

800 NEW CHOLERA CASES

ST. PETERSBURG'S PLIGHT.

A Thousand Soldiers Stricken—Disease in Odessa.

St. Petersburg, Sept. 18.—From noon to-day until midnight, 471 new cholera cases were reported in this city. There were 265 new cases and 126 deaths in the twenty-four hours ended at noon to-day.

The military authorities made known to-day for the first time the condition among the troops. The disease is spreading so rapidly that a second large hospital will be opened immediately. There are 531 patients in hospitals. Since the beginning of the epidemic there have been 1,061 cases.

The municipality has decided to close the primary schools of the city for six weeks and to convert the school buildings into hospitals in which those suffering from non-contagious diseases can be housed. This will render available 1,000 additional beds for cholera patients. The League of Russian People has issued an appeal to all loyal Russians to pray for the preservation of the Emperor and the members of the imperial family.

Odessa, Sept. 18.—Despite strict preventive measures the cholera which now is raging throughout Russia has invaded this port. Seven persons have died from the disease and thirteen are ill in the cholera hospital. Lodgings have been disinfected, ships are being quarantined and sanitary commissions have been appointed. The Governor General has forbidden the publication of news of fatal cases. Most of the surrounding cities are suffering seriously from cholera.

FEWER CASES IN MANILA.

Six More Deaths Reported—Heavy Storm Off Coast.

Manila, Sept. 19.—In the twenty-four hours ending at 8 o'clock this (Saturday) morning, twenty-three new cases of cholera and six deaths have been reported, showing a steady decrease.

A great storm is now drenching Manila, and it is believed that this will greatly assist in cleaning the city. A typhoon is raging off the coast.

Washington, Sept. 18.—A net decrease of six in the number of cases of cholera in Manila is reported to-day by Governor General Smith of the Philippines. The decrease says that conditions are far more favorable, and adds:

This little outbreak was due entirely to infection from the provinces and the concealment of the cases by relatives and friends. This enabled the cholera to get a hold before the Health Department had any knowledge of the state of affairs. A large corps of inspectors and disinfectors has been employed and the fire department and chemical engineers are now being used for disinfecting purposes. This, together with the vigilance exercised by the police, will soon put this little outbreak under complete control.

FEW DEATHS REPORTED AT AMOY.

Amoy, China, Sept. 18.—The native cholera hospitals report a total of thirteen deaths from cholera for the ten days ending Thursday. Eight of the leading native physicians of Amoy report having treated only two cholera cases in that period. The deaths from all causes in Amoy on Thursday were seventeen.

SZECHENYIS SLIGHTLY HURT.

Narrow Escape from Serious Automobile Accident in Hungary.

London, Sept. 18.—A news agency dispatch from Vienna says that the Count and Countess Szechenyi were slightly injured in a serious automobile accident in Hungary. The accident occurred here on the 15th. The count and the countess, who was Miss Gladys Vanderbilt, of New York, were returning from the Hungarian army manoeuvres, when their car ran into the pillar of a bridge and was wrecked. The occupants had a marvellous escape.

A GERMAN SOCIALIST SPLIT.

Congress Refuses to Vote for Appropriations from States to Empire.

Nuremberg, Sept. 18.—The Social-Democratic Congress, now in session in this city, defeated to-day the proposal that the Socialists vote appropriations from the various states to the empire, by 283 nays to 115 yeas. When this vote became known sixty-seven delegates from Saxony, Baden, Württemberg and Hesse joined in a declaration that "while regarding the convention as legitimate and representative of the Socialist party, they considered the Socialist representatives of the individual states free to follow the course best suited to local conditions." This declaration will make a serious break in party unity.

THE ELECTIONS IN NEWFOUNDLAND.

St. John's, N. F., Sept. 18.—The Newfoundland Legislature was dissolved to-day, and Monday, November 2, was named as the date of the general election. One week after the election to Canada, Sir Robert Bond, the Premier, will be the government leader during the campaign, and the opposition will be headed by Sir Edward Morris, who, until last year, was Attorney General in the Bond Cabinet.

A VICTORY FOR RUSSIAN WOMEN.

St. Petersburg, Sept. 18.—The women students won a notable victory to-day over M. Schwartz, the Minister of Education, on the question of restoration of their right to attend lectures at the Russian universities, from which they were barred last spring. The cabinet has granted the appeal of 2,200 female students now enrolled for permission to finish their course of studies, but it decided that further admission of women must depend on legislative action.

