

AFTER BILLIARD TITLE.

DEMAREST GOING ABROAD

Will Play in Paris for the International Championship.

Calvin Demarest, the new amateur billiard champion, will represent this country in the international amateur championship billiard tournament in Paris the latter part of next month.

Demarest signified his willingness and eagerness to test his skill in Paris. When the plans are perfected he may be accompanied by J. Ferdinand Poggenburg, who now holds the world's amateur record average of 42.67.

As four of the players in the tournament just ended beat Foss's record and all previous figures made in this country, it was believed that at this time the American stood in better position to carry off the honors than ever before.

Both Demarest and his clubmate of the Chicago Athletic Association, Charles F. Conklin, came out strongly for the next national championship, that of 1908, being held in Chicago.

The details of the international championship entry will probably be settled on Tuesday night at a meeting of the national association, to be held at the Liederkreis Club.

Demarest is going back to Chicago, but said that he would be ready to leave for Paris on any date the national association might decide upon.

BOYS' HIGH WINS TITLE.

Earns Interscholastic Chess Championship for Second Time.

By defeating De Witt Clinton in the final round of matches of the Greater New York Interscholastic Chess League championship series the chess quartet of the Boys' High School of Brooklyn emerged winner of the championship for the second year in succession and retained possession of the valuable championship table presented to the league by Professor Isaac L. Rice.

The home of Professor Rice was the scene of the final contests, the results of which were that Brooklyn Boys' High School defeated De Witt Clinton two and a half games to one and a half, and Manual Training High School won from the Commercial High School, of Brooklyn, by three games to one.

At the beginning of play yesterday the Boys' High team needed a single point to clinch the victory, and this was scored through the efforts of Lazarus D. Rosowsky, aged twelve, and the youngest of the contestants, who defeated his opponent in fine style.

COLUMBIA ON THE RIVER.

Blue and White Crews Show Ragged Form in First Spin.

The Columbia crews had their first spin on the river yesterday afternoon, in a chilling breeze that made them shiver when they were not pulling hard. No attempt was made to place the men in any boating order that is likely to be permanent.

Two groups of varsity men were sent out in barges. In one were a number of old men and some new candidates, on whom Rice is keeping a careful watch. The boating was Taylor, bow; Roy, 2; H. C. McLean, 3; Sneyly, 4; C. S. McLean, 5; Cheadle, 6; Von Satta, 7; Mitchell, stroke, and Dorsey, coxswain.

MAY MOVE BOATHOUSE.

Columbia Hopes to Go Over to Jersey Side of River.

The Columbia University Rowing Association has under consideration plans which, if carried into effect, will change the course of training of the crews and result in their beginning work at Poughkeepsie much later than they do at present.

The plans have been brought about by the introduction of a new academic schedule at Columbia, making it impossible for the crews to go to Poughkeepsie before the middle of June.

Mr. Rice, the coach, believes that the men should get into quarters and begin training under conditions similar to those at Poughkeepsie as early as possible. At present there is no way in which this can be done.

Both Demarest and his clubmate of the Chicago Athletic Association, Charles F. Conklin, came out strongly for the next national championship, that of 1908, being held in Chicago.

The details of the international championship entry will probably be settled on Tuesday night at a meeting of the national association, to be held at the Liederkreis Club.

SOME NEW GOLF RULES.

Suggestions for Simplifying Code and Classifying Courses.

The first gun in a move in this country to simplify the rules of golf has been drafted. In the current number of "The Golfer's Magazine" appears a new set of rules, which has been drafted by a well known Western amateur.

The principal requirement of the ordinary major course is that it shall not be less than 6,000 yards in length. A course of this nature is supposed to be suitable for the women's championship tournament.

With regard to a ball lying in water or hazard, the new suggestion differs materially from the old rule, which reads in part: "If a ball lie or be lost in water, or in casual water, in a hazard, a ball may be dropped in, or as far behind the hazard as the player may please."

Another stipulation is that the flag must be removed from the hole when the player is within twenty yards of the hole, which is actually upon the more closely mowed ground recognized as the putting green or not.

The new rule suggested reads: "A professional in the Metropolitan Golf Association book reads: 'No person shall be considered an amateur golfer or shall be eligible to compete in the amateur championship of this association who receives a money consideration, either directly or indirectly, by reason of connection with or skill displayed in playing the game of golf or other branches of athletics.'"
