

DOLLIVER'S ATTACK

CRITICISES MR. TAFT.

Sees Step Toward Central Bank in Postal Plan.

(From the Tribune Bureau.)

Washington, March 3.—Senator Dolliver made a speech to-day which is in line with the policy of the ultra-insurgents to bring the Taft administration to make it appear that the President has turned his back on progressive legislation.

Senator La Follette, who is always glad to lend a helping hand to the Democrats when any Republican in high position is being attacked, beamed his approval of Mr. Dolliver's remarks, while two Wisconsin representatives, who are followers of La Follette, called that speech a masterpiece.

It was apparent that the Iowa Senator had two main purposes in his mind in making this speech. First, it gave him an opportunity to lay a foundation for criticism of the plan of the National Monetary Commission to recommend the establishment of a central bank.

Mr. Dolliver took advantage of the debate on the postal savings bill to make it clear that the tariff bill did not mark the confining of his insurgency. The Iowa Senator was not enthusiastic about postal savings depositories as a general proposition, but he is in favor of the law to be enacted by which its business is to be carried on.

Then Mr. Dolliver took up President Taft's Milwaukee speech in favor of postal savings banks, directing special attention to that portion of the President's remarks in which he suggested that the postal funds could be invested in United States bonds.

Mr. Dolliver took up President Taft's Milwaukee speech in favor of postal savings banks, directing special attention to that portion of the President's remarks in which he suggested that the postal funds could be invested in United States bonds.

Vote To Be Taken To-day.

The postal savings bank bill was before the Senate all day. At 5:30 a recess was taken until 11:30 to-morrow, when a final vote will be taken on the bill.

Various amendments, most of them of minor importance, were adopted to-day. The only amendment over which there was any serious contention was offered by Senator Cummins. This amendment, which struck out the provision for the creation of a reserve, was adopted, 28 to 23.

Mr. Cummins' amendment was defeated without a roll call. The result of the vote was that the bill, as amended, will go to the President.

BUDGET ACTION TOLD.

British Premier Says It Will Come Up After Veto.

London, March 3.—What has come to be known as the "mystery of the budget," since Mr. Asquith, the Premier, made no mention of the fate of the financial measure when presenting the government's programme to Parliament, is being cleared up.

Mr. Asquith also indicated the attitude of David Lloyd George, Chancellor of the Exchequer, who stated that the government would not continue in office unless it was in a position to insure its veto proposal being passed into law.

A BRACER

FONSECA'S BIG MAJORITY.

Latest Returns Give Him Nearly Twice Vote of Rival.

Paris, March 3.—Further returns received up to date in the election for President give Marshal Hermes Fonseca a total vote of 23,500 and Mr. Ray Bascou 12,500.

French Election in April. Paris, March 3.—The Cabinet decided to postpone April 24 as the date for the next election of the Chamber of Deputies.

THE DAY IN WASHINGTON

(From the Tribune Bureau.)

Washington, March 3.—The HANKOW LOAN.—That the Secretary Knox is determined to discover the attitude of Great Britain toward Chinese railroads and toward Russia is the belief of those who have learned of a statement made at the Department of State to-day regarding the Hankow loan, as it is usually termed.

Whether or not it will be reported to the House at this session remains to be determined. Chairman Weeks of the Post-office Committee, and Representative Fessenden, who is a member, are strong advocates of this legislation, and it is believed no serious difficulty will be encountered in bringing the measure before the House if it is decided that such a course would be wise.

Whether or not the effort to discover Great Britain's attitude will prove successful cannot be foreseen, but that such is the purpose of to-day's announcement is generally believed.

TAFT'S PROPOSITION.—It became known to-day that the application of A. C. Shaw, the former law officer of the Forest Service, whom President Taft dismissed for cause, to practise before the Interior Department has been held up by the President.

Mr. Shaw is under suspicion in connection with the disappearance of certain records of the Interior Department which have now been found, but which he is supposed to have destroyed.

Mr. Shaw is under suspicion in connection with the disappearance of certain records of the Interior Department which have now been found, but which he is supposed to have destroyed.

DWIGHT ON FARMS.

Working for Improved Conditions in This State.

Washington, March 3.—"I have had in mind for some time," said Representative John W. Dwight, of New York, to-day, "a movement to aid in the betterment of agricultural conditions in New York State."

The time has come when every helpful citizen must be ready to lend his aid to uphold our agricultural interests and to put New York ahead of all the other states.

It would seem that the government has not been fully alive in the past to its responsibilities as regards the distribution of immigration. Literally thousands of immigrants have entered the port of New York in ignorance of the opportunities to be had in the unoccupied and half tilled farms east of the Alleghenies.

MINIMUM TO AUSTRIA.

President's Tariff Proclamation Settles Question.

Washington, March 3.—President Taft today issued a proclamation extending the minimum tariff rates of the Payne-Aldrich act to Austria-Hungary.

This action disposes of one of the most complicated situations with which the tariff expert here had to deal.

H-F MEDAL FOR ARGENTINA.

Minister Sherrill Presents It to President Alcorca.

Buenos Ayres, March 3.—The American Minister, Charles H. Sherrill, to-day presented to José Figueroa Alcorca, President of the Argentine Republic, the gold medal struck by the Hudson-Fulton Celebration Commission.

Accompanying the medal was an address, expressing thanks for the participation of Argentina in the recent celebration and felicitating the President upon the significant naval representation of the republic at the festival.

TO REPRESENT U. S.

ESTRADA GUERRILLA

TO TAKE TO BUSH.

Defeated, Hopes to Force American Intervention.

(From the Tribune Bureau.)

Bluefields, March 3.—General Estrada, head of the provisional government and leader of the insurgents, said to-day that he intended to withdraw his forces into the bush and oppose the advance of Madriz to the bitter end.

The provisional government wishes to force American intervention, if possible, because it cannot consistently ask for it in the face of its many refusals to consider the peace proposals made by Madriz at the time when it seemed that victory to the provisionals was almost assured.

General Estrada did not even answer the proposal advanced by the consular body at Managua, believing that it merely indicated that Madriz was on his last legs.

It is pointed out that an appeal from General Estrada to the United States government now would defeat its own end, as that government, having held aloof in the more prosperous times of the provisionals, hardly could be expected to jump into the breach to save a cause already practically lost.

General Estrada had a long conference to-day with Secretary of State Diaz and Governor Riviera.

CHART CONTROVERSY SETTLED.

Weather Bureau and Hydrographic Office to Have Equal Credit.

Washington, March 3.—The controversy between the Weather Bureau and the Hydrographic Office of the navy over the publication of the government's monthly pilot chart is settled in the legislative appropriation bill, which was reported to the House to-day.

Weather Bureau and Hydrographic Office to Have Equal Credit.

The bill includes a provision requiring that hereafter there shall not be detailed to the Hydrographic Office more than one naval officer at any one time, and that the office of the pilot charts prepared by that office are to have conspicuously printed on their acknowledgment of both offices as sources of the data used.

WHITE HEADS LIST.

Knorr Names Delegates to Pan-American Conference.

(From the Tribune Bureau.)

Washington, March 3.—The personnel of the delegation which will represent the United States at the fourth International Conference of American States, which is to be held in Buenos Ayres beginning July 9, was announced to-day by Secretary Knox.

Henry White, former Ambassador to Paris, will be the chairman. The other members will be Colonel Hugh Herbert Crowder, assistant judge advocate general of the army, who has had extensive experience in Cuba and the Philippines, particularly in the former country, with the army of pacification.

Lawrence Charles Quintero, of Louisiana, former consul general to Costa Rica; Paul Samuel Reinisch, professor of political science at the University of Wisconsin; and David Kinley, dean of the graduate school and director of the School of Commerce of the University of Illinois. The delegation will be accompanied by John Barrett, director of the Bureau of American Republics, who will go as head of that institution.

The delegation will assemble in Washington at least a month before sailing to receive instructions. It will sail about June 10 for Buenos Ayres, and it is probable that a naval vessel or an army transport will be used for that purpose.

Senator Root would have been the chairman of the delegation except for the fact that he has been designated as chief consul of the United States at the arbitration of the Newfoundland fisheries case at The Hague.

SUBSIDY LOBBY ALLEGED.

Steenerson Wants Merchant Marine League Investigated.

Washington, March 3.—Larges that officers of the Merchant Marine League in Cleveland are endeavoring to obtain the enactment of ship subsidy legislation by corrupt means are contained in a resolution introduced in the House to-day by Representative Steenerson of Minnesota.

