ARMY AND NAVY NEWS.

(From The Tribune Bureau.) Washington, January 23. SOLDIER HAS LEPROSY.—The army surgeons are deeply interested in the case of the enlisted man who has been under isolated treatment at Fort Screven, Georgia, for leprosy. This soldier, Sergeant Charles O. Mix, is attached to the 10th Company, Coast Artillery. He has quarters of his own, and dogs not as outside a fence inclosed area, where he takes his exercise. His associates are allowed to come to the fence and converse with him only within talking distance. The men of the post are described as being thoughtful and considerate of their stricken comrade, who has as comfortable a stanchion which separates him from intimate associations. A recent order transferred his company from Fort Screven to Fort Williams, Maine. It became something of a problem just what to do with Sergeant Mix, who, of course, travels with his comrade. It has been arranged that he may be transferred from the company which leaves Fort Screven to the one which goes to that place. This will operate to leave Mix in his present quarters. His condition is not regarded as very serious. It has been, although there seems to be no hope of his recovery.

BUNDEL, to 16th Infantry; LAURENCE HALL STEAD, to 10th Infantry; EDWARD D. HERRON and JAMES HANCOCK, to 24th Infantry, and WILLIAM T. MERRY, to 9th Infantry, from 17th to 4th Infantry.
