

RACE WAR AVERTED CUBAN NEGRO PLANS.

Americans Dislike Sanguily's Appointment.

Havana, Jan. 24.—Fears of a race conflict growing out of the recent disorders resulting from the refusal of the management of the principal American hotel in Havana to entertain negroes have in great measure abated, and the possibilities of further trouble from this particular source have practically disappeared.

The President sent his secretary to confer with the management of the hotel, and summoned to the palace General Cebreco and other negro leaders, with whom he conferred. He pointed out to all patriotic Cubans the possibilities of further trouble from this particular source have practically disappeared.

The Independent Party of Color shall be organized throughout the whole territory of the republic, with a national character, to maintain equilibrium of all interests.

The importance of the Congress elections to be held in July, can hardly be overestimated. It is not so much a question of which party shall return the greater number of candidates as whether the independent republic, unaided by American supervision, shall prove itself competent to conduct an absolutely fair and peaceful election.

MOVING ON MADRIZ Estrada Preparing to Attack Government Troops.

Bluefields, Nicaragua, Jan. 30.—General Estrada has learned that 700 of the Madriz troops are intrenching north of Greytown, and in consequence he and General Matuly are arranging to head an expedition to that district.

Estrada is now waiting for an opportunity to engage the Madriz forces at Greytown, but up to the present they have remained within the limits of the city, practically under the protection of Great Britain, whose representative recently issued an ultimatum that no fighting would be permitted in Greytown, on account of the large number of British subjects there.

The United States cruiser Tacoma and the British cruiser Scylla are now at Greytown. The Japanese physician said that a warm friendship is entertained by the Japanese for America, and he cited many instances to show that the Japanese in American universities fifteen and twenty years ago are now directing the governmental affairs of the island empire.

The Japanese youths now studying in Yale, Columbia, Harvard, Cornell and the other American colleges and universities, he added, "were destined to shape the future of Japan."

The Japanese editor made a strong plea for the naturalization of the Japanese. He said that the exodus of Japanese who had come here before the passage of the exclusion act, while it might cause some Americans to rejoice, really was a danger, as "the fewer Japanese in America the less friendly will be the commercial and other relations between the two lands."

Dr. Takamine said the Japanese began coming to New York in 1878, and when the doctor came to this city, in 1881, there were, he said, only fifty of his countrymen here. The number grew to three hundred by 1890, while in the next nine years it ran up to two thousand, but recently has been decreasing and now is about fifteen hundred.

Dr. Takamine said that the trade between the two countries has been increasing at a wonderful rate, declaring that the business in 1908 was 250 per cent more than in 1898. He was glad to learn, he said, that representative Americans from business life, literature and journalism will be invited to visit Japan next year.

Under the rule of Madriz there is no security for life, property or any right whatever. He went into power saying that he was looking for peace. He has inaugurated another system of plundering, oppression and persecution. The triumph of General Estrada is a social necessity in Nicaragua and will be accomplished at any sacrifice."

John Niederstein, former County Clerk of Queens, will pay to the City Chamberlain this morning the receipts of his office for December, over which there has been a delay and for which the Attorney General's office threatened to take action. The amount is more than \$12,000. At Mr. Niederstein's home, in Richmond Hill, where the announcement was made last evening, it was said he was too ill to be seen.

Goods valued at \$5,000, and which were part of \$75,000 worth of booty secured by a gang of freight car thieves that operated last fall between Buffalo and Rochester, were identified yesterday at Police Headquarters, Bayonne, by detectives from Rochester and the West Shore and New York Central railroads. The police are searching for the leader of the gang, who is believed to have shipped the goods to Bayonne. He is wanted also, it is said, for arson and burglary in Rochester.

The annual statement of the Mutual Life Insurance Company, just issued, shows that the company closed its sixty-seventh year with an increased amount of insurance of \$1,441,322,848 and with increased assets of \$560,122,367.61. According to the statement, the company paid out \$54,599,548 to policyholders and their beneficiaries last year. This is said to be the largest amount ever before so paid in a single year by any insurance company in the world.

WOE IN NICARAGUA. Estrada's Representative Attacks Rule of Madriz.

Adolfo Vivas, who is one of the representatives in this country of General Juan J. Estrada, the leader of the insurrection in Nicaragua, returned to this city on Saturday from Washington, where he has been busy on his mission. Señor Vivas received letters on his arrival here from Bluefields, which said that Managua, the capital; Chontales, Matagalpa, Masaya and Granada are all giving their support to the insurrectionary feeling. The whole nation, he said, is now in arms, and the feeling against his rule is spreading over the whole republic. Madriz is doing as badly as Zelaya did."

Regarding the situation in Nicaragua, Señor Vivas said: "There is no other way to have peace and a stable government in that country but by the triumph of General Estrada's army. Dr. Madriz is only the continuation of Zelaya's reign. He has excited to the utmost the feeling of sectionalism in Nicaragua, which may lead to anarchy and threaten the life of the whole nation. In this disgraceful work he is helped by Irias, Zelaya's Premier, and Francisco Baca, Madriz's Premier now, an enemy of the foreigner."

While Madriz is trying to make the public believe that he was going to prosecute the murderers of the Americans Cannon and Groce, in an effort to gain the sympathy of the United States, all the press of Managua and Leon, under absolute control of Madriz, indulges in undignified and savage attacks upon the United States, with the purpose of raising the public opinion of the United States against Madriz himself, and the United States to arbitrate in the war, because he knows that public opinion is against him and his downfall is near. He is saying in his public speeches that the United States is encouraging the revolution—the very same policy that Zelaya said in Mexico.

"Now Madriz has issued another forced loan of one million pesos, which is going to be extracted from the people of Granada specially. This means that the period of ransacking inaugurated by Zelaya is at full swing to-day. The jails are again full of prisoners, including some of the best people from Granada, Managua and Rivas. Why does Madriz jail these people? Because he is aware that they represent the best classes, who are in absolute sympathy with General Estrada. He hopes to destroy by violence the already clear trend of public opinion."

"By direct orders of Madriz all the laborers of the different farmers have been recruited, thus inflicting a severe loss on the country by the impossibility of collecting the crops. And not only this, but he has paralyzed the commerce with the western side of Nicaragua. There has been no mail to the merchants here since he went into power. All the correspondence to merchants or private citizens in this country is held up by Madriz."

"Under the rule of Madriz there is no security for life, property or any right whatever. He went into power saying that he was looking for peace. He has inaugurated another system of plundering, oppression and persecution. The triumph of General Estrada is a social necessity in Nicaragua and will be accomplished at any sacrifice."
