PASTOR RAPS CHANLER Dr. MacArthur Says Defeat of Hughes Would Be a Disgrace.

Lewis Stuyvesant Chanler was attacked by the Rev. Dr. R. S. MacArthur yesterday morning at his current events class at Calvary Baptist Church, when the pastor called on the Democratic candidate to explain his attitude on "personal liberty."

Chanler was supposed to be in sympathy with the best interests of the state, but since his acceptance of the nomination for Governor he has reversed his position on important issues. He immediately began to sneer at the Governor's reforms. He has practiced a policy of evasion which has surprised his best friends.

Chanler has a right to ask him whether he both professes to be a Christian and to be a Democrat. He has a right to ask him whether he is a Christian and a Democrat. He has a right to ask him whether he is a Christian and a Democrat.

DEBS A SICK MAN. Socialist Candidate Hardly Able to Leave Car.

Pittsburg, Oct. 15.—Eugene Debs, the Socialist candidate for President of the United States, is a sick man. For several days the work of the campaign has been telling on him, and to-day he was scarcely able to leave his private car to fill two engagements that he had to speak in the Bijou Theatre this afternoon and evening.

Debs had a cordial reception when he reached here this afternoon. He was taken from the Baltimore & Ohio station to the Bijou Theatre, followed by a crowd of more than ten thousand persons, who cheered him wildly.

MANY EXCISE ARRESTS. Police Active After Mr. Bingham's Scolding of Inspectors.

Following a declaration by Commissioner Bingham to his inspectors that there must be a decided change in the activity shown by their subordinates in the matter of excise, there were some "doings" yesterday. The general total of arrests for the day for the five boroughs was 124, while for the same territory last Sunday the total was sixty-eight.

Something was surely wrong with General Bingham when the inspectors lined up before him at Police Headquarters on Saturday morning, and he roared at them until another section of the new regulations down the street was threatened to be given. As one inspector said: "The way he laid down the law was a caution."

In spite of the fact that there were more arrests during the day, no one needed to go thirsty anywhere in the city. The majority of the precinct captains made the customary one arrest, just as they would have something to show for the day, but in several precincts where the "skippers" have been up on the "compt" lately the activity was pronounced.

As told in The Tribune several weeks ago, a tip was sent out that now that election was on the police would be easy on the saloonkeepers and "give them even better" than they were getting. It is some of them overdid a good thing and the police have been severely arraigned along other lines the "tip" has evidently been called off.

TRADE IMPROVEMENT Manufacturers' Association Members Favor Election of Judge Taft.

"American Industries," the official organ of the National Association of Manufacturers, has very recently received unsolicited proof that business men as a class are intensely desirous of the election of Mr. Taft. In a letter sent to every one of the association's three thousand members the publication asked four questions concerning business conditions: the first, the present condition of trade in the manufacture represented; the second, percentage of increase, if any, in the volume of business over that of the early months of the year; the third, the outlook for the future; and fourth, suggestions for the restoration of prosperity.

Although no mention of politics whatever was made in the letter, when all the members had replied it was found that one-third had referred to the coming election, and that of these just one had advocated the election of Bryan, the others coming out unequivocally for Taft.

The Taft sentiment, moreover, covered the entire country from Bangor, Me., to Birmingham, Ala. The Portland Iron and Steel Company of Boston says, for instance: "We believe that the manufacturers and merchants are now only awaiting the final outcome of the election, and if a Republican administration is continued on a sane and conservative basis, prosperity is assured."

The Interlake Mills, of Providence, R. I., manufacturers of book cloths and similar fabrics, go even further and say: "The election of Mr. Bryan would be a serious blow to all kinds of business and very nearly criminal when the character and fitness of Mr. Taft are taken into consideration."

The Lockhart Iron and Steel Company, Pittsburg, Pa., writes: "So far as we can discover, everybody is waiting to see the result of the election. If Mr. Bryan is elected there will doubtless be a very rapid increase in business."

The Standard Tool Company, of Cleveland, writes: "With the election of Mr. Taft we feel sanguine that business will take a big jump."

The treasurer of the Advance Thresher Company, of Battle Creek, Mich., states: "Possibilities, and I think probabilities, for the coming year are not very promising, but it is the writer's opinion that the election of Bryan would make a decided change for the worse."

The Alabama Consolidated Coal and Iron Company, of Birmingham, Ala., is moved to say: "The possibilities for the iron trade for 1909 hinge on the election of Taft as President, and the ability of the railroads to finance their needs."

In regard to business conditions pure and simple, the following table gives the briefest, most comprehensive view of the result of the canvass. The percentages refer entirely to the replies from a given class of manufacturers; for instance, 100 per cent of the replies from manufacturers of agricultural implements said that present conditions were good, and that there had been an increase in the volume of trade in the last ten months, while 36 per cent regarded the future of their trade as good:
