

SPORTS OF THE WEEK

ROUGHWORK AT HOCKEY

CRESCENT TEAM WINS

Wanderers Beaten in Extra Period of Hard Fought Game.

In a fast, rough, exciting game of hockey, which took an extra period to decide, the Crescent Athletic Club defeated the Wanderers Hockey Club by a score of two goals to one, at the St. Nicholas rink last night. Shirreff made the winning goal two and one-half minutes after the third session started.

The roughness mentioned was all on the part of the losers, Williams and Johnson being the worst offenders in this respect. The latter should have been put out of the game entirely toward the end of the second half, as his work, to put it mildly, was "dirty." More than once he seemed deliberately intent on putting Shirreff out, and in spite of being warned repeatedly and put off twice his second offence only brought him a penalty of one minute.

In Wood at goal the Wanderers appear to have the best man in the league. His work between the posts was phenomenal and he stopped shot after shot that looked like a sure goal. Williams, Hornbeck, Johnson and Dufresne are also clever players. For the Crescents it must be said in all fairness that in spite of the rough and hard time, only two of the men played for minor infractions of the rules. They would have been justified in retaliating on their opponents, and if they had done so would have undoubtedly more than held their own, but they kept playing the game as it should be played, and this brought victory.

The Crescent team surprised its most enthusiastic followers. Both A. Blake and O'Rourke played an excellent game, and Lang, in goal, was a stone wall. The work of Shirreff, Liffiton, O'Flynn and Kennedy, who played cleverly, does not need to be commented upon, as they were in a new and unusual brilliant form. Kennedy was in a new position for him, at coverpoint, and he played a clever game. His one fault, which was only natural, being used to rush into Wanderer ice and get his feet sometimes forget to come back.

Liffiton drew the puck on the opening of play, and made a rush on his opponents' goal and tried to shoot, which was cleverly turned aside by Wood. Dufresne returned to the other end and made a close attempt at goal. This was followed by attacks with Shirreff, dashed down the ice, and on the latter's press Liffiton made the first goal in about three minutes. Williams evaded the score when he dodged several of his opponents and worked right in on Lang and shoved the puck past him.

With the score tied the game became rougher and faster, and the Wanderers were warned repeatedly, and soon Williams was finally put off for one minute for cross-checking Kennedy. Blake, on a pass from Liffiton, made a beautiful attempt at goal, but the puck was neatly turned aside by Wood. Shirreff made the next goal on a straight shot from the front after the puck had been passed out to him from the rear of the rink. The puck was hardly opened when Williams shot and hardly opened when Williams shot and hardly opened when Williams shot.

The second half opened for the third time, and he was followed by Dufresne and Shirreff, who got into a mix-up. While they were on the side lines Liffiton came close to scoring on a beautiful shot from a difficult angle, and Kennedy followed with another good attempt.

The Crescents at this period were forcing the game, and kept up an attack on the Wanderers' goal, but could not score. Kennedy was put off for roughing. Lang was called upon to do clever work to stop Dufresne's hard shot, and Liffiton returned and was forced back of the net, but worked his way out and poked the rubber right at Wood, who was equal to the emergency, however, and missed a shot out of danger. Then Williams, from Hornbeck, good chance to send a pretty dandy in landing the puck in the end, and thus tying the score, just two minutes before the half ended.

The excitement was intense from then on, with the Wanderers playing a better game, but neither side could score in the remaining seconds. Just before the half ended Johnson was again put off, and Shirreff followed him.

It took Shirreff only a minute and a half to score the winning goal in the extra period. He made a hard shot on goal, which Wood cleverly stopped, but he rushed right in on the latter and got the rubber on the rebound and scored. The line-up follows:

Table with 2 columns: Position and Name. Crescent A. C. G. Positions: Wanderers H. C. G. (2). Positions: Wanderers H. C. G. (2). Positions: Wanderers H. C. G. (2).

IN FAVOR OF COLLEGE ATHLETICS.

