The Fourth of July last year seems to be much more than a scant year away. We should say it antedated the longest memory of living men. THE TALK OF THE DAY.

ISTHMIAN TALES.

A portentous tale comes from the Isthmus that American marines with fixed bayonets—bayonets must always be fixed, just as a revolver must always be smoking and a thud must always be dull and sickening—are to stand about each and every polling place in the Republic of Panama at the elections of next Sunday and the Sunday after. We wonder if the marines know it. If not it would be a good story to tell them. The fact is that the United States government has not proposed such a thing, the Panama government has not agreed to it, and naturally would not agree to it, and in brief no such thing is to be done. With these corrections the aforesaid tale may be accepted with due reserve...

Outside, in travelling, "investigating, organizing and financing. Tactical, thorough, seasoned." Can it be that Mr. Bryan is already casting an anchor to a second ward? Or is it possible that there is a consideration, omniscient American who, for a consideration, stands ready to lecture on the Old Testament, advise on financial legislation, edit a newspaper, manufacture gas, discourse learnedly on rail-regulation and organize anything from a Sunday school class down to the Democratic party?

BRYAN MAY GET THREE-FOURTHS.

If Mr. Bryan is alive three weeks from now he will be the nominee for President of the Democratic party. His choice at Denver on the first ballot is a certainty. The Tribune has for months past foreshadowed this action, since in its judgment Mr. Bryan completely dominated the Democratic party, and efforts to sidetrack him had no serious support among the Democratic masses. A week ago our record of the preferences of the delegates-elect to Denver showed that the Nebraska statesman had nearly a two-thirds majority. He had then 688 votes. Last week 69 delegates were elected from Colorado, Florida, Mississippi and Tennessee, and Mr. Bryan got 53 of them. His present total is 727.

A PERSONA GRATA CANDIDATE.

The unstinted approval of Mr. Taft's candidacy, North, South, East and West, proves the soundness of the national convention's judgment. No Republican newspaper has failed to endorse the nomination as eminently wise and satisfactory. No Republican leader has expressed the slightest resentment at a choice which undeniably reflects the party's will. No element in the Republican organization, however small, feels that it has just cause for disaffection. It will require no diplomatic art to bring the backers of other candidates at Chicago into line as cordial supporters of the national ticket. They were in line from the moment of the nominations.

Last Fourth of July was indeed less abominably abused than many of its predecessors. Yet it was so bad as to arouse widespread and intense indignation—as widespread and as intense as that which will be felt a fortnight hence at this year's repetition.
