PITTSBURG'S CENSUS FIGHT.

Rumor That Politicians Who Opposed Willett Have Been Turned Down. (By Telegraph to The Tribune.) Pittsburgh, Nov. 27.—Rumors from Washington to-night indicate that Senator George T. Oliver and other politicians who fought the appointment of Professor A. H. Willett, of the Carnegie Technical School, as census supervisor of Allegheny County, have been turned down. Willett was appointed by Director Durand, the two being personal friends. Senator Oliver opposed the appointment of Professor Willett, and it was held up. The Senator's action was a protest from commercial organizations, and President Taft was urged to appoint Professor Willett or some other man not connected with politics.

THE OPEN DOOR IN MANCHURIA.

Japanese Editor Says United States Has No Just Claim. San Francisco, Nov. 27.—M. Sumoto, proprietor of "The Japanese Times," of Tokyo, and one of the foremost men of his country, who is a member of the Japanese Commercial Commission now here, discussed to-day the alleged infringement by Japanese of the "open door" policy. "With the Antung-Moukden Railway in our possession we are in the same position that Russia occupied before the Russo-Japanese War," he said. "But we have withdrawn our troops from Manchuria, excepting in the railroad zones, and we maintain there a force just sufficient to guard our road and mineral property. We have not overstepped our limits. Manchuria was occupied entirely by Russia, which, instead of restricting its military participation to the railroad zone, essayed to control the entire region. We complained against that, and the Russian Government's decision to withdraw its troops."

Washington, Nov. 27.—Representative Mann, of Illinois, who is chairman of the special committee on wood pulp and print paper in the last Congress, and prepared the provisions on these items as first reported to the House in the Payne tariff bill, but was overruled by Congress in its final passage of the tariff law, takes the position that the country may well be alarmed at the danger of a tariff war with Canada growing out of the tariff on wood pulp and print paper under the Payne act.

Duty on Imitation Pearls Fixed at 60 Per Cent. (From The Tribune Bureau.) Washington, Nov. 27.—The familiar question, "What is downward revision of the tariff?" was answered in a hundred different ways last winter. The answers did not agree, and the query was regarded as an unsolvable puzzle, until the Republican "insurgents" met on common ground and decided that downward revision of the tariff was anything that Rhode Island did not want.