Professor Sargent, of Harvard, Would Make Physical Education Compulsory.

Chicago, Jan. 10.—Professor Dudley A. Sargent, of Harvard, makes a plea for the uplifting of college athletics and physical culture in an article on "Compulsory Physical Education," published in the January number of the "School Review," issued from the University of Chicago Press. He advises that "no student should be given honors in his studies unless he has attained a certain grade in his gymnasiums or athletics." He draws this conclusion after criticizing the position of college faculties which forbid students taking honors in athletics unless they have a creditable standing in their studies.

"This requirement," writes Professor Sargent, "would insure the conscientious student against sacrificing his health in view of raising his standing in scholarship, which at the present time he is likely to do on account of the keen competition to which he is subjected."

Dr. Sargent believes physical culture and athletics should be included in the curriculum. He says further: "Under the head of physical training I should be glad to see included all forms of physical activity, including music, vocal and instrumental; drawing, painting and modelling, and all forms of manual training, dancing, skating, swimming, rowing, bicycling, military drill, all forms of calisthenics, plays and the various forms of athletic sports."

N. Y. U. WINS BASKETBALL GAME.

New York University defeated Rutgers at basketball last night by a score of 41 to 22 in the gymnasium at University Heights, the Jersey team being completely routed. Rutgers, for New York University played a star game, shooting nine baskets, while Rutgers did well for Rutgers.

C. C. N. Y. WINS AT BASKETBALL.

The College of the City of New York basketball team defeated the Swarthmore five on the former's court last night by the score of 28 to 20. The line-up follows:

JOCKEY GETS BAD FALL.

W. Walsh Injured When His Mount Goes Down at New Orleans.

New Orleans, Jan. 10.—W. Walsh, a jockey who has been riding on and off here this winter, got a bad fall in the first race at the Fair Grounds to-day, and received injuries from which it may take him some time to recover. Agnes Dorothea, on which he had the mount, got caught in a jam as the barrier was released, and fell. Walsh was picked up in a dazed condition, and it is feared he is suffering from internal injuries.

The track was sloppy and the racing was marked by the defeat of six favorites. Four horses won at odds of 10 to 1 or better, and the form players got a drubbing. The latter did not have a particularly profitable day, however, as every winner, with the possible exception of Clifton Forge, attracted some following.

A wise few made a substantial "killing" with Paragon in the fifth race. He was quietly backed from 25 to 15 to 1 by those who knew of some fast work in private. He was pounds the best, as he won going away by a length after being last round the far turn. He was so full of ambition or something else that Baird could not pull him up at the finish, and he ran away two miles and a half.

The beaten favorites were George H. White, Robert Belmont, Delmore, Bertha E. and Donna. Belmont was backed from even money to 3 to 5 in the third race, but was off badly to a poor start and could never improve his position. The summaries follow:

First race (selling; seven furlongs)—Florida Glen, 100 (Flynn), 15 to 1; won; George H. White, 100 (McDaniel), 15 to 1; second; Delmore, 100 (Brewster), 20 to 1; third; Miss Isabelle, Sylvia G., Helen Holland, Ansonia, C. S. Lane, Margaret T., McGregor and May Fletcher also ran. Agnes Dorothea fell.

Second race (selling; six furlongs)—Alrshp, 100 (Koenig), 10 to 1; won; Rustad, 100 (Fairbrother), 20 to 1; second; Foxhall, 100 (Brewster), 20 to 1; third; Stone Cage, Adena, Grenada, Snowball, Robert, Oleska, Miss Wren also ran.

Third race (selling; six furlongs)—Clifton Forge, 104 (Gaird), 25 to 1; won; French Nun, 102 (Lloyd), 6 to 1; second; Heart of Hyacinth, 104 (O'Brien), 12 to 1; third; 1,218; Mallards, Martins, Belmore, Marsh Redon, Shen, Linton, Destroyer, Akbar, Lightburn and Woodson also ran.

