

STILL LINGER AT WINTER RESORTS

OUTPOURING OF FASHION FOR EASTER. New Mark To Be Set by Atlantic City Horse Show—In the South.

Atlantic City, April 3.—It is safe to say that the Easter horse show of the Atlantic City Association, on Young's new concrete pier, April 8, 9 and 10, will be the most successful in the annals of the local organization.

Among those staying at the Garden City Hotel are Mr. and Mrs. Stanford B. Lewis, Mr. and Mrs. S. Wycoff, Mr. and Mrs. G. W. Bliss, Mr. and Mrs. E. C. M. Fitzgerald, Mr. and Mrs. Edward Kemp, Mr. and Mrs. John Smithers, Mr. and Mrs. W. N. Dykman, Mr. Charles E. Miller, Mr. and Mrs. J. D. C. Rumsey, Miss Gaynor, Miss D. Martindale, H. Payne and Paul E. Stevenson.

GOLF POPULAR IN WESTCHESTER. So popular has golf become in Westchester County that it has been found necessary to provide more links, and there is a project of building a large hotel on the course.

NATIONAL GUARD NEWS. Brigadier General George Moore Smith will review the 8th Regiment at its army camp on April 22. Major General Charles F. Roe will review the 23d Regiment in its army camp on Monday night, April 12.

COMMUNE ANNIVERSARY. Postal and Telegraph Strike Marked in Paris. Paris, March 23. Every year, as the 15th of March comes around, French Socialists glorify the Commune.

LAKEWOOD. Selections to Fill It by Prominent Men. Lists of books to fill it are cropping up daily. Dr. Elliot contends that enough works, if carefully selected, could be contained in this small space.

MAXIM SILENCERS NOT NEEDED. Noise production is a highly esteemed quality in firearms hereabout. This important truth was acquired, at some cost, by a professional instructor of marksmen.

BLOODHOUND AS IRON WORKER. Nameless but by no means friendless, a full grown, highly bred bloodhound is making his way around the entire country serving apprenticeship that will entitle him to membership in the Structural Iron Workers' Union.

ST. AUGUSTINE. St. Augustine, Fla., April 4.—Many social affairs have been enjoyed by visitors at the Ponce de Leon and the Alcazar this week, including sailing parties and small dinners.

TO CHECK CROP LOSS FARMERS BATTLE FOR INSECT EATING BIRDS.

Feather Dealers Alone Would Leave Crop Guards Defenceless—Nation's Wealth at Stake. Opposed by a band of Broadway feather dealers, the farming forces of this state are fighting for a law which will fully protect the wild birds that they know can save their crops from insect pests.

Half of the daily food of the crow blackbird alone is made up of the insect pests that destroy the crops. It has been proved by expert examination of 233 stomachs of these wild birds, the results of which are being submitted to the legislators here by Dr. T. S. Palmer, of the government Department of Agriculture.

Both the New York and Vermont commissions are now hard at work upon the details of the official programme, the railroad men with lines on either side of the lake and the intricate problems of transportation, and up and down the Champlain Valley, from Ticonderoga to Rouse's Point, preparations are going forward for the proper entertainment of the thousands of people who are expected to pour into the foothills of the Adirondacks in the week of July 4.

COMMUNE ANNIVERSARY. Postal and Telegraph Strike Marked in Paris. Paris, March 23. Every year, as the 15th of March comes around, French Socialists glorify the Commune.

PARLIAMENTS OF THE LAST FEW YEARS have given rise to a new and formidable addition to the French vocabulary, "sabotage," an effective weapon of the strikers, meaning the destruction or injury to machinery or instruments of work.

THE STRIKERS USE VERY THIN WIRE for this purpose, so covered with cement or putty of the same color as the post as to be almost invisible to cavalry patrols or inspectors.

with iron workers in their erection of some new mighty skyscraper and to exchange confidences with them as if he were a fellow workman. From last reports of the dog he was wearing "Frisco on his country tour, and his address was still "en route."

LAST SUMMER, when the iron workers were striking and picketing a new building being erected in Prospect avenue, Southeast, by non-union men, the dog was employed by a detective agency to assist in guarding the non-union workers.

ONE OF THE MOST INTERESTING, from the spectacular as well as the historical point of view, of the numerous celebrations taking place in this year of great anniversaries is the coming observance of the centenary of the discovery by Samuel de Champlain of the beautiful lake which bears his name.

THE STATE OF NEW YORK will itself play host, and to insure the proper entertainment of its numerous distinguished guests during the week of the celebration has, through the New York commission, reserved four hundred of the best rooms in the Hotel Champlain, situated on picturesque Bluff Point, on the shore of the lake, three miles south of Plattsburg.

INDIAN PAGEANTS will form one interesting feature of the programme along the shores of the lake, taking place at different points along the shores of the lake, at which the exercises are to be held, and special interest attaches to them from the fact that they are to be produced on an artificial island which the New York commission is now having built for the purpose and which will be towed about the lake, keeping pace with the great barges which will be hinged to the body of the lake.

THE EXERCISES OF MONDAY, July 5, will be held at Crown Point, at the historical ruins there. Tuesday's exercises will be at the ruins of old Fort Ticonderoga, Wednesday will be devoted to special exercises in the city of Plattsburg, and Thursday will be given to exercises on Isle La Motte.
