THE Sign of the Times!

The GEM JUNIOR has made self-shaving popular everywhere and has for years led all others irrespective of their cost, or the claims made for them. The remarkable action of the NEW BAR is that it raises the hairs vertically just ahead of the cutting edge of the blade—as a Barber does, by smoothening the skin with his fingers. As a result there is no scraping—the shave is pleasant, close and clean. Nothing could be simpler—you lather and shave—that's all. Never a dull blade.

A new frame with Bar will be sent to users of the old style GEM JUNIOR on receipt of 25c. No exchange of frames.

A VACATION NECESSITY. "Cuts expense but never cuts you." It takes up very little room and is ready for use at a moment's notice. You can first catch your train or boat and then shave; and, it makes you independent of the country barber.

The GEM JUNIOR \$1.00 set includes silver nickel-plated frame, holder, stopping handle and 7 selected blades in attractive plush lined case. Not a paper box imitation. SPECIAL Set with 12 blades \$1.50.

Look for the name Gem Junior on each blade and **accept no substitute.**

Patent No. 686,143

Separate Set of 7 GEM JUNIOR blades 50c. New blades for old, 7 exchanged for 25c.

The Storiette, "The Gentle Art of Self-Shaving," including a full course in shaving instruction, sent **free.**

A Career Open to You

There is a fascination about a life that follows the sea, from port to port, from country to country, from ocean to ocean, amid ever changing, ever shifting scenes, as compared with the quiet, stationary, though commendable, life in the factory, the farm or the office.

The Navy offers the young man an excellent opportunity to lay the foundation for a successful career. He is assured of permanent employment as long as he renders faithful service. There is plenty of work for everybody all the time and an assurance of promotion for those that earn it.

His pay begins as soon as he enters the Service. His complete uniform outfit (worth \$60.00), his board, lodging, medical care, if sick, are all given free. This enables him to save nearly all his wages.

If he remains in the Service thirty years, he can retire on three-fourths of the pay he is drawing, plus other allowances. What position on shore will guarantee such security for the future?

There are trade schools for electricians, yeomen, artificers, cooks, bakers, musicians, and the Hospital Corps; and men with some knowledge of these trades are detailed to these schools for instruction before being sent to sea. Boys without trades are sent to a Training Station for seamen. Thus the young man gets training that fits him for a successful career, whether he remains permanently in the Service or re-enters civil life.

If you are interested in a healthful, out-door work that will secure you a life position, write now for more detailed information. A handsome Booklet will be sent you FREE of charge, and the location of the nearest Recruiting Office.