Fourth race (selling; one mile and a sixteenth)—Hawkan, 104 (Bowers), 15 to 1; won; Gararoun, 101 (Stovall), 20 to 1; second; 1,225; Russell T., Blackie, Frontiers, Gaudin, Bob and Lucy Marie also ran.

Fifth race (selling; one mile and a sixteenth)—Fantasia, 104 (Powers), 2 to 1; won; Donna, 105 (McDaniel), 6 to 1; second; Flavius, 103 (McCally), 8 to 1; third; 1,234; Lady Alice, Sister Polly, Giamor and Missora also ran.

SPORTS AT COLUMBIA.

Fifty Candidates Report for the Varsity Crew.

Over fifty candidates reported for the Columbia varsity crew yesterday. Thirty-eight freshmen also reported for their class crew. Six men who had been on last year's varsity crew came in, including Captain Von Saltz, H. Mackenzell, L. H. Spalding, B. P. Crussi, H. M. Sneyly and W. L. Starbuck. J. J. Ryan, C. P. Jordan and G. L. Helmrich, who were substitutes last spring, also reported. With this nucleus Rice expects to turn out a good eight and a varsity four. Only nineteen of the varsity candidates have rowed before, but there is a lot of likely looking material among the novices. The freshmen sent out a number of big men who seem capable of becoming good oarsmen. All of last year's freshmen eight reported for practice, and Rice intends to keep them together and make up a sophomore crew which he will send to the American Henly.

The rowing machines have been set up on the first floor of University Hall, where the air and light are much better than in the gymnasium, where practice was always held in former years. Sixteen machines were put in position, with several new adjustments. The large mirror, which was used for the first time last year, has been doubled in size, so that it is now possible for the men on the two sets of machines to study their faults, which begin next week, and at least seventy-five more candidates will be on hand on February 1.

H. M. Sneyly, manager of the Columbia wrestling team, announced yesterday the schedule for the coming season. Only three dual meets have been arranged thus far, but suggestive material among the two sets of machines, and at least seventy-five more candidates will be on hand on February 1.

SPORTS ON THE ICE.

Many Skaters Entered for the Races in Brooklyn To-day.

Almost every fast skater in the metropolitan district is entered for the first outdoor races of the season, which will be held at the Saratoga rink in Brooklyn this afternoon. All day yesterday there was a rush of racers to register in the Eastern Amateur Skating Association, and as fast as the secretary allotted numbers the men made their entries for the one and two-mile handicaps and the one-mile novice races, which will make up the program to-day. The rink opened yesterday with a coat of ice, which was re-floated at midnight in order to insure a new fast coat of ice for the races.

Phil Kearney and T. Yale Sarnoy, the speed skaters, will compete in some time trials to-day on the ice of the Riverside outdoor rink, 121st street, near Amsterdam avenue. The programme of races and practice hockey patches, which were scheduled for last Tuesday night, but postponed because of the rain, will be held to-day. The big stretch of ninety thousand square feet of skating ice is now in the best condition.

ON THE GOLF LINKS.

Fox Hills Club May Be Reorganized—Nassau Club Officers.

The annual meeting of the Fox Hills Golf Club, which maintains a course on Staten Island, will be held on January 7. It has an added importance this year, as there has been some talk of reorganization. Some time ago it was decided to levy an assessment on the members to meet the club's indebtedness, and the time limit for paying this assessment expired yesterday. One of the directors said last night that so far as he knew the members had responded to the call. If, however, they do not put their shoulders to the wheel a reorganization seems inevitable.

Herbert L. Pratt has been elected president of the Nassau Country Club for the coming year, and J. R. Maxwell, Jr., is vice-president; A. P. Alvord secretary; C. D. Smithers, treasurer, and Howard W. Maxwell, captain. The chairman of the various committees have also been chosen, as follows:

TIMELY AUTO TOPICS.

Joe Tracy in a Run to Test Value of Benzol as a Fuel.