NOTES OF FOREIGN NEWS.

St. Petersburg, Sept. 18.—The Ministry of Agriculture has submitted a bill to the Duma for the establishment of an agricultural agency in the United States to study agricultural methods of farming. The ministry believes that America, in these matters, leads the world. The agency will strive to facilitate the importation into Russia of improved farming machinery. It is part of the government's plan to replace the communal system.

Vienna, Sept. 18.—Three cadets attending the military school here were condemned to-day by court martial to exile in Siberia for having formed a revolutionary society.

Rio de Janeiro, Sept. 18.—Dr. José Carlos Rodriguez, proprietor of the Journal of Commerce, gave a dinner last night in honor of Irving E. Dudley, the American Ambassador to Brazil, who will soon leave here on a two-months' vacation. After the dinner there was a reception attended by the members of the cabinet, the diplomatic corps, a large number of deputies and senators, and many persons prominent in society.

Montreal, Sept. 18.—John G. Sullivan, formerly assistant engineer on the Panama Canal, has been appointed chief engineer of the eastern lines of the Canadian Pacific Railway.

Kingston, Ont., Sept. 18.—Edgar Humphrey, of Cape Vincent, N. Y., nineteen years old, was shot and killed while hunting ducks yesterday. The shot which caused his death was accidentally fired by his friend, Robert O'Neill. The two men were in a boat. O'Neill saw a duck and stood up to shoot. At the same time Humphrey arose, and the charge from O'Neill's gun tore away the back of his head.

Montreal, Sept. 18.—Addressing the Canadian Manufacturers' Association at a dinner last night, Sir Wilfrid Laurier, Premier, said he favored the establishment of a permanent tariff commission, patterned after that of the United States, to be formed by the association. He said, however, he could hold out no hope of an increased tariff on woolens, and raised Canadian manufacturers to meet British competition by furnishing the same class of cheap and shoddy goods which British manufacturers find in such demand in Canada.

GENERAL LUARD A SUICIDE.

Husband of Murdered Woman Cut to Pieces by Train.

Watersbury, England, Sept. 18.—Major General Charles Edward Luard (retired), whose wife was mysteriously murdered near London on August 24, committed suicide to-day by throwing himself in front of a train.

General Luard had been a guest of Colonel Charles Edward Warde, M. P., at Teston. He left the house early this morning, and going directly to the railroad threw himself in front of an oncoming train. Colonel Warde found a letter from General Luard saying his body would be found under the train. It said:

You will find my body at the Teston crossing. I am sick of the scandalous and lying reports, and I cannot face my son, whom I expected to meet to-day, and I have decided to end my life.

The general had received letters accusing him of having murdered his wife. His son, an army officer, is on his way from the Transvaal. Mrs. Luard was shot near Sevenoaks the afternoon of August 24, a few moments after her husband had left her to go to a nearby club on an errand. When he returned he found her dead. The tragic death of the general, who found the body, has revived public interest in this murder. The inquest, which is to be resumed next week, has not revealed the slightest clue. All the witnesses agree that Mrs. Luard had no enemies, and the facts discredit the theory of robbery, because Mrs. Luard's purse and rings, which were taken from her body, were of little value. An expert testified that it was impossible for the bullets which caused death to have been fired from any of the revolvers owned by General Luard, these being all of much smaller calibre.

Major General Luard was the eldest surviving son of the late Major Luard, of Ighiteam Mote, Kent. He was born October 13, 1839, and entered the army in 1857, becoming a lieutenant in 1862, a colonel in 1866 and a major general in 1887. In 1865-'67 he reconstructed the Household Cavalry barracks at Windsor. He was the executive officer in the Fenian disturbances in London in 1867. The following year he accompanied the mission to the Sultan of Morocco. He devised the scheme for the rearmament of Gibraltar in 1871. In 1873-'75 he served at Staff headquarters. The United Service Reformation Ground was laid out by him at Portsmouth in 1883-'82. Later he went to Natal and Zululand. After his return he was for fourteen years a County Councillor in Kent. In 1901 he founded the Society of Miniature Rifle Clubs, and in 1907 the Patriotic Society. He lectured before the Royal United Service Institution and elsewhere, and published several treatises. In 1875 he married the youngest daughter of Thomas Hartley, of Cumberland.

AMERICAN ON TRIAL IN HONDURAS.

State Department Assured That Leroy Cannon Is Receiving Fair Treatment.

