custody last night, and three more were arrested this morning.

The body of a man, apparently a Russian, having a bullet wound in his head was found in the Forest of Vincennes this morning.

The body corresponds with the description of a third man, who escaped after the explosion. The case with which the anarchists carried on their operations is leading the police to adopt the most rigid precautions.

The Prefect of Police, M. Lépine ordered the arrest to-day of a number of foreign agitators. Twenty-six of these were taken into custody last night, and three more were arrested this morning.

Several small provincial disturbances were reported to-day. Two dynamite cartridges were exploded at Lens, damaging the houses of two workmen.

ZULUS KILL A MAGISTRATE.

Tax Collecting Party Caught in Ambush Near Mahlabitini.

Pietermaritzburg, Natal, May 4.—Mr. Stainbank, the British magistrate at Mahlabitini, Zululand, has been killed by Zulus while collecting taxes near that place.

Mahlabitini lies to the westward of the forest where Bambatha, the insurgent chief, formerly the regent of the Greytown District, has been hiding. There seems to be no doubt that the rebel chief has succeeded in inducing another tribe of Zulus to join the revolt.

COATS FIRM CANCELS EXTENSION.

Much Alarm at Paisley Over Decision to Build Mill Abroad.

Paisley, Scotland, May 4.—J. & P. Coats, thread manufacturers, who have large works in this city, have decided to cancel their extensions here on account of local interference between them and their female employees, and to build abroad.

SENDS \$6,300 FOR VESUVIUS VICTIMS.

Washington, May 4.—Through the State Department the American Red Cross to-day cable \$6,300 to the Italian Red Cross for the relief of persons rendered destitute by the outbreak of Vesuvius.

LAKE TREATY URGED.

Report of Waterways Commission—Niagara's Preservation.

Toronto, May 4.—The International Waterways Commission, which completed its work yesterday at Buffalo, has made public its report. It recommends that exclusive of water required for domestic use or the services of locks in navigation canals such diversions be limited on the Canadian side to 36,000 cubic feet a second, and on the United States side to 18,500 cubic feet a second.

No objection or diversion shall be permitted in or upon any navigable water crossing the boundary, or in or from streams tributary thereto, which would injuriously affect navigation in either country.

Each country shall have the right of diversion for irrigation or extraordinary purposes in equal quantities of the waters of non-navigable streams crossing the international boundary.

The American members were of the opinion that the enunciation of principles to govern the making of a general treaty was not within the scope of their functions.

The resolution in regard to the diversion of water from the Sault Ste. Marie River provided that the governments of the United States and Canada should reserve all water necessary for navigation purposes at present or in the future.

London, May 4.—Partisans of the brigand Vanmaomao, who was undergoing twenty years' imprisonment in the municipal jail here, attacked the warders to-day.

The trouble was promptly suppressed. Vanmaomao and another Chinaman were killed and four of the attacking party were injured.

STEAMER SUNK BY ICEBERG.

The Anglo-Peruvian Goes Down Off Newfoundland—Crew Saved.

Weymouth, May 4.—Captain Wilson Curtis and the crew, numbering thirty-seven, of the British steamer Anglo-Peruvian, from Shields April 11 for Philadelphia, were landed here this afternoon from the British steamer Mohawk, Captain White, from New York on April 20 after the Anglo-Peruvian foundered off the coast of Newfoundland on April 21 as the result of a collision with an iceberg.

Through April 21 the Anglo-Peruvian sighted many small icebergs, and toward evening, in thick weather, she ran into one. Her forehull and mid hull rapidly. Scarcely had the crew taken to the boats when the Anglo-Peruvian foundered. The Mohawk, which had sighted the steamer, stood by her till she sank, and picked up the crew.

The Anglo-Peruvian was built at Sunderland in 1905, and belonged to the Nitrate Producers' Steamship Company, Limited. She was of 3,500 tons.

FISHERY BILL PASSES HOUSE.

Newfoundland Apparently Determined to Adopt Rigorous Measures.

