They are those infinitely clever and effective pumps with the fascinating little leather bow at the instep—exquisitely graceful lines—welled soles and Cuban heels—the smartest, neatest Shoe of the season. The quantity is limited, so we cannot fill mail orders, and would suggest early buying.

GOSSIP OF THE BOROUGH

Fire Drill Misleads Citizens—New Academy "Fireproof."

There is a custom in the Fire Department that has frequently caused early risers and late bed-makers fruitless chases. Acting under instructions from the headquarters in Manhattan, every engine company must take out its apparatus three or four times a month and test it. The test usually occurs between 5 and 7 o'clock on Sunday mornings, when the weather is favorable. The rain usually made by the company situated at the local headquarters in Jay street is a few blocks across to the telephone company's building, in Willoughby street. This is the tallest structure easily reached away from the cars and the people.

NATIONAL GUARD NEWS.

Commanding officers of National Guard organizations that were on duty in the recent joint defense exercises are hoping that the government will reimburse the regiments for the money they had to expend for costs for their men. Under orders from the War Department it was made imperative that each National Guardsman should be on duty at the several forts in the harbor should be provided with a camp cot. As the state does not supply or allow its enlisted men to sleep on cots at the Peckskill camp, each regiment had to purchase a considerable sum from its treasury for the cots required while on duty at the harbor forts. The 7th Regiment, for example, purchased one thousand cots, and the 12th Regiment, one thousand.

A BUNKER HILL GUN.

Alonso Smith, of Showhook, has an old gun which was used in the Battle of Bunker Hill, 181 year ago. Many who fought on the American side on that 17th of June afterward came to Maine to settle, among them Biley Smith, a private in the 2d New Hampshire Regiment. Mr. Smith, the great grandfather of Alonso Smith, of Showhook, settled in Curvillie in 1790 and his grave is in the orchard on a farm near where his grandson, Clark E. Smith, now lives. The musket which Biley Smith carried at Bunker Hill was among his effects, and he passed it on to his son, who in turn passed it to his son, David, and was by him bequeathed to his grandson, Sylvester Smith.