Washington, Sept. 18.—Word has been received at the State Department from Mr. Dodge, the American Minister at Salvador, that Leroy Cannon is being tried at Choluteca, Honduras. He is charged with being implicated in Honduran revolutionary movements.

Mr. Dodge says he is assured Cannon is receiving proper treatment and a fair trial. The prisoner is a son of David K. Cannon, of Harrisburg, Penn., and was sent to Central America by an expedition sent by the government of the United States to survey the route of the proposed Nicaraguan Canal. He has no passport or papers from the United States government, though apparently he is an American citizen.

A DEADLOCK IN PORTO RICO.

San Juan, P. R., Sept. 18.—The Legislature has been in a deadlock for forty-eight hours. The House of Delegates is holding up the \$300,000 irrigation project, the principal measure for which the extra-ordinary session was convened, and is demanding the appointment of physicians to investigate anemias in the island by the Director of Health instead of by the Governor.

KAISER'S HOPE FOR WORLD PEACE.

Berlin, Sept. 18.—Representative Richard Bartholdi, president of the American group of the Interparliamentary Union, presented to-day his message to the union in a greeting and says: "I hope that your conference will be effective in the preservation of the blessings of the world's peace, a matter which is especially close to my heart."

BRITAIN SUPPORTS FRANCE.

Paris, Sept. 18.—The Foreign Office announced to-day that Great Britain had accepted fully and without reserve the Franco-Spanish note on the Moroccan situation.

KILLED SWEETHEART AND HIMSELF.

Double Tragedy of Disappointed Love in Michigan.

Alpena, Mich., Sept. 18.—A coroner's jury to-night found a verdict of murder and suicide in the case of George Bradbury, aged nineteen, and Nora Priest, aged eighteen, who were found to-day on a country road three miles from Alpena shot through the heart. The young couple had been engaged, and it is understood that the girl had broken off the engagement. The revolver with which the shooting was done was purchased by Bradbury at an Alpena store yesterday, and last night he rented a horse and buggy from a local livery. The rig was found near the scene of the tragedy to-day. There were no marks of a struggle in the buggy, and the bodies lay near the side of the road. Bradbury had evidently shot the girl through the head as she sat in the seat, then sending a bullet through his own heart.

CHILDREN NEED NOT PRAY IN SCHOOL.

Jersey Superintendent Issues Ruling Giving Parents Final Say.

Trenton, Sept. 18.—C. J. Baxter, State Superintendent of Public Schools, had just issued a decision to the effect that public school children need not participate in the religious exercises conducted in the classrooms or assembly halls unless their parents are satisfied to have them do so. He says that no child will be compelled to take part in the prayers in school if his parents object. This decision is the outcome of a case that has been fought by Arthur Watts, of River Edge, N. J. His two children, aged eight and eleven, respectively, attend school in that place. He objected to them taking part in the prayers and the reading of the Bible in the school, and the consequence was that the children were given the alternative of remaining away from school or praying with the other children. They remained away from school, and Mr. Watts carried the case to the State Superintendent, and that official has just rendered his decision.

FATAL GASOLINE EXPLOSION.

Vallejo, Cal., Sept. 18.—The explosion of 250 gallons of gasoline on board a large moored abreast of the submarine boats Grampe and Pike, at the Mare Island Navy Yard this afternoon, resulted in the death of Chief Machinist "Teddy" May and injuries to Lieutenant J. S. Townsend and Chief Gunner's Mates W. H. Leahy and Morrin. Both submarine boats were scorching. The tender Fortune and the tug Unadilla were also injured; the latter, having been moored abreast the submarines, immediately caught fire. The explosion threw flames in all directions and caused a spectacular fire. The men were forced to jump overboard to escape from the flames.

TO ENTERTAIN WESTCHESTER OFFICERS.

In return for courtesies extended to the North Side Board of Trade on its tours of Yonkers, New Rochelle and Mount Vernon, John F. Stevens, president of the board, has invited the majors and other civic officers of those cities to a reception and tour of the Bronx on October 15. Automobiles will be provided for the visitors near the board rooms, in the 135th street factory, and the visitors will be taken through the factory, business and residential sections of the borough, visiting the parks, schools, etc. After the tour there will be a dinner at Huber's Casino.

FLEET OFF FOR MANILA

Warships Leave Albany—Exchange of Cordial Messages.

Albany, West Australia, Sept. 19.—The battleship Connecticut, of the American Atlantic fleet, sailed at 6:30 o'clock this morning. She was making about thirteen knots, and will overtake the other vessels of the fleet on Sunday morning.

