

HAYTIANS ISSUE APPEAL ASK FREEDOM TO ARM

Call Overthrow of Alexis "Patriotic, Civilizing and Humanitarian."

An address to the "People of America and Rulers of Europe" has been issued by Dr. R. Bobo, private secretary to General Antenor Firmin, leader of the Progressive party of Hayti.

In the Republic of Hayti atrocities are actually taking place which recall in more than one aspect those recorded in the ancient history of the republics of Venice and Padua.

"DRIPPING BLOOD ON HEAPS OF ASHES." And because this people, one morning four months ago, rebelled against its slayers: enough of being pillaged, enough of being murdered, leave us in peace, these desperadoes, to let us swing in their deadly paraphernalia, until they have not only exhausted the power of extermination and of ruin, and dripping blood from their hands, but also the power of the law.

Why all this? In order to plunder the country in all safety. In fact, the public revenues are pocketed in proportion as they are collected by those at the head of the government and their favorites.

Dr. Bobo then says that General Firmin is the chief of the party that hopes to emancipate the people from these conditions. He eulogizes General Firmin for "his constant and deep patriotic ardor, his remarkable administrative ability and unassailable uprightness."

After long preparations had been completed, at the cost of great sacrifices and hardships, alas! we declared the republic of Hayti.

Business interests of all kinds in the East, West, North and South are moving rapidly toward a normal condition. NOT TO TAKE THE STUMP. But the President Will Aid Mr. Taft as Much as Possible.

[By Telegraph to The Tribune.] Oyster Bay, July 11.—"Will President Roosevelt take the stump for Taft?" "Under no conditions or circumstances. It is quite out of the question."

This is the question that is being daily asked of Secretary Loeb, and this is his answer. The query is being put by mail and telephone and wire, as well as by personal interview, for it is conceded that if the President could be persuaded to take a personal hand in the campaign it would aid greatly to the interest in the fight.

HONORED BY PRESIDENT. MEN LIKE UNDERHILL. Socialistic Doctrine Denounced at Dedication of Monument.

Oyster Bay, July 11.—A beautiful monument was dedicated to the memory of Captain John Underhill, who was prominent in the government of the colonies as a statesman and as a soldier achieved a high reputation in the Pequot war with the Indians, to-day, before several hundred of his descendants at Mattinecock, Long Island. President Roosevelt honored the memory of the soldier-statesman of New England and Long Island by being present at the unveiling of the monument and making a short address.

It gives me great pleasure to accept this invitation, because I thought it a good thing that the founder of what has become one of the distinct Long Island families, now has a monument erected to him here. The founder of the family here was a good soldier and a good citizen, and the Underhills of to-day have furnished their full quota of good soldiers and good citizens in the time. If they have not, I would not have been here; I have no use whatever for the man with nothing but a pedigree, and the best part of whom is under ground. I believe in the man who is not only a good citizen but a good man, and I believe that the original Captain Underhill was a fighter, excused you from fighting, I should have thought mightily little of you. The thing to do is to be a man, and I believe that the man with the Grand Army button—would you agree with me?—that if you had ancestors who did their duty it is doubly incumbent upon you to do your duty.

Now, if there is one lesson that we here in America have continually to keep before us it is our substantial ones, our substantial unity as a people, and one of the best ways to exemplify this is by just such a family gathering as this. If the family has been long enough in the land, why, you will find its representatives in every walk of life; you will find them as capitalists and wage workers, farmers, mechanics, professional men, everything; and the essential point to remember is that each one of you, Mr. Underhill, gathered here to-day, respect if he does his duty well in the position in life in which he happens to find himself. That is sound American doctrine. I should not much like to attend an Underhill gathering that was limited to Underhill workers, but I am glad to attend one where every one comes in on the basis of decent American citizenship, and good standing respect of his own feet as a man should.

EQUAL OPPORTUNITY FOR ALL. The same thing that applies to you Underhills here applies to the rest of us who are not Underhills in the country at large. We have made this country what it is partly because we have measurably succeeded in securing in the past the equality of opportunity. That is very different from equality of reward. That is very different from equality of reward.

I believe emphatically in doing everything that can be done by law or otherwise to keep the avenues of opportunity open that there shall be, so far as it is humanly possible to achieve it, a measurable equality of opportunity; equality of opportunity for each man to make his own way. But it is in the matter of reward, let him get what by his energy, foresight, intelligence, thrift, courage he is able to get if the opportunity opens. I don't believe in equalizing the reward. I don't believe in equalizing the reward to oppress the weak than to tilt a weak man or a vicious man that he ought by rights to have the reward due only to the man who has earned it. But it is in the matter of reward, let him get what by his energy, foresight, intelligence, thrift, courage he is able to get if the opportunity opens. I don't believe in equalizing the reward. I don't believe in equalizing the reward to oppress the weak than to tilt a weak man or a vicious man that he ought by rights to have the reward due only to the man who has earned it.
