New-York Tribune.

SATURDAY, JUNE 11, 1910.

This newspaper is owned and published by The Tribune Association, a New York corporation; office and principal place of business, Tribune Building, No. 154 Nassau street, New York.

THE NEWS THIS MORNING.

CONGRESS.—Senate: In connection with the sundry bill, there was a revival of the tariff discussion, Senator Beveridge, the principal speaker, advocating the expenditure of \$250,000 to aid in procuring information looking to the proper administration of the tariff law.

FOREIGN.—Theodore Roosevelt, Mrs. Roosevelt, Mrs. Nicholas Longworth and Miss Ethel and Kermit Roosevelt sailed for New York from Southampton on the Kaiserin Augusta Victoria.

DOMESTIC.—The federal grand jury in Washington indicted the Western Union Telephone Company for forty-two violations of the bucket shop law.

THE WEATHER.—Indications for today: Unsettled, showers. The temperature yesterday: Highest, 81 degrees; lowest, 55.

MR. HARRISON'S MISTAKE.

If Representative Francis B. Harrison wishes to consider himself a "martyr" because President Taft declined to receive him as a caller at the White House nobody will be heartless enough to begrudge him that harmless exhibition of wounded self-importance.

colony pay more is easily understood. The trouble is that such exactions will almost certainly discourage settlement, retard the growth of the colony and the development of its resources, and thus militate against the very end which the government desires and which alone can vindicate the possession of the colony.

THE GOVERNOR'S SPEECH.

Governor Hughes's speech at Batavia last night disposes of the quibbling criticism that he was inconsistent in indicating a willingness to accept the Cobb compromise bill.

DOING THEIR OWN THINKING.

"The Baltimore Sun" mildly dissects from our conclusion that the much advertised "irrepressible conflict" between the insurgents and the "stand-patters" at Washington is not taken very seriously by the Republican voters.

Republicans do not "see red," however, on the issues which align the insurgents against the "stand-patters" at Washington. That has been clearly demonstrated in the Iowa, South Dakota and Pennsylvania primaries.

SAVING.

The city is confronted with the question whether or not to appropriate \$15,000 for Fourth of July fireworks.

All the dangers of aviation in Germany are no enthusiastic aerial traveler, was recently fined \$5 in Berlin for flying over the city in an aeroplane, on the ground that his flight imperiled the safety of the people of the capital.

GERMAN COLONIAL FINANCE.

The acceptance of Mr. Dernburg's resignation as Germany's Colonial Minister and the appointment of Mr. Lindquist as his successor must be interpreted as meaning at least one radical change in colonial administration.

ELECTRICITY ON THE FARM.

A few weeks ago The Tribune mentioned the enterprise of an Illinois farmer, who utilized a stream which flows through his land for the development of electricity.

There certainly is room for doubting on purely practical and non-ethical grounds the wisdom of such a plan. German Southwest Africa has not been a particularly profitable enterprise.

normal conditions are favorable. If provision should be made for supplementing the natural supply, a more uniform crop could be secured.

THE WHITE HOUSE.

Washington, June 10.—President Taft, in reply to a cable dispatch from the Emperor of Japan expressing heartfelt thanks for the warm reception accorded Prince and Princess Hirocyama, sent the following message:

SUMMER WORK FOR CHILDREN.

Open Churches and Synagogues for Their Good.

To the Editor of The Tribune. Sir: The authoritative words of Dr. Gulick recently as to the number of square feet each child on the East Side commands for play purposes should not be overlooked by the churches and synagogues of Manhattan, during the coming summer days.

One reason advanced by the solid Democratic membership of the House and Senate is that regulation of railroad capitalization would be an invasion of state rights.

The George Washington University, of the District of Columbia, on the pretentious plans of which and its efforts to secure a subsidy from Congress we have recently commented, is now reported to be in serious financial straits.

The boys in Jersey City who have given up profane swearing because they want to be policemen might have been actuated by a loftier motive, but to do well for such a reason is better than to do it at all.

If half the fearsome tales that are told about Mexican despotism are true, the land beyond the Rio Grande must be a dreadful place to live in.

The first shipments of American petroleum to Smyrna, Asia Minor, have just been reported by the United States Consul at that port.

All the dangers of aviation in Germany are no enthusiastic aerial traveler, was recently fined \$5 in Berlin for flying over the city in an aeroplane.

The railroads entering Duluth have been administered as though their builders had been trained on the practice.

Other cities are comparatively peaceful, but there is any reason why New York should not be, especially when the city's laws provide for at least a measure of surveillance of the undesirable and unwelcome assaults on the tyrantrum?

LET US HAVE PEACE.

To the Editor of The Tribune. Sir: In his Oxford speech Mr. Roosevelt asks why "empires knit by bonds of speech and culture show periods of extraordinary growth, and again of sudden and almost apocalyptic nerve racking, and finally provoking and temper destroying grunts, groans, yells, howls, shrieks or some form of highly obnoxious noise was absent from the tortured district."