Joseph Tracy, the well known automobile driver, left here yesterday morning for Philadelphia, in a 25-horsepower Hot-Tan touring runabout, with benzol instead of gasoline as a fuel. The test is being made to determine the relative values of the two fuels in respect to power, derived from a given quantity of each and to economy. There are ample statistics on the consumption of gasoline a mile and a horsepower, but that of benzol must be determined to a large extent.

V. A. Nielsen acted as mechanic for Tracy, while H. J. De Bear was the observer. No changes or adjustments were made to the carburetor to favor benzol, as it was desired to ascertain whether gasoline and benzol are interchangeable as fuels. The car will leave Philadelphia on the return run on 10 o'clock to-day.

Tests of benzol have been made in England by S. F. Edge and several others, which have resulted satisfactorily so far as the advocates of this new fuel are concerned. A recent test demonstrated what appears to be its superiority to gasoline. A 40-horsepower touring car with four passengers has just completed a three thousand mile test, making 157 miles a day. Among other things which this test demonstrated was that the specific gravity of benzol will vary, depending upon atmospheric conditions, from .855 to .880. At the beginning of one day's run the specific gravity of the benzol used in the car was .877; at the end of the day's run the specific gravity was found to be .865. This was no doubt due to the fact that the temperature of the fuel had been raised by the heat from the exhaust pipes. On another day the result, under the same conditions, was a specific gravity of .885.

This test also determined the fact that the car could make twenty-two miles on one gallon of benzol, or with seven and one-half gallons could cover 150 miles, a result which totally eclipses gasoline as a fuel.

The Automobile League, with executive offices at No. 118 Nassau street, has been incorporated under the laws of the State of New York. One of the purposes of the new organization is to furnish touring automobilists with the names and locations of various reputable garages and repair men throughout the country, with whom the league has a written agreement for towing, storing, repairing and supplies, thereby insuring the comfort and convenience of tourists. This list, together with road maps, general touring information and hotel accommodations en route, are to be supplied to the members of the league in book form, proofs for which are now being prepared.

Such a list will relieve touring of a large part of its terrors while travelling through strange territory. On another day the result, under the same conditions, was a specific gravity of .885.

Connections are being arranged with the automobile authorities of various Continental countries whereby the American tourist on the Continent will be afforded equal facilities to the residents of various countries, more particularly in England, Belgium and France.

N. Y. U. MAY ROW PENNSYLVANIA.

Eight-Oared Race Either Here or at Philadelphia Now Seems Probable.

The recently revised constitution was adopted yesterday at the meeting of the New York University rowing club, which is the point of departure for the question of the election of captains, managers and assistant managers; the qualifications required for the earning of the varsity letters on the various teams; the regulation of the football and baseball uniforms; the regulation that assistant managers should be elected under the same conditions as the varsity crew, and that the representatives of the three minor sports—rowing, basketball and lawn tennis—should have a vote on the executive committee of the athletic association.

E. S. Connell, '06, a member of the Union Boat Club, will again coach the varsity crew this year. The Union Boat Club has granted permission to New York University to use the boat house, which will be used for a shell this year and take up rowing in a systematic way, something which has not been done so far. Negotiations are now under way for a race with the University of Pennsylvania eight, either on the Harlem or the Schuylkill. It was said yesterday that the chances seemed bright for a race between the two universities. The eight will compete in the Memorial Day regatta on the Harlem.

INDOOR RECORDS IN DANGER.

Haskins and Sheppard to Meet in Pastime Games—Various Notes.

With Guy Haskins, of the University of Pennsylvania, and Melvin W. Sheppard, of the Irish-American Athletic Club, trying to settle the question as to who should be entitled to the distinction of middle distance runner in the United States, to say nothing of other features at the Pastime Athletic Club games at Madison Square Garden on Monday evening, January 27, some good sport is in prospect. Entries close a week from Monday, with James E. Sullivan, No. 21 Warren street, or with E. Spitzer, Pastime Athletic Club, as the favorite for the annual athletic carnival of the Irish-American Athletic Club, to be held at Madison Square Garden on Saturday night, February 8. The programme is attractive, containing eight open events, four special events and four relay races. The open events are a 60-yard handicap, 300-yard handicap, 440-yard novice, 1,000-mile walk, a trowing the 55-pound weight and running high jump. The special events include 60-yard high hurdle, 600-yard scratch run, five mile scratch run and pole vault for height.