The resolution provides for the appointment of a special committee of seven members to investigate the charges. It was referred to the Committee on Judiciary.

ROOSEVELT HONORS

London Preparing Great Welcome for Ex-President.

(From the Tribune Bureau.)

London, March 3.—The Court of Common Council to-day unanimously adopted a resolution conferring the honorary freedom of the city on Theodore Roosevelt, former President of the United States, in recognition of his distinguished services in which he filled the office of President of the United States and for the eminent services which he rendered for the cause of civilization and the promotion of amicable relations between foreign nations.

The document conferring the freedom of the city on its guest will be presented to Mr. Roosevelt in a gold casket at the Embassy of Great Britain prior to the civil luncheon in the great hall, to which the most distinguished men of the nation have been invited to meet the ex-President.

The mover of the resolution and the member who seconded the same spoke in the most eulogistic terms of Mr. Roosevelt, declaring that the city would honor itself in fitting the distinguished American, whose name is big enough to hold the whole world in friendship.

A reception committee was appointed and specially charged to see that nothing was lacking to make the event memorable and "worthy of Mr. Roosevelt and his commanding position in the world."

Colonel Roosevelt and his party left Managua to-day for Lake No. Mr. Roosevelt may take a shot at the antelope of that vicinity. The party is due here, according to the local understanding, on March 11.

PARIS ITSELF AGAIN.

Mi-Carema's Liveliness Atones for Mardi Gras Gloom.

Paris, March 3.—The celebration of Mi-Careme to-night was especially animated, the Mardi Gras having been cancelled on account of the flood, and it was in the nature of a double festival.

WAR ON HOUSE FLY.

Concerted Attack To Be Made by Government Entomologists.

Washington, March 3.—A concerted country-wide attack is to be made on the house fly this year, according to Dr. Howard, chief entomologist of the Department of Agriculture, who testified to-day before a House committee.

DISORDER IN TIBET.

Chinese Resident Considers the Situation Justifies the Use of Force.

Peking, March 3.—Dispatches from Tibet dispense the government assurances of tranquility in that country following the invasion of the Chinese troops.

Advertisement for Wanamaker's leather goods. Text: 'Store Ready at 8:15 A. M. Directly on the Interborough Subway. Where Quality Comes First. Where Prices Are the Lowest Quality Considered. Twice a Year We Get These Samples of Fancy Leather Goods. Today there are \$6000 worth to sell for \$3000. All the year round the exact duplicates of many of these articles are here at just twice today's prices. We are one of this maker's largest customers, so it is only natural that he gives us (and our patrons) the advantage of his end-of-season clearances. To itemize the various kinds of articles in this disposal would require a great deal of space, so it is sufficient to say that everything a man or woman could wish in fancy leather goods is here. At \$10 there are beautiful fitted dressing cases, also some at various prices down to \$3. There are hand-bags, desk sets, jewel cases, auto kits, manicure sets, writing portfolios, medicine cases, bottle sets, handkerchief cases, cigar cases, wallets, military brush cases, book covers, telephone registers, desk baskets, motor records, and dozens of other things ranging all the way from \$1 to \$7.50. Main Aisle, Old Building. prices from 10c to \$1 prevail. Purses, match cases, address books, frames, etc., for 10c. Watch bracelets, ink wells, cigar cases, manicure cases, visiting lists, and a host of other newfuds in the collection from 10c to \$1. Basement, Old Building. The Frenchwoman of All Others In The World Pays the Most Careful Attention to the Matter of the Corset. THAT must be right, no matter if the gown is a little less costly. As a result, the carriage of the shoulders, the proud little uplift of the head—all that which goes to give "presence"—are hers. Correct corseting is bound to throw back stooping shoulders and to prevent the slovenly habits of walking into which one unconsciously lapses. But it must be the corset suited to one's figure. The expert fitters of the Wanamaker Corset Salons have learned by experience just what model is best adapted to various types of women. They know that the most excellent model is a failure on some figures. And either in the beautiful French "Lillian," from \$8 upwards, the imported "Frances," from \$2.75 up, the "Parisienne," from \$5 up, and the good American "L. R.," at from \$1 to \$5, the model we give will be the one just right for "Madame." Corset Salons, Third floor, Old Building. Formerly A. T. Stewart & Co. Broadway, Fourth Avenue, Eighth to Tenth St.