Albany, Sept. 18.—The American Atlantic fleet left here at 5 o'clock this afternoon for Manila, thirty-six hundred miles away, where the warships will arrive on October 2 or 3. The flagship Connecticut did not start with the other vessels, being delayed by coaling operations. The fleet is making nine knots.

The delay of one day here was due to the inability to depend on chartered colliers, a circumstance which in war time might be attended with serious results.

The hills surrounding Point King held a large crowd from Albany to see the last of the warships, and the cheering spectators were treated to a series of manoeuvres carried out with beautiful precision. The vessels then formed in single column, and steamed out of the sound. The Missouri followed the other warships from Princess Royal. She was delayed by the choking of one of her injecting pipes.

Rear Admiral Sperry has sent the following message to Alfred Deakin, the Premier of the commonwealth:

I thank you most heartily for the cordial message sent in the name of the government and people of the commonwealth, and we warmly and responsively reciprocate your good wishes. The public and private hospitality extended to us during our stay in Australian waters has created mutual and friendly sympathies and understandings which years of ordinary intercourse could not have brought about, and which most cement and make more enduring the cordial relations so happily existing between the American Republic and the Australian Commonwealth. Hearts with hearts, we wish for the happy and prosperous development of your splendid commonwealth.

The Premier of West Australia, N. J. Moore, has sent the following farewell message to Admiral Sperry:

On behalf of the Governor and the people of Western Australia I bid you farewell. I hope that you will retain pleasant recollection of the last Australian port at which you called. I regret that your welcome at Albany was not attended by a greater number of people, and as any other state of the commonwealth you were able to meet at Albany proved that Western Australia is as enthusiastic in its admiration of yourself and your officers and men as any other state of the commonwealth. You are leaving behind you warm friends and happy remembrances, and you and the officers and men of your fleet have our sincere admiration.

Replying, Rear Admiral Sperry said:

We thank heartily yourself and the Governor and people of Western Australia for your kind message, which is much appreciated. We regret that circumstances made it impossible for you to see us at your great state. Our visit was enjoyable, and we are taking with us pleasant memories of your hospitality and generosity to the commonwealth, always will be remembered appreciatively and sympathetically. The people of the United States wish happiness and prosperity to their friends of Western Australia.

FOUND BURGLAR IN FLAT.

Manufacturer Confronted by Crook on Returning from Theatre.

George Panopulo, a manufacturer of perfume at No. 84 Fifth avenue, attended a theatre downtown last night with a friend, Constantine G. Psaki, a broker at No. 104 Wall street, and returned in an apartment at No. 114 West 94th street. The two men found a burglar in the house, but arrived in time to save several hundred dollars' worth of silverware the man had packed in a bag.

As Panopulo started to strike a match he was confronted by a negro.

"Excuse me, gentlemen," said the negro, and then darted for the open door of the apartment. Panopulo pursued the man, but was thrown off, and before Psaki could come to the assistance of his host the negro was running west in 94th street. Panopulo raised a cry, and at 94th street and Amsterdam avenue the burglar was caught by Walter Schachtel, of No. 284 West 122d street.

SHOT IN QUAREL WITH PARTNER.

Former Husband of "Florodora" Girl Who Sued Griffith Scott May Not Recover.

Haverstraw, N. Y., Sept. 18.—Henry A. Engelke, who sued Griffith Scott, a wealthy brick manufacturer of this place, a year ago for alienating the affections of his wife, Gertrude Engelke Bruce, a "Florodora" singer, is in the Straok House in a serious condition, with a bullet wound in his head.

The shooting occurred at Congers last night, during a quarrel over business affairs between Engelke and Henry F. Schroeder, who was his partner in an inn at Rockland Lake. Schroeder was arrested.

Engelke's wife was said to be the favorite companion of Evelyn Thaw when the latter was a member of the "Florodora" company. Engelke obtained a divorce. His suit against Scott was never pressed to trial.

BROADWAY SEES ELECTRIC DISPLAY.

Surface Cars Enveloped in Smoke When Old Cable and Electric Feed Wires Meet.

What many said surprised any display of fireworks ever seen in Broadway occurred last night when the old cable lines came in contact with the electric feed wires and sent sheets of blue flame along the tracks from 49th street to 42d street, enveloping ten surface cars in dense clouds of smoke and holding up traffic from 9:30 until nearly 11 o'clock.