St. John's, N. F., May 4.—The lower house of the Colonial Legislature to-night passed the Foreign Fishing Vessels act without division, although Mr. Marine, leader of the Opposition, characterized it as a declaration of war against a nation at peace with the empire.

BIG LOCKOUT VOTED IN GERMANY.

Berlin, May 4.—The General Association of German Metal Working Establishments to-day voted a general lockout on May 10 unless the strikers in the various cities return to work meanwhile.

EXHIBITION OF THE AERO CLUB.

There was an exhibition by the Aero Club last night at the rooms of the Automobile Club, of all sorts of articles and appliances used in aeronautics, for the benefit of the mother of Paul Noquet.

TALCOTT WILLIAMS ALPHA DELTA HEAD.

Talcott Williams, Editor of "The Philadelphia Press," was elected president of the National Alpha Delta, Phi fraternity to-day. Collin Armstrong, of New York, was chosen vice-president, and Robert A. Gunn, of New York, secretary.

NEXT MAY BE HERE.

Educational Conference Ends—Drs. Robertson and Knapp Speak.

Lexington, Ky., May 4.—The last day of the Conference for Education in the South was by far the most important of any of the several sessions held and was crowded full of addresses and social affairs.

The first session held by the conference this morning called for an election of officers, and by a rising vote all of the old officers were re-elected for the ensuing year.

Following the election of officers the conference was addressed by Dr. James W. Robertson, of the McDonald College, St. Anne de Bellevue, Quebec, and Dr. S. A. Knapp, of the United States Bureau of Plant Industry, at St. Charles, La.

Dr. Robertson is a Scotchman, and his references made to the American life were well received.

Dr. Knapp's address was explanatory of the value of a botanical education.

Invitations to hold the next conference at Hartford, Conn.; New York City, Norfolk, Va., and Nashville, Tenn., were received.

The performance opened up visions, rapturous and radiant, of many future festival choruses.

The children raised their voices again in a choral melody in the finale of the "Pax Triumphantis," the festival program composed for the Brooklyn Singsong of 1905.

An interesting, if not particularly edifying, feature of the evening was the singing of three songs by the English composer Boughton—the poems of Mr. Kipling—"Fair is Our Lot," "Song of the Dead" and "The Price of Admiralty."

Mrs. Rider Keck, taking the place of Mrs. Homer, sang "With Verdure Clad," and won the admiration of the knowing by the sweet soundness of her voice and style.

MUSIC.

The Cincinnati Festival—Fourth Concert.

Cincinnati, May 4.—The singing of a chorus of one thousand children from the public schools of the city at the fourth concert of the seventeenth biennial music festival this evening not only contributed the most graceful and inspiring feature of the affair, but also served to emphasize the fact that the characteristically popular element has stronger representation at this meeting than it has ever had.

In 1873 and 1875 the public school children took part in the festivals, but only by singing patriotic and familiar songs of a simple cast.

The vocal music is fluently and gracefully melodious, generally unison, except when in the full throats of the children, when two-part harmony, but all of it floats buoyantly on a swelling flood from the orchestra, whose voices are charmingly delineative and uplifting.

The performance opened up visions, rapturous and radiant, of many future festival choruses.

An interesting, if not particularly edifying, feature of the evening was the singing of three songs by the English composer Boughton—the poems of Mr. Kipling—"Fair is Our Lot," "Song of the Dead" and "The Price of Admiralty."

ART EXHIBITIONS.

The American Water Color Society in Pleasant Form.

The last show of the season at the Fine Arts Building that of the American Water Color Society, turned out to be a more ambitious affair than was expected.

In 1873 and 1875 the public school children took part in the festivals, but only by singing patriotic and familiar songs of a simple cast.

The vocal music is fluently and gracefully melodious, generally unison, except when in the full throats of the children, when two-part harmony, but all of it floats buoyantly on a swelling flood from the orchestra, whose voices are charmingly delineative and uplifting.
