Let this be A Practical Christmas

You measure the value of every article you buy by the service it will give—why not be equally practical at Christmas? Useful presents are the ones worth while and nothing can be more worthy than a wisely selected watch.

But to be practical the selection of a watch must be based upon watch-service and real watch merits—timekeeping qualities, beauty and durability. When you buy these merits you buy the maximum of real watch service.

New England
Watches have these merits and are guaranteed to give the highest degree of watch satisfaction. Their low prices are right at the meeting point of economy with real watch service. They are the most worthy presents for practical Christmas giving and the ideal of the practical American public.

Every penny a **New England** Watch costs is there in time-keeping qualities and long service.

New England Watches have unusual value at their low prices, because for 28 years we have been figuring down watch cost. Because a large output itself means a low cost for each individual watch. Because we are specialists—our every energy, every facility, going exclusively into the economical building of real watch service.

Ask your dealer to show you **New England** Watches. If he doesn't keep them, just give us his name and address and we will send you a free copy of a handsome and instructive book—the Blue Book of Watches for Ladies or the Red Book of Watches for Men. Write us today for the book you want and we will make it easy for you to examine, test and, if pleased, to buy a **New England** Watch. Don't forget to give us your jeweler's name.

Special Holiday Offer

TO INTRODUCE OUR NEW EXCELSIOR SOLAR TELESCOPE

No telescope with a solar eye piece has ever before been sold for less than \$8.00 or \$10.00.

THIS is a long powerful achromatic Telescope for terrestrial and celestial use. This telescope is provided with an adjustable eye piece, fitted with a solar dark glass lens for sun observations. With this wonderful solar eye piece you look the sun squarely in the face on the brightest and hottest day and study its face as you do the moon at night. Every student, male or female, needs this telescope to study the sun in eclipses, also the mysterious recurrent sun spots. Never before was a telescope with such an eye piece attachment sold for less than \$8.00 or \$10.00. This eye piece alone is worth more than we charge for the entire telescope to all who wish to behold the sun in its tranquil beauty. Remove the solar eye piece lens and you have a good practical telescope for land observations, etc.

POSITIVELY such a good telescope was never sold for this price before. These telescopes are made by one of the largest manufacturers of Europe: measure closed, 12 in., and open over 3 1/2 feet in 5 sections. They are brass bound, brass safety caps on each end to exclude dust, etc., with powerful lenses, scientifically ground and adjusted. Guaranteed by the maker. Heretofore telescopes of this size have been sold for from \$5 to \$8. Every sojourner in the country or at seaside resorts should certainly secure one of these instruments; and no farmer should be without one. Objects miles away are brought to view with an astonishing clearness.

OVER 3 1/2 FEET LONG.
CIRCUMFERENCE 5 1/2 INCHES.
PRICE **\$1.00** BY EXPRESS

Our new catalogue of guns, etc., sent with each order. This is a grand offer and you should not miss it. We warrant each telescope just as represented or money refunded.

The mysterious spots on the Sun. Get our Solar Telescope and see them.

Here is what a few purchasers say: **WORTH MANY TIMES THE PRICE**

The Saxon, New York, Nov. 4, '05. Messrs. Kirtland Bros. & Co. Gentlemen: I had with me on my recent European trip, one of your Excelsior Solar Telescopes, with which I had the pleasure of observing an eclipse of the sun. At the Austrian Tyrol it was almost 80 per cent. concealed. Your solar eye piece is a great thing. Its value to me on this occasion was many times greater than the entire outlay for the telescope. Yours truly,
L. S. HENRY.

SUPERIOR TO \$15 ONE
Fred Walsh, of Howe Island, Ontario, Canada, says:

Gentleman: I have just received your Telescope, and must say it surpasses all expectations. It is far superior to one which we have had, which cost \$15.00 some years ago. Just a few nights I have seen with it are worth more than double what it cost me.

Hundreds of others saying good things about these telescopes.

GET ONE AND TRY IT.
Send \$1.00 by Registered Letter, Post Office Money Order, or Bank Draft payable to our order. Sent postpaid for 10 cents extra.
