

MOROCCAN GUARANTEES

FRANCO-SPANISH POLICY.

Three Demands on Mulai Hafig—Explanation from Germany.

Paris, Sept. 3.—The guarantees which France and Spain will insist on from Mulai Hafig relate only to the international phase of the situation. The first is the acceptance of the stipulations of the Algeiras act in their entirety; second, the acceptance of all the treaties and conventions previously entered into by Morocco, and, third, the acceptance of all concessions, privileges and settlements of whatever character signed since the Algeiras act or in virtue thereof. Neither France nor Spain will present special claims.

The Franco diplomatic agents, notably at London, St. Petersburg and Berlin, report sentiment favorable to the Franco-Spanish view of the Moroccan difficulty.

Although the tone of the press here is still somewhat excited, the belief prevails in official circles that Germany's action, unless followed up, is not likely to lead to a serious dispute. France is confident that none of the powers will take immediate action on Germany's advice.

Berlin, Sept. 3.—Count Berckheim, counselor of the French Embassy, called to-night on Herr Sternlich, Under Secretary to the Foreign Office, and informed him verbally of the nature of the agreement reached by France and Spain relative to the recognition of Mulai Hafig.

Official surprise is expressed at the agitation of the French and English newspapers over the occurrence. They act as though Germany had done something outside her privileges, instead of something that one of the signatory powers must do if the Moroccan situation is to be cleared up. Mulai Hafig has informed the powers several times that he would fully observe the terms of the Algeiras agreement, and he doubtless will repeat these pledges if to do so is regarded as a preliminary necessary to his recognition.

German trade in Morocco is suffering from the continuance of disorder there, it was further explained to-day, and Mulai Hafig and his lieutenant governors have failed to recognize the rights of persons under German protection. Consequently the German Consul at Tangier, Dr. Vassel, has gone to Fez to straighten out these difficulties. France, some time ago, sent a skillful and experienced agent to the court of Mulai Hafig, where he has since remained looking out for French interests. This envoy is an Algerian in the French consular service.

It appears here that the French government desires to make certain private arrangements with Mulai Hafig before coming out in support of the legitimacy of his claim to the Sultanate. Another probable cause of the dissatisfaction in Paris is it is believed that certain French interests have made loans to Abd-el-Aziz since the beginning of the civil war, and now they would like to persuade or compel Mulai Hafig to take over responsibility for these transactions. From the German point of view this is unjust.

BRITAIN TO SUPPORT FRANCE.

Official Circles Reported Irritated by Germany's Action. London, Sept. 3.—It was learned to-day that the British government is holding aloof from Mulai Hafig, the new Sultan of Morocco, for the present, but that it intends to recognize him in due time. British officialdom is irritated by the course adopted by Germany, which it regards as an attempt to gain the goods of Mulai Hafig by means of a martial law, rather than by peaceful means. Consultations are now going on between Great Britain, France and Spain, and there is no doubt that Great Britain and France will act together and probably insist that Mulai Hafig give promises to carry out the obligations of Morocco to the powers before they recognize him.

CAID ANFLOOS ASSASSINATED.

Details of Recent Defeat of Mulai Hafig's Men Near Morocco City. Tangier, Sept. 3.—A wireless dispatch received here from Mogador announces the assassination of Caid Anfloos. Advice received here from Morocco City report that Mtoouel, on August 28, defeated the force under Glaoui, a lieutenant of Mulai Hafig, at a point three hours distant from the city. There was a desperate battle, in which the followers of Mulai Hafig had five hundred men killed. Glaoui himself was wounded and had three horses shot under him. Native reports say that the butchery was terrible. Mulai Hafig is urgently demanding reinforcements.

REINFORCEMENTS FOR BOUDENIH.

Colomb Bechar, Algeria, Sept. 2.—A French reinforcement is now making forced marches to Bouendih, on the Algerian frontier, where a French detachment of 1,500 men is surrounded by 15,000 Berbers. The French intend to take the offensive as soon as these reinforcements arrive.

