

KING'S SON MAIMED

Leopold's Eldest Boy Has Only One Hand.

(Copyright, 1910, by the Brentwood Company.) Leopold II, king of Belgium, and his son, Prince Louis Philippe, and upon whom he has bestowed the Belgian title of Duke of Terouenne had it not been for the opposition of Prime Minister Van Trooz, who succumbed to an attack of heart failure during a violent quarrel with the monarch, the unfortunate child would not have been known to the world. There are doubtless some who will be unkind enough to establish some relation between this handsome title fellow's maimed arm and the similar maimed native children of the Congo Free State, whose photographs have so frequently appeared in the illustrated papers of recent years as a demonstration of the atrocities perpetrated upon the unfortunate blacks as a penalty for their failure to gather sufficient rubber to satisfy the rubber companies in which Leopold was the largest stockholder.

That Leopold's boy should thus have been born minus a hand seems to be a circumstance that Leopold, who was his own father's brother, the late Count of Flanders, was afflicted with some affection or malformation of the ear, which rendered him stone deaf at an early age and eventually contributed to his death. Leopold II was not married until he was thirty years of age, when he wedded Princess Louise of Orleans. There was another boy, Louis by name, who, fortunately, did not survive his birth by many months, for the poor child was so terribly misshapen that his death was a mercy. He died at the age of two years, his death being recalled, recalling the untoward fate of the child of his first marriage, to Princess Charlotte of Wales, he became imbued with the idea that he was in some way accused, and expressed his wish to abdicate in favor of his nephew, Prince Augustus of Coburg. At the same time he gave utterance to the conviction that it would be better for the world at large, and more especially for those dear to him, that he should have no more children, and that under the circumstances he would take all possible steps to insure that his young French wife to obtain either an annulment of the union or else a divorce. So bent was he on carrying out these ideas that King Louis Philippe dispatched the great Talleyrand in hot haste to dissuade him therefrom, and the document, which, on specifications, charging him with non-payment of debts until appeals were made to the Navy Department, Captain Wittke is now on the Rhode Island.

COURT TO TRY CAPT. WITLSE.

Washington, Jan. 7.—A court martial was ordered to-day by the Navy Department to try Captain Franklin Wittke, of the marine corps, on specifications charging him with non-payment of debts until appeals were made to the Navy Department. Captain Wittke is now on the Rhode Island.

The court martial will meet in New York City to-morrow at the residence of Admiral Helmer, with Major Leonard as judge advocate. Other members will be Colonel Waller, Lieutenant Colonel Kane and Major Catlin. Tailor bills were the largest alleged to have been unpaid. Within the last few days the bills have been paid, it is understood. A \$2,000 court martial will proceed, nevertheless.

ALICE C. THAW OFFERS \$10,000.

Willing to Pay This Amount for Harry's Boyhood Trinkets.

Pittsburg, Jan. 7.—If Referee Blair will permit, Alice Copley Thaw, sister of Harry Thaw, now in Matteawan, will pay \$10,000 for some cuff links, scarf pins, a cigar cutter and books said to have been Harry Thaw's when he was a boy in Pittsburg. According to the petition of Roger O'Mara, acting as trustee of the estate of Thaw, requesting that the personal effects of the former Pittsburger be sold for the benefit of his creditors, this is the price offered by Alice Copley Thaw for the trinkets.

A GREAT AFTER DINNER SPEAKER.

Sir George Reid, who has just been appointed by the Australian commonwealth as its first High Commissioner or Plenipotentiary in London, presents some resemblance to the late Premier of that country quite portly and very good humored. He has been in turn Premier of New South Wales and Prime Minister of the commonwealth, and is acknowledged as the most successful platform and after dinner speaker in the antipodes. He excels in invective and in humorous rally. In fact, when he practices his art in the House of Commons in request in libel and slander cases, it was desired to make the plaintiff's case look ridiculous. After an hour in the witness box under Sir George's good natured and clever banter the most indignant of claimants would often find himself smiling.

LIBERALS IN DOUBT.

No more eloquent illustration could be furnished of the uncertainty which the Liberals themselves feel as to the outcome of the present political crisis in England than the failure of the customary New Year honors to make their appearance in the official Gazette on Friday last. It may be taken to mean that the administration anticipates defeat at the polls and consequently loss of office. Outgoing cabinets always signalize their departure by the distribution of a large number of honors in the shape of peerages, baronetcies, knight-hoods, titles and orders and awards for services rendered in the past.

NEW BOURGET PLAY

PRODUCED IN PARIS.

"La Barriade" Shows Socialism in Most Rabid Form.

(By Cable to The Tribune.) Paris, Jan. 7.—"La Barriade," a four-act drama, produced to-night at the Vaudeville Theatre, the strongest play which Paul Bourget has ever written. It deals with socialism in its most violent form, such as is to-day the burning problem in France. Paul Bourget has the full courage of his opinions; he makes no pretence to impartiality; he pictures a terrific struggle between the boss and the workman and paints in glowing colors what he calls the crimes and blunders of the French proletariat, which, according to Bourget, are leading France to a revival of the Commune of 1871 and to anarchy.

EXECUTORS IN QUARREL.

Wallach Selected One from Each of His Families and Trouble Follows.

Surrogate Thomas was asked to settle the differences among the four executors of the estate of the late Karl M. Wallach, a real estate operator, No. 130 West 79th street, yesterday, when Milton M. Dreyfoos, Mrs. B. Wallach, Dina Block and Sidney Wallach appeared before him, the first three asking that the surrogate direct the executors to employ an expert accountant to go over the books of the estate and report to them.

Karl M. Wallach was married three times, according to the evidence offered, and in his will he appointed as executors a representative from each of his three families.

Sidney Wallach, however, a son and one of the heirs, he named as sole counsel to the estate, inasmuch as the young man was at that time a law student and about to practise his profession, and the will stipulated further that the young counsel should be allowed \$2,000 a year out of the estate for his legal services.

Jesup, Young Potts is the son of Augustus E. The trip was of little benefit, and Mrs. Wilson died in a hotel in Paris.

HIGGINS STANDS FOR ECONOMY.

Thomas J. Higgins, the new Park Commissioner of the Bronx, when asked last night why he had dismissed one hundred men from his department, said that there was no political significance to his act, but that it was simply a matter of economy. He said that the men dismissed were employed in the department building roads and fences and filling swamps; work done much cheaper in summer than in winter. He said he took the position of a public contractor, and no contractor would do work of this kind in winter when it could be done in summer. He said the men would all be re-engaged in the spring, as they were Civil Service employees.