Police Inspector Titus, who was standing in front of the Metropolitan Hotel when the display began, mustered all the patrolmen he could find and established police lines to hold in check the dense throngs that quickly gathered. A repair car was called out, but the workmen said that nothing could be done to stop the flames until the old cable wires had burned out.

About a hundred and fifty persons were riding on the ten cars which were enveloped in smoke, but all escaped without injury. Guests of the Knickerbocker, Albany and Metropolitan hotels filed the windows facing on the street.

AIDED INSANE MAN TO ESCAPE.

Baltimore, Sept. 18.—The authorities at Mount Hope Insane Asylum are anxious to come up with Frank Brown, jr., son of the former Governor, and Lester Breeze, a young club and society man, son of the late Edward Breeze.

Breeze had been confined at Mount Hope for nine weeks, and Brown, who recently returned from Europe, went out in his automobile yesterday afternoon to see him. Brown had a talk with Breeze, and is believed to have arranged for his freedom, for after leaving the place he turned back and waited in a secluded spot, where Breeze joined him. He carried the patient to his home. Since then nothing has been heard of either Brown or Breeze.

J. W. POND ACCUSED OF LARCENY.

Utica, N. Y., Sept. 18.—J. Warren Pond, formerly chief forest, fish and game protector of the State of New York, was arrested at his home in Mountain View, Franklin County, last night, and was brought here this morning. The charge against Mr. Pond is grand larceny in the second degree, and specifically alleges the unlawful retention of \$100 paid to him during the month of November, 1904, as a penalty from a person who violated the game laws. The warrant was sworn out by W. B. J. Williams, a lawyer of this city. The examination of Mr. Pond will be held some time this afternoon.

WOMAN IN CONTEMPT.

Husband Sees Wife Led Back to Jail in Default of Bail.

Declaring that her client, Mrs. Ellen B. Welsh, had been subjected to outrageous treatment in being locked up in the Ludlow street jail on Thursday in default of \$500 bail in contempt proceedings, Gabrielle S. Mulliner, a lawyer, of No. 223 Fifth avenue, told Justice Bischoff in the Supreme Court yesterday that Mrs. Welsh knew nothing of the case against her until arrested on Thursday, and had never been served with papers. The contempt proceedings were the outcome of a judgment for \$1,884, obtained against Mrs. Welsh by Alfred Judson, Charles J. Judson and Percy Sherman for stocks which Mrs. Welsh is represented as having purchased through their brokerage firm several years ago. Mrs. Welsh was ordered to appear in supplementary proceedings for examination as to her income. She failed to do so, and again failed to appear when ordered to show cause why she should not be punished for contempt. Her arrest followed.

Justice Bischoff held the prisoner for further examination in the afternoon, when three process servers swore that they had served Mrs. Welsh with papers and that she was known to them personally. Mrs. Welsh flatly contradicted the process servers in testimony. Justice Bischoff, however, sustained the contempt charge, and fixed bail at \$1,000.

Mrs. Welsh's husband is in the fire insurance business in Philadelphia, and she frequently visits the family of Alvin J. Tuck, at 175th street and Riverside Drive, in this city. Her husband, Martin Welsh, was in court yesterday, but made no move to secure bail for his wife.

Mrs. Welsh was released late last night without bail upon an order issued by Justice Bischoff, after Mrs. Mulliner, counsel for Mrs. Welsh, had obtained the consent of Mr. Bail, counsel for the plaintiffs in the case.

MISSING CHICAGO MAN FOUND.

Disappeared Eight Years Ago—Made Another Fortune in California.

Chicago, Sept. 18.—Attempts to settle the estate of John F. Wollensak, formerly a wealthy hardware merchant here, but for years believed to be dead, resulted to-day in the discovery that he is alive and has amassed another fortune in a small town in California, where he has lived, keeping his identity secret from his relatives and friends.

Proceedings in the Probate Court almost reached the point of having Wollensak declared legally dead when he was found alive and well, although enfeebled by age, in the Western town. Eight years ago Wollensak left his office at Canal and Washington streets and disappeared without leaving a trace. His wife and children mourned him as dead, although the mystery of his departure was not solved.

Legal formalities connected with the transfer of real estate owned by him which was desired by a railroad made it necessary that his death be made a matter of judicial record. The proceedings were stopped by the filing of an affidavit declaring "John Wollensak resides out of the state." Further inquiries brought Wollensak to Chicago, unrecognizable to his friends. The property in Canal street sought by the railroad is valued at over \$300,000.