The relay races are, 440-yard for schoolboys (55 pound class), two mile handicap, one mile intercollegiate, one mile race open to teams from mercantile houses.

A one mile relay race has been arranged in Philadelphia between Hillman, Sedley, Pilgrim and Sheppard, of the New York Athletic Club, and Taylor, Cartmel, Haskins and Mulligan, and a new indoor record may result.

WESLEYAN DEFEATS HARVARD.

Cambridge, Mass., Jan. 10.—The Wesleyan basketball team defeated Harvard here to-night by a score of 31 to 6.

NEW ORLEANS ENTRIES TO-DAY.

Table with 2 columns: Race Name and Time. FIRST RACE—Three furlongs. Time: 1:07. SECOND RACE—Selling, six furlongs. Time: 1:01. THIRD RACE—Selling, six furlongs. Time: 1:01. FOURTH RACE—Selling, six furlongs. Time: 1:01. FIFTH RACE—Selling, six furlongs. Time: 1:01. SIXTH RACE—Selling, six furlongs. Time: 1:01. SEVENTH RACE—Selling, six furlongs. Time: 1:01. EIGHTH RACE—Selling, six furlongs. Time: 1:01. NINTH RACE—Selling, six furlongs. Time: 1:01. TENTH RACE—Selling, six furlongs. Time: 1:01.

ASSOCIATION FOOTBALL.

Some Interesting Games To-day—Two Teams in Close Race.

The Crescent Athletic Club's soccer team will line up to-day against Staten Island in Livingston in a game which promises to be hard fought from beginning to end. A good game is also expected between the Brooklyn and Caledonians at Marquette Oval, Brooklyn, while the champion Camerons will meet the eleven of the steamship Oceanic at Van Cortlandt Park.

With Port Chester leading, having tallied twenty points, a close struggle is on for supremacy in the Sunday series of the New York Amateur Association Football League. The Camerons, of this city, champions of the league and winners of the Saturday series, concluded some time ago, are likely to finish third or fourth in the Sunday competition, but will encounter the victors of the pending contest in a final series. Meantime, the Clarendons of West Hoboken, several of whose players are from the defunct Critchleys, of Brooklyn, follow Port Chester closely, as they have scored seventeen points and still have three games before them. They will play the High Bridge Football Club in West Hoboken to-morrow. A level with Port Chester as regards total points, and in that case followers of soccer would witness a stirring finish. The detailed records of the leaders follow:

Table with 4 columns: Team Name, Wins, Losses, Draws, Points. Port Chester: 10 Wins, 2 Losses, 2 Draws, 20 Points. Clarendons: 8 Wins, 1 Loss, 1 Draw, 17 Points. Clarendons: 8 Wins, 1 Loss, 1 Draw, 17 Points.

Port Chester has scored forty-three goals to their opponents' eighteen. The Clan McLeod team of New Jersey is still within hailing distance of the leaders, having tallied eleven points, with five games to play.

FANCY PRICE FOR A TROTTER.

George Esterbrook Buys Miss Dorothy Axworthy, a Promising Filly, for \$3,500.

(By Telegraph to the Tribune.) Lexington, Ky., Jan. 10.—Miss Dorothy Axworthy, which finished second to Trampstam when she colt made his world's record for a two-year-old of 2:12 in the Kentucky Futurity last fall, was sold to-day by A. L. Lehman to George Esterbrook, of Denver, Col., for \$3,500.

STRUGGLE FOR ATHLETIC POINTS.

