AT THE WHITE HOUSE.

Washington, May 15.—The President, with the Vice-President, Captain Butt and General Edwards, left the White House shortly before 2 o'clock this afternoon in one of the President's touring cars for the Chevy Chase golf links.

President Taft has sent a letter to Governor Stubbs of Kansas protesting against the efforts of the Stubbs faction to draw him into the political differences in that state by urging the appointment of a man having only the backing of the Governor and Senator Bristol and not of the state delegation.

The current campaign against noxious insects suggests that the translators or editors of the famous "Bible" were not so far astray after all. The time really seems to be approaching when men "shall not be afraid of bugs by night" any more than "of the arrow that flieth by day."

The "fourth partition of Poland" may be re-entrenched and resisted by some of the Poles, but it will scarcely rank as a companion piece to the "bloodstained picture in the Book of Time." It appears to involve only the cutting off from Poland of a small strip of territory of almost entirely non-Polish population.

Austria-Hungary plans to spend \$40,000,000 on new battleships, whereupon Italy adopts a programme involving the expenditure of nearly \$53,000,000. Now, is that to be regarded merely as co-operation between two members of the Triple Alliance or as rivalry between two traditional foes?

The British battleship Temele, which went into commission yesterday, is an improvement on the Dreadnought in several respects. Her centre turret has been arranged so as to secure a larger area of fire, bigger guns are provided for defence against torpedo boats and her displacement exceeds that of the pioneer vessel of the one-calibre gun class by seven hundred tons.

The special opening of the Maryland Tuberculosis Sanatorium, in the Blue Ridge mountains, is described by "The Baltimore Sun" as a notable "victory of peace." It is a fine example of the use of science, aided by humane sentiment, to ultimately extinguish the white plague.

At Okaloosa, Iowa, there was unveiled recently in the form of a statue of Mahaska, a great Iowa Indian chief. In commenting on the monument "The Des Moines Register and Leader" says: "Mahaska had many virtues. The Iowa was the white great race. Because the Indian and the white race could not harmoniously co-exist, the blame for the Indian is not altogether to be blamed to the Indian."

Chumpleigh had just been fined \$10 for exceeding the speed limit. "Now, your honor," he said, "I desire to make charges against this policeman who brought me here." "What charge?" demanded the judge. "Same as mine, 'an hour on my hour in my car he must have gone forty-one on his motorcycle, or he never would have caught me.'"—Harper's Weekly.

Writing to "The London Daily Mail," a correspondent makes a plea for the restoration of old Saxon words, which, he says, "have been driven out partly by the 'pulling' necessity of an affected generation." "What finer and more expressive word have we than 'swink' for to work—'mortal men that swink and sweat for naught,' wrote Spenser; and even 'sweet' is now thought a little vulgar," says the writer.

From the Troy Times. Oranges are growing rapidly in favor and are coming to be an all-the-year-round accompaniment of the breakfast table. The extent to which the business is growing is shown by the fact that a railroad during April carried out of Southern California 3,884 carloads of the fruit, destined for the Eastern markets. This represents an increase of 200,000 oranges, valued at \$4,000,000.

From the Lewiston Journal. An Ashbur man had a cow whose idiosyncrasies he puzzled him. He was puzzled by her light-heartedness. "I am glad to hear you characterize it in that way." "I am glad to hear you call it your Hamlet," said the man. "What do you think of Hamlet?" "I think it is a very good play."

"What charge?" demanded the judge. "Same as mine, 'an hour on my hour in my car he must have gone forty-one on his motorcycle, or he never would have caught me.'"—Harper's Weekly.

Writing to "The London Daily Mail," a correspondent makes a plea for the restoration of old Saxon words, which, he says, "have been driven out partly by the 'pulling' necessity of an affected generation." "What finer and more expressive word have we than 'swink' for to work—'mortal men that swink and sweat for naught,' wrote Spenser; and even 'sweet' is now thought a little vulgar," says the writer.