MAY HAVE STRUCK SPARTAN PRINCE.

British Ship Timandra, Badly Disabled, Puts Into Barbados.

Boston, Sept. 18.—A cable message received in this city to-day bore the news that the British ship Timandra, owned by M. W. Rice & Co., bound from Buenos Ayres to this port in ballast, had put in to Barbados with ten feet of her stem gone and leaking badly. The officers of the Timandra reported that she had been in collision with an unknown steamer in the vicinity of the Equator on the night of August 7. The bulkheads of the Timandra alone prevented her from sinking.

It is believed that the steamer with which the Timandra was in collision was the Spartan Prince, which had been reported as having foundered at sea as the result of a collision with an unknown sailing vessel.

ROWDYISM GROWS AT MARDI GRAS.

Peddlers Who Sweep Up Confetti and Resell It and a Few Others Arrested.

Although there was more rowdiness than on any of the other nights of the Coney Island Mardi Gras few arrests were made last night. Gangs of hoodlums threw "sneeze powder" in the faces of women and, in some cases, tore their garments, in an effort to put confetti down their necks.

Nearly a record crowd attended the festival during the evening and proved the inadequacy of the railroad service. Trains and surface cars were stalled all along the way to Coney Island. Since the Coney Island and Brooklyn company has raised the fare to 10 cents, the Brooklyn Rapid Transit 5 cent route from the 35th street ferry has been overcrowded.

Peddlers who swept up the confetti from the streets and resold it were arrested, and a few boisterous persons were locked up over night.

HURT IN MARDI GRAS AUTO CRASH.

Only one serious accident occurred in connection with the Mardi Gras carnival at Coney Island last night, when an automobile, driven by Tunia Bogart, of Second avenue and 74th street, Brooklyn, and owned by Bogart's father, Peter S. Bogart, of the same address, became unmanageable and dashed into a telegraph pole on the Ocean Boulevard. The elder Bogart was thrown out and knocked unconscious, later being removed to the Kings County Hospital, suffering from concussion of the brain and a possible fracture of the skull. Young Bogart was allowed to take the machine home.

ICE BLOCKADE IN HUDSON BAY.

Hint That Canadian Government May Abandon Plan for Line of Steamers.

St. John's, N. F., Sept. 18.—The report of the ice-bound conditions in Hudson Bay last summer brought here by the steamer Adventure, may block the plan of the Canadian government to spend \$30,000,000 in opening a line of grain carrying steamers from Four Churchills, on Hudson Bay, to Europe. The Adventure reported that she was unable to enter Hudson Strait until the last week in July because of an ice blockade, and said that heavy ice was also encountered in August. The Adventure also reported that the fur trade in the Hudson Bay region was poor last winter.

MRS. BISPHAM TO SHOW CAUSE.

She Disobeyed Court Order Awarding Children to the Father.

Philadelphia, Sept. 18.—David S. Bispham, the opera singer, to-day obtained from Judge Audenreid a rule, returnable next Monday, ordering his wife to show cause why she should not be punished for contempt of court for disobeying the order made in September, 1905, awarding the custody of their two younger children to the father. Mrs. Bispham waited several hours at his lawyer's office this morning for his wife to meet him, as had been agreed, to arrange for the future of the children, but she failed to appear. Mrs. Bispham, who fled with the children to Atlantic City several nights ago, brought them back here to-day so that they would be within the jurisdiction of the court, but left them with a friend.

FORMER JUDGE COMMITS SUICIDE.

Los Angeles, Sept. 18.—The body of Charles G. Van Fleet, formerly a judge of the Supreme Court of Colorado, was found in a room in a lodging house last night. The former jurist had taken cyanide of potassium, and had been dead for some time when found. Judge Van Fleet came to California six years ago from Colorado, and had been living on a ranch near San Jacinto. The widow and a son live at San Jacinto.

Large advertisement for To-Morrow's TRIBUNE. Will contain Big Game in Africa where President Roosevelt will hunt next year. By EDGAR BEECHER BRONSON. Mr. Bronson has the good fortune to be travelling this year with the same caravan which will accompany President Roosevelt next year while he is hunting big game in British East Africa. "Twisted Up About Westy" A story that none of Sewell Ford's readers can afford to miss. "A Point of Honor" By ISABEL HOLMES. Is an interesting bit of fiction, with a great big moral in it for husbands and wives who, while not mismatched, nevertheless have found the path of true love a thorny one.