The first of a series of athletic contests to determine the all-around championship of the West Coast States was held at the Young Men's Christian Association yesterday at the big gymnasium last night, and a large number of the members competed. Five points were credited to the winner in each contest, two to the second and one to the third. Of the scratch men in the contests, C. Mair was the only one to win a first place. In the shot-put he sent the weight a distance of 41 feet 2 inches. The keenest kind of rivalry was shown by the competitors in the 100-yard dash, in which C. Mair was the only one to win a first place. In the shot-put he sent the weight a distance of 41 feet 2 inches. The keenest kind of rivalry was shown by the competitors in the 100-yard dash, in which C. Mair was the only one to win a first place.

Twenty-yard dash—Won by H. E. Reed; C. E. Schoringer, second; H. Muller, third. Time, 0:28. 100-yard dash—Won by J. F. Moore (12 yards); J. Richardson (scratch), second; H. H. Miller (8 yards), third. Time, 0:25. 200-yard dash—Won by C. Mair (scratch); H. H. Miller (8 yards), second; H. E. MacCubbin, third. Time, 0:52. 400-yard dash—Won by J. F. Moore (12 yards); J. Richardson (scratch), second; H. H. Miller (8 yards), third. Time, 1:10. 800-yard dash—Won by C. Mair (scratch); actual put of 41 ft. 2 in.; H. Gumpfer (scratch), third, put of 39 ft. 11 in.

FIGHT ON PROPOSED BRIDGE PLAZA.

Cockran and Grout in Argument at Estimate Board Meeting.

Controller Metz's proposal at the meeting of the Board of Estimate and Apportionment yesterday to remove from the city map the proposed Blackwell's Island Bridge plaza, from Second to Third avenue, between W. A. Wagner (scratch), second; H. H. Miller (8 yards), third. Time, 0:25. 200-yard dash—Won by C. Mair (scratch); H. H. Miller (8 yards), second; H. E. MacCubbin, third. Time, 0:52. 400-yard dash—Won by J. F. Moore (12 yards); J. Richardson (scratch), second; H. H. Miller (8 yards), third. Time, 1:10. 800-yard dash—Won by C. Mair (scratch); actual put of 41 ft. 2 in.; H. Gumpfer (scratch), third, put of 39 ft. 11 in.

While the habitual use of stronger drink weakens the intellect, which sharpens the power of our organs, it also weakens the body, and is a source of ill health. Take coffee for breakfast, sip tea with conversation, and drink wine to enjoy your food and worry it down with chilled water, while your thoughts dwell on the future, and the labor to digest such fare creates despondency and engenders a morbid habit of mind. It is indispensable to take with wine, we promote digestion, and the gratification of our appetites creates that natural sensation of ease and health, which is the basis of good health. If we want to forget the real for an ideal world and exchange sordid greed for lofty ambition, we turn to the nectar from the vineyard of Burgundy.

France produces as much wine almost as the rest of the world; the French drink more than any other nation, and in literature and art they occupy a foremost rank. For digestion is the fountain of life, and the River of Life is irrefragable. The mellow Chambrin from the Cote d'Or has of all wines the richest flavor, and is irrefragable to the palate. Burgundy should be called the bottled sunshine of the world. Good wine will improve you, and wine deteriorates with age.

"A taxpayers' association," replied Mr. Grout. Mr. Crummins read a paper, in which he set forth that the plaza would have to come sooner or later and that the longer the improvement was delayed the more it would cost the city. It was decided to place the matter in the hands of a committee, consisting of the controller, president of the Board of Aldermen and borough president. A report will be made in four weeks.

CLUB'S DUES ARE \$1 AND A SMILE.

Any Man Who Can Produce These Is an Optimist, and Eligible.

"Smile!" That is one word, and in a word it describes the purposes, excuse for existence, history and future of the Optimist Club of America. The club doesn't ask for much. It wants a membership limited by the total of those in the country who know how to be cheerful and it thinks every one who has a smile, or who has a "dead end" to the definition however, but the dead end," says its cheerful, smiling pink circular.