A SULTAN TO BE FINED AND HANGED.

Manisa, Sept. 3.—The Territorial Supreme Court decided to-day that the Sultan of Dunahara must hang for the part he took as leader of the raid on Hwang, island of Mindanao, in January, 1906, when J. W. McDonald was killed by the raiders. Besides being condemned to be hanged, the Sultan is ordered by the court to pay the heirs of McDonald \$5,000.

The police found that he had been a butler in a prominent family and that he was suffering from alcoholism. His story was proved to be untrue, and he was released.

JAPAN ALARMS CHINA.

Encroachments Reported in the Chien-Tao Region.

Peking, Sept. 3.—Contrary to her agreement to maintain the status quo pending a settlement of the Chien-Tao boundary dispute with China, Japan has recently done a number of things in this territory which arouse the apprehension of the Peking government. She has occupied the Residency buildings recently completed at Yen-Chi-Ting, in the disputed district; she has brought into this town a joint civil and military commander and 1,000 gendarmes, and she is proceeding with the reorganization of the existing system for the government of the Korean population. China has protested to Tokyo and to the Japanese diplomatic representative here, but without result.

Japan is establishing also an agricultural farm at Lu-Tao-Tio, in Chien-Tao. This is part of her effort to augment the Korean population of the territory. Furthermore, two Japanese major generals and four staff officers are at present engaged in making a careful study of Chien-Tao for strategic purposes, and the arrival of a battery of Japanese field guns near the border has renewed the fears of China that Japan intends to precipitate some action.

China has protested also against the project to bridge the Tumen River at the Wonsan Railroad terminus.

Alfredo Zayas will get the Vice-Presidential nomination, and the other electoral offices will be divided equally between the two factions. It was agreed also to support Señor Zayas for the Presidency in 1912. The two factions decided to retain each its own organization, but to carry on the work of the campaign together.

CHARGES MADE AGAINST FRANCE.

Evidence in Venezuela's Suit Against Cable Company for Aiding Matos.

Caracas, Aug. 24.—The evidence on which the Civil Court of First Instance has fined the French Cable Company \$5,000.00 mentions in a compromising way such names as that of M. Delcassé, former Minister for Foreign Affairs of France, and the Venezuelan government holds that the French government itself extended support to General Matos.

Of the great mass of documents submitted as proof by the government, the following extracts from two letters alleged to have been written by M. Paul Julia, general manager of the company in Paris, to M. Jallabert, representative for the West Indies and South America, stationed at Martinique, are among the most sensational:

Confidential, Paris, Oct. 14, 1902.—We have sent a letter of introduction to General Matos for you, but we neglected to advise him that, although you are not a French citizen, you should, however, proceed in a discreet manner and be careful to avoid all steps which might compromise you or the company.

Confidential, Paris, Jan. 8, 1902.—This reminds me that in my official letter to Matos, Yes, we have seen him many times here, and as he is also supported by the Minister for Foreign Affairs we wish him to succeed.

LAUNCH DESTROYED BY FIRE.

The 50-foot cruiser launch Mousquetaire, owned by Alvin Wortham, a member of the Larchmont Yacht Club, was destroyed by fire while anchored off the Bayside Yacht Club house, at Bayside, Long Island, last night. Mr. Wortham, with the captain of the yacht and the steward, was having supper in the clubhouse, when Frederick Meavitt, superintendent of the club, discovered that the boat was on fire. Two alarms were at once sent to the Bayside volunteer fire department, which arrived on the scene after the boat had been hauled up to the shore and beached by employees of the club. The burning craft was for a time a menace to the many other yachts anchored off the clubhouse, especially when the gale wind exploded, but it was kept at a safe distance, and none of them was damaged. The boat was valued at about \$7,000 and was partially insured.

LOWERED DYNAMITE DOWN CHIMNEY.

