

THE HEAD TRANSFORMED

Wind-blown Locks Now Concealed Under a Well Groomed Coiffure.

Following her cousin abroad, the American woman has adopted as "her very own," one might say, the arrangement of artificial hair known to the trade as "the transformation."

EFFECT OF A TRANSFORMATION.

cheaper transformations are not formed to deceive even the most discerning of persons.

Three of the "all over transformations" are the usual number in the wardrobe of the strenuous woman in order that one may always be kept at hand.

The latest in curls is a bunch of five or six attached to the top of a back comb to be planted directly at the back of the crown of the head.

The queer little "English fringe" is here, too, and is placed for a strip about three inches long. It is to be pinned on the forehead.

Flower show begins to-morrow. The seventy-sixth annual flower show will be held at the American Institute, in West 44th street, for three days, beginning to-morrow night.

THE TRIBUNE PATTERN.

Verily purple, in all its variations and shades, has taken the world of dress by storm. Here is a really lovely gown of violet marquisette, the design of which is appropriate for a whole host of reasonable materials.

NO. 556—TISSUE PAPER PATTERN OF GUILMPE.

NO. 557—TISSUE PAPER PATTERN OF OVERBLOUSE OR JUMPER.

NO. 558—TISSUE PAPER PATTERN OF FIVE GORED TUNIC.

of the great advantages to be found in the over-suit is the fact that the guimpe can be varied to suit different occasions.

For a gown of lighter color the new tulle marquisette with trimming of Liberty satin and guimpe of white lace would be charming.

A CHILD'S TANTRUMS.

They Should Be Nipped in the Bud—It Takes a Wise, Firm Mother to Do It.

By V. M. Wheat.

Does your little boy or girl ever have the tantrums? Do you know what it means to attempt to enforce a command and have a sweet bit of lovable humanity become transformed within a few seconds into a raging, screaming, stamping little terrier?

Well, this sort of thing was real—not a doubt of it. Her mother had begun by mildly suggesting that she wear her rompers for play on the back lawn one sweltering hot afternoon.

From a side point I could not but admire the courage displayed by that mother, for she knew well that would have happened promptly had I advised at her age the very infinitesimal part of what she was carrying through to a finish.

While the prisoners in the fourth tier of cells were in the exercise room one of the men asked the guard, Michael Bloomberg, to unlock his cell so that he might get a pack of playing cards.

Using saws that had been smuggled to them, the prisoners sawed two iron bars from a window, and the two men descended by clinging to bars on the windows below.

While the other prisoners sang and shouted to prevent the guard from giving the alarm, the guard also was warned by the "trustys" to make no outcry on penalty of death.

The men who escaped are William Rogers, charged with larceny, and Stanley Weselk, held for burglary.

Frankfurt, Ky., Sept. 22.—The story of Mrs. Lulu Clark, of Mount Sterling, Ky., who asserts that she was the victim of a "black and blue" assault.

Blue lynx has started the season with many admirers, but will not become common in that a muff and small throw cannot be had under \$55.

Short, plump women may well despair as they view the new styles in suits, with the long coats reaching down almost to touch the broad band of velvet or of the goods that sets just above the skirt's hem.

As for hats to precede those of blocked velvet, moiré, taffetas, satin, etc., the Parisian milliners are exploiting the modish tulle hat.

Men who travel over the country without paying cartage and who exist practically without money hold a meeting last night at the Manhattan Lyceum.

They seemed happy in the thought that they were at least alive, and would get along somehow.

Speeches full of hope for better conditions and encouragement for the future were made, and then a "collation" was served.

Mr. How, again taking the floor, advocated a "hobo" who was imprisoned for vagrancy should receive from the state 50 cents a day.

Other speakers told of their experiences while "on the road" and of their troubles with tramps.

Through the inability of the little steamboat to carry all the baggage ready to be shipped from Ellis Island, the local immigration bureau has become congested.

The Rev. Dr. Luther R. Dyott, pastor of the United Congregational Church, of Brooklyn, preached a farewell sermon to about one hundred and fifty members of the Congress Republican Club last night at the church.

