SAFETY DEVICE EXHIBITION. "Until recently we used up a man every six months," said a superintendent of the dry cloth department in a large American factory, "but since we have introduced new methods of industrial hygiene, in the shape of clean overalls every day (washed in a special compulsory spray bath, exhaust for carrying off impure air and forced drafts of pure air, we now have the continuous service of all our men in that department."

REPLIES TO PROTECTIVE COMMITTEE. The directors of the United Box Board and Paper Company have issued a statement, replying in detail to the charges recently made against the management by the stockholders' protective committee and closing as follows:

LARGEST SIDE WHEELER LAUNCHED. Detroit, Jan. 5.—The City of Cleveland, the largest sidewheel steamer in the world, built for the Detroit and Cleveland Navigation Company, was successfully launched today at the Wyandotte yard of the Detroit Shipbuilding Company.

SCRANTON ASKS NO AID.

TYPHOID SITUATION UNDER CONTROL, the Mayor Announces. Scranton, Penn., Jan. 5.—Twenty-nine new cases of typhoid were reported to the Bureau of Health for the twenty-four hours ended at noon today, bringing the total thus far in the epidemic up to 1,610 in Scranton, and eighteen in the adjoining borough of Dunmore. Five deaths were reported this morning, a total of eighty-four in the last three weeks from the fever. To-day's new cases show an increase of eighteen over the report of yesterday. The Mayor issued the following statement:

IN view of erroneous and exaggerated statements appearing in different papers in the country, I desire to make the following statement: The epidemic has been traced to typhoid infection in one of the sources of the water supply of the city, the typhoid bacillus having been actually isolated, thus confirming the theory that our Bureau of Health advanced and acted upon more than three weeks ago, during which period most stringent rules and regulations have been put in force, with the idea of reducing to a minimum both primary and secondary cases.

UNION AGAINST DRYDEN

Will Be Bound by Caucus if He Withdraws. (By Telegraph to The Tribune.) Elizabeth N. J., Jan. 5.—A conference of the members of the Legislature from Union County, held here this morning, agreed to issue a public statement, in which they declare that if Senator F. Dryden withdraws his name as a candidate for the Republican caucus, they will enter the caucus and elect a candidate of their own. Although the members of the delegation do not state in so many words what they will do if Mr. Dryden does not withdraw, the statement is taken by those acquainted with the sentiment on the Senatorial question which exists in Union that they will all refuse to enter the caucus as long as Mr. Dryden remains a candidate.

WE believe that in order to conserve the best interests of the people the Legislature of our state at the coming year should elect a Republican candidate for the United States Senate. As regards Republicans, we believe in the party organization. Under the conditions that have confronted the party at this time we think all Republican members of the Legislature should be placed in a position so that they could vote for the best candidate for the election of a Republican United States Senator.

REPRESENTING the people of Union County, it is our duty to express their wishes. As regards the sentiment of our county is so strong and overwhelmingly against the election of Mr. Dryden that we believe all members of the Legislature should be elected to that office. There is no doubt that all the members of the Legislature are able men who could fill the position with satisfaction.

IN order to clear the way to united party action we suggest that Mr. Dryden should be elected as a candidate, and if his name will withdraw he will enter the caucus and be bound by its action.

THE document is signed by Ernest R. Ackerman, Randolph Perkins, Peter Tillman and John R. Morris. At the close of the conference Senator Ackerman, who has declared he would not be bound by the caucus if it nominated Mr. Dryden, was asked if the Union delegation would refuse to enter the caucus if Mr. Dryden's name was not withdrawn. At this time, he said, the delegation did not wish to say anything further upon the subject than was contained in the signed statement.

PITNEY NOT SEEKING SENATORSHIP. Justice Refuses to Talk, but Friends Think He Would Accept Nomination. (By Telegraph to The Tribune.) MORRISTOWN, N. J., Jan. 5.—Justice Mahlon Pitney when asked about the mention of his name as a candidate for the United States Senate said that in view of his occupancy of a judicial position, he must decline to talk for publication. Inquiry among personal friends of the justice who have recently spoken with him on the subject renders his attitude toward the Senatorship sufficiently clear. While gratified by the favorable mention of his name, he is not seeking the office.

MORRIS COUNTY people are gratified over the mention of Justice Pitney's name, and consider no office in the gift of the state too good for him. He is very popular through this section, and was elected to this town in 1858, and has always lived here. He was admitted to the bar in 1864 and became a counsellor in 1865, having studied law in New York City. His father, Vice-Chancellor Pitney, in 1864 he was elected to Congress from the old 4th District—Morris, Sussex and Warren counties—and was re-elected in 1866. He made a brilliant record in Congress. He was elected to the New Jersey Senate from Morris County, and at the end of his term was appointed to the Supreme Court bench.

HARBOR NOISES HAVE NOT CEASED. Tugs Continue to Blow Whistles Despite Ruling of Federal Authorities. (By Telegraph to The Tribune.) ALBANY, N. Y., Jan. 5.—Robert H. Sayre, the engineer in chief, who was the builder of the Lehigh Valley Railroad, died today at his home on Mountain Hill, aged eighty-two years. He came of English ancestry. Thomas Sayre built the first house on Long Island, at Southampton, in 1648.

IN 1822 Asa Frocker, chose P. H. Sayre to construct the Lehigh Valley Railroad, of which, until a few years ago, he was first vice-president. He was president of the Great South Penn Railroad project and spent \$1,000,000 in construction before the company was bought out by the Pennsylvania. He was a general manager of the Bethlehem Steel Company and a trustee of Lehigh University. His library contained books worth more than \$100,000.