Hazleton, Penn., Sept. 3.—Unknown persons lowered dynamite on a string into the chimney of the home of John Slock, at Laurel Hill, some time last night, with the apparent intention of blowing up Slock, his wife and their ten children. When the Slocks and their eldest children, John and Susan, got up this morning and the kitchen fire was started, the dynamite exploded, seriously injuring Mrs. Slock and her son John, and demolishing the stove and everything else in the room. Slock and the girl were badly lacerated. The others in the house escaped. An adjoining dwelling was partially wrecked. The state police are working on the case.

FRIENDS OPPOSE BRIDGE WHIST.

Winona Lake, Ind., Sept. 3.—At the closing session of the Friends' General Conference to-day during a discussion of gambling many women members of the assembly bitterly denounced bridge whist as one of the evils threatening the modern home. One speaker said the women who played bridge whist were losing most that life offered. The representative in Congress from the President's district in New York discussed the question and said he was assured that even if Governor Hughes were not elected the gambling laws would not be repealed. He said what led men to gamble was not so much the love of the substantial equivalent as the excitement.

The reports of the Indian work and of negro schools were made by the superintendents of the departments. A speaker said in the Indian work it was not so much a lack of money as of Jesus, and that what the Indians needed was consecrated teachers. The report advocated the giving of citizenship to the Indians, and said proper family records should be kept for the transfer of property. It was decided to carry on the work among the negroes of the South in the two Friends' schools in South Carolina, and to raise an additional \$5,000 for endowment.

ARKANSAS RATES RESTRAINED.

St. Paul, Sept. 3.—Judge Vandever, in the United States Circuit Court, to-day granted the injunction requested by the St. Louis, Iron Mountain & Southern and three other railroads, operating in Arkansas, against the Arkansas State Railroad Commission. The injunction restrains the commission from enforcing the new two-cent fare law and from interfering with the railroads in raising their freight rates on intrastate traffic. Explaining the order from the bench, Judge Vandever said that the laws of Congress should take precedence over the laws of Arkansas in rate matters where the interstate regulations infringed on the intrastate regulations.

FIND YOUNG WOMAN'S BODY AT SEA.

Atlantic City, Sept. 3.—The body of Clara Strickland, of South Atlantic City, who disappeared with Charles Bateman, of Philadelphia, when their motor boat was upset by a storm last Friday, was found by fishermen fifteen miles east to-day. The launch in which they started on the supposed pleasure trip was picked up on Monday night.

EDWARD WHITNEY UP AGAIN.

FIGURED IN DEVERY DAYS

Old Police Go-Between Now Charged with a Big Scandal.

Edgar A. Whitney, a former Parkhurst Society agent and alleged poolroom keeper and self-confessed go-between for the police and the poolroom keepers during the Devery regime, was arrested again yesterday on two grand larceny complaints and held in \$4,000 at Police Headquarters. Samuel Koller, son-in-law of "Mother" Mandelbaum, the notorious East Side "fence," and a former East Side concert hall proprietor, was implicated, but no complaint has been made against him, because he has consented to act as a witness against Whitney.

The complaints which resulted in Whitney's arrest yesterday were made by Bruno Kemmer, a machinist, of No. 315 East 68th street, and by Samuel Siegenbaum, a jeweler of No. 27 Maiden Lane. Kemmer told Assistant District Attorney Kindeberger that he had met Whitney and Koller through an advertisement in the Suburban Home-builders' Company, printed in a German newspaper last winter. He talked with both men in their office in the Shubert Building, at Third avenue and 35th street, and they agreed to build Whitney a large apartment house on a lot which was developed with a little more capital. He invested \$1,000, and was to receive one-quarter of the earnings of the concern and a salary of \$25 a week.

Upon investigating he found that Whitney did not own the plant, but he demanded a set-aside of \$200 and gave him a draft for \$2,000 on the Massachusetts Loan and Trust Company—the amount of his investments, profits and salary. When the draft proved to be valueless Kemmer again saw Whitney, who explained that he had invested everything he had in the Panama Isthmus and Mining Company. Whitney described the investment so well that Kemmer invested \$1,000 in cash and received notes and drafts for the full amount from Whitney. These, Kemmer told Assistant District Attorney Kindeberger, were worthless.