PROSPECTORS WORKING THE SHOALS ALONG THE LITTLE MISSOURI FOR DIAMONDS.

DIAMONDS IN ARKANSAS

Rich Field Around Extinct Volcano Near Murfreesboro.

Murfreesboro, Ark., Sept. 22 (Special).—Two years ago John W. Huddleston, an Arkansas farmer, bought 243 acres of land on the Little Missouri River, two and one-half miles from here, for \$200.

Mr. Huddleston sold his \$200 farm last week for \$36,000 and moved to Arkadelphia, Ark., where there is a college at which he intends to educate his children.

Since he sold his place for \$36,000 the people who bought it have taken out in diamonds more than four times the price paid, and if the statements of the government geologists are to be relied on, a diamond field which may rank favorably with those of the Vaal River, in South Africa, has been found.

Ten shafts already sunk within an area of one square mile have tapped the diamond bearing peridotite, and more diamond drills are working on adjacent properties, while enterprising prospectors are working the shoals on the Little Missouri River and Prairie Creek, with the hope of good returns.

Land values have advanced in some cases from one dollar to a thousand dollars an acre, but as the fields cover such a large area, it is impossible for any syndicate to obtain control of all the supposedly good locations, and as a result, much prospecting is being done by individuals.

Government geologists advance the theory that at some remote period the Gulf of Mexico covered this section of the country, and that during an eruption of this volcano the waters rushed in and the sudden cooling, together with the terrific pressure of the earth, produced the diamonds.

Inasmuch as a majority of the stones thus far found were either picked up on the surface or rooted out of the earth with sticks, great care is being taken to prevent any one from trespassing on the property.

Every drill hole thus far sunk in the vicinity of the cone of the crater has uncovered diamond-bearing rock. For the most part the peridotite lies from twenty to twenty-five feet below the surface of the ground.

A party of St. Louis men who own five hundred acres in a choice location have offered to sublet the property on a royalty basis to individuals who will work it. A number of applications for leases already have been made.

LOON AN AQUARIUM RECRUIT.

A female loon which the watchman at the aquarium chose to call "Gerty" arrived there yesterday from Wood's Hole, Mass., where she had been caught by Dr. Sumner of the United States biological bureau.

She arrived early in the morning, and by noon, she was accustomed to her new quarters, among many visitors by frequent dives under water while flirting with skates, in whose tank she had been placed.

But she made desperate efforts to throw above the surface a ferocious dogfish. Gerty refused at first to eat some fish that had been offered to her outside the tank, but after becoming exhausted through wrestling with the dogfish she consented to eat a small carp.

ROCKAWAY CHURCH DEDICATED

Edifice Costing \$150,000 Formally Opened for Service at Special Mass.

Twenty-one years ago the first church at Rockaway Beach was dedicated, and yesterday the new edifice of St. Rose of Lima church, at Rockaway, Rockaway, was dedicated by Bishop McDonnell, of the Brooklyn diocese.

The church was built under the direction of the Rev. Henry F. Murray, the pastor. The parish is one of the largest in the diocese, and six priests are stationed at the church.

MAJOR KIRWAN PRAISES PRESIDENT.

Says Roosevelt Is a Good Hunter, but Is Mum on "Nature Faker" Discussion.

Major Maitland Kirwan, a cousin of President Roosevelt's brother-in-law, Douglas Robinson, arrived here yesterday from Liverpool on the Cunard line Umbra. He is on his way to visit his brother Gerald, who has a large ranch in Montana.

The major was assured that there was a possibility of his opinion finding its way into the papers, whereupon he declined to give it.

POLICE STOP LARCHMONT BALL GAME.

Under Sheriff Henry Schupp and Deputy Sheriff Doyle yesterday a baseball game at Larchmont was stopped on the charge of violation of the Sunday observance law.

O. HAAS BROS., Ladies' Tailors and Importers.

20 West 27th St. Formerly of 5th Ave. Special offer: this week High Class Tailors' goods at lowest market prices. Rush of the season.

