The journey of Chairman James S. Sherman of the Republican Congressional Committee to Oyster Bay, and the journey of Chairman James M. We cannot understand, and we think the voters will fail to understand, the logic of the appeal which the Democratic managers will have to make to the country.

THE CENTRAL AMERICAN PEACE. The prompt conclusion of peace among the recently warring Central American States will be widely regarded as among other things an indication of the insufficiency of the grounds upon which the war was begun.

Academically, the question is somewhat complicated, and might form the subject of interminable argument. There are those who hold that discovery and exploration give title to new lands, while others insist that title is not perfected without actual occupation and permanent settlement.

NO ABROGATION OF SOVEREIGNTY.

The Interparliamentary Union is a most respectable organization, which has at times effected some good, and which is at all times moved by high and philanthropic purposes, and its meetings are to be regarded with a degree of sympathetic interest.

AN UNWELCOME GUEST.

With the gypsy moth moving upon us, as the entomologists assert, in automobiles, it behoves us to take notice of the work which is being done in New England, and especially in Massachusetts, in combating the pest, which has so firmly established itself within the borders of that state.

Strophon lingers in the Row; he lingers long, but all in vain, 'Till a glimpse of faithless Chloe shows his dusky doublet pain.

THE TALK OF THE DAY.

A merchant in Northern Michigan tells the story of a "lumberjack" who, after a winter of privation and hardship, visited one of the larger towns to have a good time.

LOVE SONG OF THE FUTURE.

Tell me, darling, ere with rapture I shall sink in love's soft fetters, Ere with joy a kiss I capture, Have you a thousand lips.

of underbrush and the burning over or spraying of the ground. In spite of hostile criticism in certain quarters because of their refusal to sanction the use of other parasites than those chosen, Dr. Howard and Mr. Kirkland are proceeding with the utmost conservatism.

TITLE TO ARCTIC LANDS.

The voyage of the Canadian government cruiser Arctic to the Far North suggests for consideration the question of the ownership of some far northern lands. For many years explorers of various nationalities, British, American, Scandinavian and others, have ventured into the frozen wilderness lying between the Dominion of Canada and the North Pole.

It is not to be wondered at that engineers have been a little slow in discovering how exceptional is the situation here, but a recognition of that truth is a guarantee of final success in the solution of local problems.

NEW YORK SOCIETY.

Now that the season in Paris has come to an end, and that the season in London is rapidly drawing to a close, all those members of New York society who have been taking part therein are flocking homeward, most of them bound for Newport, where the summer's gayeties are now well under way.

It is on Thursday week that the fleet assembles for the cruise, its rendezvous being, as usual, at Glen Cove, Long Island, and a larger number of boats to take part therein this summer than ever before.

Horse shows and regattas will to a great extent occupy the attention of people this week. Atlantic City's horse show of last week is being followed on Thursday next by a similar exhibition at Long Branch, and most of the horses which have figured in the show will be seen in the other cities.

It is just possible that Mr. and Mrs. Reginald C. Vanderbilt may be back in time to take in the entire season of the horse show, which several of their horses have been entered. They sailed early on Friday last for the America, which should be here, wind and weather permitting on Thursday, the day of the opening of the exhibition, which lasts until Saturday.

Mrs. Ogden Goelt returned here on Friday, after a stay of several months in Europe, and has joined her son and daughter-in-law at Ochre Court, her place at Newport. Mrs. Robert Goelt, sr., is likewise on her way back to America, with the intention of spending the remainder of the summer at Newport, where she will give several entertainments.