Samuel Siegenbaum, the other complainant, charges that Whitney bought a necklace, valued at \$200 and a watch for \$100, valued at \$200, from the New Amsterdam Bank and a note due in February for \$100 on the Harlem branch of the Twelfth Ward Bank. Both, the jeweler says, were returned unopened. Whitney was confronted by the two complainants, but denied his part in the matter.

During Glennon's trial, at which Whitney was to have been a witness, he disappeared, and was forced to resign as an agent of the New York Police Department for the corruption of the Excise Laws. In November, 1904, detectives found him at No. 284 Pearl street, where he was supposed to be in the exporting business under the firm name of E. A. Whitney & Co. He was made a prisoner for contempt of court, but the complaint against him was dismissed by Justice Newburger. In the Supreme Court, he was charged with keeping a poolroom. In 1903 he attracted the attention of the police, and it was shown that he had organized an anti-society of his own. He found this unprofitable, however, and gave it up.

On January 30, 1906, he was arrested for grand larceny on an order issued by the District Attorney Flood. Sergeant Shindler, of the New York Police, was on duty at the time. He was charged with keeping a poolroom. In 1903 he attracted the attention of the police, and it was shown that he had organized an anti-society of his own. He found this unprofitable, however, and gave it up.

AUTO GOES DOWN EMBANKMENT.

Two of Three Occupants Hurt, but They Refuse to Go to Hospital.

Three persons were thrown out and two of them severely injured when an automobile plunged down a fifteen-foot embankment at South Albany avenue and 23rd street shortly after 6 o'clock last night. The automobile was owned by F. L. Underwood, of the New Weston Hotel, at 4th street and Madison avenue, who had been driving the car. The chauffeur, John Fox, the chauffeur, was killed. Mr. Underwood and Mrs. Conger received contusions and bruises about the head and face, and a physician said that Mrs. Conger was also suffering from internal injuries. An ambulance was summoned from the hospital, but the chauffeur refused to go to the hospital and was removed to their homes in another automobile. The chauffeur escaped injury. The accident was caused by a defective steering gear and the automobile was wrecked.

BOY HIT BY AUTO; MAY DIE.

Peter Landau, eleven years old, of Great Kills, Staten Island, was run down by an automobile owned by George Cohn, a business man of Manhattan, living at Great Kills, and perhaps fatally injured. Peter, who is a child of the city, was taken to the St. Vincent's hospital, where he is recovering from a charge of felonious assault. Young Landau was walking along the Richmond road, at Great Kills, when the automobile, going in the same direction, knocked him down. The lad was picked up in an unconscious condition by the chauffeur, who carried him in the car to St. Vincent's hospital. His right leg was broken and he was injured internally.

SPEEDER ARRESTED IN COURT.

Ellis H. Kulp, a chauffeur, was arrested by Sergeant Nerney yesterday as he was entering the Court of Special Sessions to plead to a speed charge. Nerney took him before Magistrate Walsh, in the Tombs court, where he was charged with oversteering and resisting arrest on August 15. Nerney said Kulp gave him a lively chase after being told he was under arrest. He charged that the chauffeur tried to run him down when he, Nerney, had caught up with him, and was prevented from doing so by the officer's pulling out his revolver. Kulp got away at the time, Nerney said, but not until his number had been taken. The officer said it was the fourth time the prisoner had been arrested, and the magistrate fixed his bail at \$500 on each charge.

BADLY INJURED BY AUTO.

Unable to see the approach of the automobile of a man who said he was Martin J. Heller, of No. 61 West 112th street, as it was directly in the rear of a Lincoln Hospital ambulance, William H. Bateman, a decorator, fifty-five years old, of No. 43 East 143d street, was struck by the machine near the intersection of 138th street and Willis avenue last evening and fatally injured. He was removed to the Lincoln Hospital, where it was reported that it was dying from a fracture of the skull. Heller was arrested by Patrolman Hedenreich and locked up in the Morrisania station on a charge of felonious assault.