Utah, the land of the Mormon and the Great Salt Lake, started the club. Optimism must flourish in Salt Lake City, and perhaps many a good Mormon has become a member because it isn't legal any longer to have more than one wife. Anyhow, William J. Robinson, secretary, says he is optimistic at large and has an abiding smile, thinks that is a good excuse for optimism and cheerfulness.

"You can be an optimist if you send the club a dollar," said Mr. Robinson. "Otherwise you are doomed to pessimism, and if you haven't got a dollar to spare you are more than likely to frown on optimistic organizations any how; but if you have the dollar, and send it along you get a nice button, adding you to smile, and a bunch of bright, cheerful literature every once in a while to help you to follow the motto.

"Also, you can know that President Roosevelt is your fellow member, although the club let him in without dues, and if you are a pessimist, you are not a member of the club. The club is a part of the Government of all the states of the Union, with Governor Curtis, of Utah, as chairman." Mr. Robinson started the club in Salt Lake City last November in the late financial disturbance, when pessimism ruled the roost.

LIQUOR DEALERS TALK.

Hold Lively Discussion Over the Model License Law.

Forty or more of New York's leading wholesale liquor dealers and liquor met at the Waldorf yesterday to discuss the subject of joining in the model license law movement, started two months ago in Louisville. This movement has extended to Pittsburg, Baltimore and Philadelphia.

Julius Wile, of Julius Wile, Sons & Co.; H. Streight, of H. Streight & Co.; J. H. Strasser, of J. H. Strasser & Co., president of the New York State Wholesale and Liquor Dealers' Association; Alexander D. Shaw, of A. D. Shaw & Co.; George C. Howell, of S. Streit & Co.; Charles Spiegel, of Charles Spiegel & Co.; A. J. Billin, of A. J. Billin & Co.; H. Batjer, of H. Batjer & Co.; Paul Bouche, of Paul Bouche & Co.; W. J. Rainey, of Goldstein & Rubin, of Brooklyn; Adolph Barr, of Barr Brothers & Co., and many others were present.

The public was not admitted to the meeting. The principal speaker was T. M. Gilmore, who outlined the work. "The model liquor license law provides," he said, "that all licenses now outstanding shall continue in force unless cancelled by a majority vote of the territorial board in effect as long as the liquor law is in effect. This provision offers a reward to law-abiding saloonkeepers. Their licenses become franchises, and should become a part of their estates at death. The law also intends that the limit of licenses granted should be one to five hundred inhabitants.

"It is a well known fact that prohibition does not prohibit, and the history of the movement in Maine and other prohibition states shows that more liquor is consumed there when the state is 'dry' than when liquor is licensed to be sold." A general discussion of ways and means then took place, and at one time the meeting became lively over the criticisms of James A. Strasser, of the New York State Wholesale Wine and Liquor Dealers' Association, who had a large representation present. "This talk of a model license law falls in one great feature," he said. "It fails to educate the public to the extent to which the liquor traffic—that is, the better class, legally licensed traffic—is oppressed and ill treated by the prohibition movement. It is a fact that prohibition does not prohibit. What is wanted is an education to the public showing that prohibition is a craze and that its absolute enforcement, even if possible, would not benefit the people. For this reason each society should work by itself."

In reply Mr. Gilmore said: "There are too many societies. All should be united into one harmonious whole. We do not wish to force this license law upon the people. We want them to think the matter over before they take any action." Canvassers will begin next week visiting the various wholesalers and retailers in the city and enlisting them in the movement, which is expected by another year to have a following of at least 250,000 members. One of the subjects to be brought up at the next meeting is an amendment to the liquor law, the various prohibition states making it as much as possible to handle liquor as to sell it. In this way, if enforced, it is believed that more reasonable laws will be placed upon the statute books.

WINE AS HEALTH PRESERVER.

Its Properties Dwell Upon in Article on "The Art of Drinking."

