They came and went in automobiles.

Saratoga Springs. Saratoga Springs, N. Y., Aug. 1.—The village has again assumed its August festival air, and the faces and scenes of other years have reappeared. Without the races Saratoga would miss the splendor of the spenders, for they are the people who own the automobiles, flood the hotels, swarm about the roadhouses and leave a trail of dollars in their wake which no other class of people can afford to do. Canfield, as a hobby announced, will not open but smaller clubs are quietly preparing for some show of life, it is believed. The Personal Liberty League has its headquarters in Division street, and a huge mass meeting was announced to be held in Convention Hall, but was called off by the executive officers felt that the time was not ripe for such a public demonstration.

The caravan special arrived on Wednesday at midnight, contrary to precedent and the usual crowd at the station to greet it was considerably diminished on account of the inconvenient hour. The track is in prime condition, even faster than before, if such a thing is possible. Men have been employed for weeks preparing the water jumps and bridges, and the paths and paths in condition, and painting here and there where the weather has done damage. Reporting seems to be the order of the day just now. It is rumored that some people prominent among the racing contingent are planning to boycott any who have favored the gambling law. The Saratoga Handicap was the feature of the opening day, and the attractive grandstand and picturesque surroundings were as lovely as ever. The gambling paraphernalia, however, was conspicuous by its absence.

J. D. ROCKEFELLER'S NEW POCANTICO HOME

Continued from third page. Doubtless the great stone wall being erected around the house could almost be looked upon as a penalty for its proximity to the railroad. This is not the only house in the grounds which has to be protected from prying eyes. The wooden house near by occupied by John D. Rockefeller, Jr., is surrounded by a piazza. Each entrance to this piazza is closed by a locked door. A caller cannot even gain access to the front door to ring the bell without first ringing a bell for admission to the piazza itself.

Some of the rewards are here seen in the gut course which flows away over a rolling, closely clipped lawn directly in front and just below the house. Down among the treeps the bright tiled roofs of the massive stone home of Mr. Rockefeller's horses gleam in the sunlight, adding a note of color which is plain in the air, standing as a sun-drenched and a large conservatory in another direction a short distance away is a charming little pool from whose mirrorlike surface the two or three fountains.

Some of the ornamental features which, it is said, will be added to the park are swimming pools, cascades and a terrace with statuary. It is also said that there will be a "playhouse" for Mr. Rockefeller's grandchildren. This, according to reports, will be connected with the new house by a covered passageway, possibly for use on rainy days.

MILES OF DRIVES. The early farmers of this section of North Tarrytown would not know their land as well as the stone fences which Mr. Rockefeller has erected to tested the religion of the farmers, they never will again, for they have disappeared. The grounds to-day are parklike not only in their extent, but in their appearance. The open, gently rolling slopes are broken at wide intervals by stretches of woodland. Practically all the open ground, containing hundreds of acres, is closely clipped.

After a mile of drive, winding along the slopes in graceful curves, apparently Mr. Rockefeller does not object to visitors driving through his grounds, notwithstanding the signs about trespassing, so long as they do not go near his home or that of his son. There are numerous signs which read "Keep off the lawn," suggesting that he is not averse to permitting people to walk on his grounds. In the acquisition of the parcels necessary to complete his scheme for a summer home, Mr. Rockefeller has bought house after house. It is said that there are seventy-eight houses in the park to-day which he has acquired in the course of the execution of his plans. Most of them are occupied by employees. There have been some parcels of property which Mr. Rockefeller has not acquired it possible, with all his great wealth, to purchase. Mr. Rockefeller does not like to associate in his neighborhood. Last Tuesday a tavern standing at the junction of Sleepy Hollow, Bedford and Eastview roads, in the village of North Tarrytown, was offered for sale at auction. It was known as The Anchor, and had been confiscated by John Jaynes, for twenty-four years. Eight years ago it is said, Mr. Rockefeller offered him \$5,000 for his place. He declined, and has gained some good advertising in consequence. It brought \$6,000 at auction. It is said that there is a possibility of a dance hall being added to the saloon, which is scarcely a quarter of a mile in a drive from Mr. Rockefeller's new house.

Since Mrs. Mellin for twenty-four years has had an occupied a stone and stucco house part way down the hill on the side toward the Hudson River. From the front piazza of this relatively modest home he obtains a superb view of the lower Highlands and the upper end of the Tappan Zee.

LAKE GEORGE. Big Aquatic Display Planned for August 27—A Record Catch. Lake George, N. Y., August 1.—A regatta is being planned for August 27 by the Glenn Falls Club, which bids fair to be one of the greatest events ever held at the head of Lake George. The regatta, which is being planned by the Lake George Regatta Association, has had all the glory. Le Grand C. Cramer, the chairman of the regatta committee, has offered a trophy as a prize for the fastest motor boat, and many high speed power boats will take part in the twenty-mile race. Prizes will also be awarded for motor boats of various grades. There will be a parade of decorated boats, and a display of fireworks and a grand ball at the Fort William Hotel in the evening.

The regatta season was begun in a small way last Saturday at the Fort William Hotel, when a number of motor boat races and other contests were held. Mr. and Mrs. William J. Anderson, of Brooklyn, are entertaining at their Tappan Mountain camp Mr. and Mrs. Joseph G. Downing. Dr. and Mrs. A. E. Allen, of Philadelphia, are the guests of Mr. and Mrs. E. Burgess Warren at the Sagamore. Mr. Warren is an inveterate fisherman of more than local fame. Last week he broke all his previous records by landing a twenty-five lake trout whose combined weight was 105 pounds.

Hotel arrivals from New York include Sagamore—Mr. and Mrs. M. T. Townsend, Frederick B. Stinson, Mr. and Mrs. Louis M. Fulton, Mr. and Mrs. H. W. Vanderpool, Mr. and Mrs. E. Pendleton, Mr. and Mrs. George W. Parson and Mr. and Mrs. S. Tate and daughter. Mr. and Mrs. W. S. Lennon, Mr. and Mrs. A. Markle, Mr. R. C. Bonnat and daughter and Miss Grace Moffet. Mr. William Henry—Mr. and Mrs. L. F. Loree and family, H. M. Hanna, A. W. McCurdy, Miss Frances Starr, Mrs. Sara Gould, Miss Grace Gould, Mrs. L. Hadwell, Mrs. and Mrs. William P. Scott, Mr. and Mrs. J. W. Abendroth, Mr. and Mrs. Robert Hoe, Mrs. Richard H. Smith, Mr. and Mrs. B. B. Noyes, Robert Chambers, Mr. and Mrs. E. E. Lawrence, Dr. and Mrs. C. Adams, Mr. and Mrs. L. M.