For \$48, Former Price \$75.

CONE OF EXTINCT VOLCANO, IN WHICH DIAMONDS WERE FOUND.

DARING JAIL ESCAPE.

Two Chicago Prisoners Climb Down from Fourth Floor.

Chicago, Sept. 22.—After having locked a jail guard and a "trusty" in a cell, two prisoners climbed through a window on the fourth floor of the county jail, in the heart of the city, today and escaped, in plain view of a number of persons who stood in Illinois street for half an hour watching them saw two iron bars, thinking the men were workmen.

A third prisoner crawled through the window, but the onlookers, realizing at last what was going on, shouted an alarm, and he returned to his cell. Within a few minutes the police were on the trail of the jail breakers, but their capture has not been reported.

While the prisoners in the fourth tier of cells were in the exercise room one of the men asked the guard, Michael Bloomberg, to unlock his cell so that he might get a pack of playing cards.

Using saws that had been smuggled to them, the prisoners sawed two iron bars from a window, and the two men descended by clinging to bars on the windows below.

While the other prisoners sang and shouted to prevent the guard from giving the alarm, the guard also was warned by the "trustys" to make no outcry on penalty of death.

LETTERS TO THE EDITOR.

HINT FOR NEXT LEGISLATURE. Correspondent Wants More Effective Measure Regulating Speed of Automobiles.

To the Editor of The Tribune. Sir: The reckless manner in which vehicles of all kinds are permitted to rush madly through quiet country roads and the crowded streets of our cities is revolting to humanity and to the civilization of the twentieth century.

Possibly we may profitably follow this example in the case of automobiles used solely for pleasure and driven by sporting men and the interiors of whose sole occupation seems to be an indulgence in pleasure at the expense of the lives of their fellow beings.

If we stand by silently, making no remonstrance against an indiscriminate slaughter of unfortunate pedestrians by these carriers of a modern era, such apathy and inaction will result in permissible race suicide, for which there is justifiable cause.

While the prisoners in the fourth tier of cells were in the exercise room one of the men asked the guard, Michael Bloomberg, to unlock his cell so that he might get a pack of playing cards.

Using saws that had been smuggled to them, the prisoners sawed two iron bars from a window, and the two men descended by clinging to bars on the windows below.

FLAGS AT JAMESTOWN.

Correct Account of the Affair at the Island. To the Editor of The Tribune.

Sir: My attention was called this morning to an article which appeared in your paper a few days ago in regard to the flag at Jamestown, Va. This article does injustice to me and to the Association for the Preservation of Virginia Antiquities.

I enclose herewith a correct statement of the case and a clipping from this afternoon's "News-Leader" giving a statement made by me this morning. I ask that you publish this statement in full, respectfully.

U. S. FLAG FOR JAMESTOWN. From The Richmond (Va.) News-Leader.

If the wishes of the Association for the Preservation of Virginia Antiquities are complied with, a United States flag, 48 by 70 feet, will be floated over Jamestown Island and the association property there within a week or two.

It is of course, all an account of the Olympic. One of the most interesting features of next year's great gathering of athletes will be the special regatta at Henley for the decision of the world's amateur rowing championships.

That it is said, is the paramount reason for the course which has raised such a rumpus. But there is a strong patriotic reason as well.

The "only newspaper representative who spoke to me about the matter was the editor of the "Times Dispatch," both of this city, and their names are the only ones giving a correct account of me or of being chairman of a committee in charge of certain improvements at Jamestown.

The "truth of the matter is that at the time the article appeared in the "News-Leader" I had called the flag to the attention of the Association for the Preservation of Virginia Antiquities to mark the place of the Donnell, of the United States flag substituted for it by some unknown parties, who broke into the grounds at the time of the regatta.

The "only newspaper representative who spoke to me about the matter was the editor of the "Times Dispatch," both of this city, and their names are the only ones giving a correct account of me or of being chairman of a committee in charge of certain improvements at Jamestown.