In an article on "The Art of Drinking" in the January number of "The Forum" Louis Windmiller says of wine: "While the habitual use of stronger drink weakens the intellect, which sharpens the power of our organs, it also weakens the body, and is a source of ill health. Take coffee for breakfast, sip tea with conversation, and drink wine to enjoy your food and worry it down with chilled water, while your thoughts dwell on the future, and the labor to digest such fare creates despondency and engenders a morbid habit of mind. It is indispensable to take with wine, we promote digestion, and the gratification of our appetites creates that natural sensation of ease and health, which is the basis of good health. If we want to forget the real for an ideal world and exchange sordid greed for lofty ambition, we turn to the nectar from the vineyard of Burgundy.

France produces as much wine almost as the rest of the world; the French drink more than any other nation, and in literature and art they occupy a foremost rank. For digestion is the fountain of life, and the River of Life is irrefragable. The mellow Chambrin from the Cote d'Or has of all wines the richest flavor, and is irrefragable to the palate. Burgundy should be called the bottled sunshine of the world. Good wine will improve you, and wine deteriorates with age.

"A taxpayers' association," replied Mr. Grout. Mr. Crummins read a paper, in which he set forth that the plaza would have to come sooner or later and that the longer the improvement was delayed the more it would cost the city. It was decided to place the matter in the hands of a committee, consisting of the controller, president of the Board of Aldermen and borough president. A report will be made in four weeks.

ANDREWS REPORT WILL NOT DOWN.

Stated in Lincoln That Resignation Only Waits Appointment of His Successor.

Lincoln, Neb., Jan. 10.—Notwithstanding denials it is stated positively that the resignation of the University are looking for a successor to Chancellor E. Benjamin Andrews, and that they have been apprised that the resignation of the chancellor will be forthcoming when the successor has been found. The chancellor has not been in the best of health for two years, and he has said that he has not been able to give the time to the university that he would like to offer the institution.

Since the chancellor aided in obtaining the acceptance of a gift of \$60,000 for the University Temple Building from John D. Rockefeller there has been considerable opposition to him in the state. Subscriptions to the amount of \$30,000 necessary to secure this gift, were difficult to get. It has been hinted that Chancellor Andrews had planned to take a gift made by some of the prominent \$100,000 for university extension in this state, but that the opposition to the smaller gift prevented him from carrying out the plan.

Chancellor Andrews refused absolutely to discuss the subject to-day. His private secretary said that the chancellor had not resigned.

TOWER'S NAME IN DIVORCE SUIT.

Ironmaster Mentioned in Answer of Louis Weis to Wife's Charges.

Albert Edward Tower, the Poughkeepsie ironmaster, who was sued a few days ago for adultery by his wife, was mentioned in a divorce suit in the Appellate Division of the Supreme Court in a decision handed down yesterday. Mrs. Minnie L. Weis, of this city, asked the Supreme Court to compel her husband, Louis Weis, to furnish a bill of particulars in her suit for divorce.

Weis in setting up a separate answer mentions Tower, and makes serious allegations against his wife. Weis has not sought a divorce, simply asking that his wife's complaint be dismissed.

ONE FRIEND AT DUBERLY FUNERAL.

Only one mourner accompanied the body of young Harry Grey Duberly yesterday to his resting place in Kensico Cemetery. This only friend was his chum when they worked alongside of each other as clerks in the Grand Trunk Railroad Freight car at the 113th Street Falls. The funeral was conducted by the Rev. Stephen Merritt in the undertaking establishment at 19th street and Eighth avenue. Duberly committed suicide at The Hermitage on Monday night.

F. B. LORD LOSES CASE.

Supreme Court Declares Mutualization of Equitable Constitutional.

The act of the Legislature which provided for the mutualization of the Equitable Life Assurance Society and similar companies is constitutional, according to the decision handed down in Brooklyn yesterday by Justice Crane, of the Supreme Court. The case was that of Franklin B. Lord against the Equitable.
