BOY DROWNED AT BEACH

Intense Heat Drives Thousands to the Seashore.

GIRL FALLS OFF JETTY

Saved by Nearby Swimmers, Doctor Works an Hour to Restore Her.

One boy lost his life and half a dozen others had narrow escapes from drowning at the beaches yesterday afternoon. Thousands were driven to the shore by the intense heat in the city, which continued with no diminution, and humidity even more oppressive than on Sunday.

Louis De Falcon, of No. 191 Mott street, went swimming off Thompson's Walk, Coney Island, in the afternoon. He got out in deep water and was swimming back to shore when a cramp seized him.

When Miss Mabel Evans reached Coney Island from Orange, N. J., her home, yesterday morning, there was not much to amuse her, and she wandered toward the ocean.

Miss Evans walked about halfway out when she stepped on a section of the jetty made slippery by the waves. She fell into the water, sank and then came to the surface.

Patrolman Clancy, of the Health Squad, in Queens, rescued two small children at Kelleys avenue, Rockaway beach, in the afternoon, but didn't find out who they were.

Clancy was inspecting bathhouses, when he saw two children wading. A few minutes later the children were swept from their feet by a wave, and before they could get up, were beyond their depth.

The woman threw her arms about Clancy's neck, after kissing and hugging the children. She hailed the officer as a hero, and the saver of her children. She was calmed and said she lived at No. 11 Kelley avenue.

PITTSBURG HEAT KILLS FOUR

Floods Cause Three Deaths and Immense Property Damage.

Pittsburgh, June 20.—Floods in Western Pennsylvania have already caused three deaths and an immense property damage. There were four deaths and a number of prostrations from the excessive heat here today.

Julius Desroche, aged sixty-two years, was drowned in the Ohio River as he attempted to reach the north shore of the stream near Bruno's Island today.

At Smith's Ferry, Ralph and Merrill Wank, brothers, aged fifteen and twelve years respectively, were drowned while trying to ford the middle fork of the Beaver River. At Point Marion millions of feet of lumber and hundreds of logs are being carried off the Cheat River, which is nearing flood stage.

MR. TAFT THANKS OKLAHOMA

Appreciates Stand Taken by State Republican Convention.

Guthrie, Okla., June 20.—Chairman James A. Hays of the Republican State Committee received the following telegram from President Taft relative to the state convention here last Thursday, which unanimously endorsed the national administration.

DANCE HALL BILL SIGNED

Albany, June 20.—Governor Hughes tonight signed the bill of Senator Brough, providing for the licensing and inspection of dance halls in New York City.

BILLS SIGNED BY GOVERNOR

Extension of State Agricultural College Provided For.

Albany, June 20.—Governor Hughes has signed the bill of Assemblyman Boshart providing for the development of a plan adopted by the Cornell University for the extension of the State College of Agriculture at Ithaca.

The Governor also approved measures appropriating \$1,000,000 to aid in the construction of a stone road from New York to Buffalo; authorizing the State Lunacy Commission to contract for the erection and completion of the Mohonk State Hospital for the Insane.

The Governor also approved measures appropriating \$1,000,000 to aid in the construction of a stone road from New York to Buffalo; authorizing the State Lunacy Commission to contract for the erection and completion of the Mohonk State Hospital for the Insane.

The Governor also approved measures appropriating \$1,000,000 to aid in the construction of a stone road from New York to Buffalo; authorizing the State Lunacy Commission to contract for the erection and completion of the Mohonk State Hospital for the Insane.

NO RELIEF FROM HUMIDITY

Weather Bureau Cautious About Predicting Anything Cool.

Although the official mercury when at its highest point yesterday was three degrees lower than on Sunday, eleven prostrations from heat were reported. Six victims of the summer's tardy heat wave were in Brooklyn and five in Manhattan.

The humidity ranged from 43 to 49 per cent, and indications were abundant yesterday that the spongy air cushion resting on the greater city would absorb and absorb until the moisture taken up dropped in the form of cooling rain.

The local weather bureau would not venture an opinion yesterday on the possibility of a storm. The best that Mr. Scarr would offer in the weather line was the elastic prophecy: "Generally fair on Tuesday."

Judging from reports, Jensen's case most probably will be decided by the Supreme Court. The Society for the Prevention of Cruelty to Animals declared last night that no horses were affected by the heat. It was hoped in the forenoon that a promising six-mile zephyr from the northwest would "make some cool somewhere," but it didn't pan out.

The peanut supply of Bitter Park was short yesterday. In fact, it has been short since Saturday, when the carts of the Greek vendors were scattered hither and thither in the path of the storm.

NEAR DEATH IN ROOF TANK

Boy Who Tumbles in Narrowly Escapes Drowning.

Refusing to take the dare of a companion, Dominick Pardo, ten years old, climbed up a four-foot pipe leading from the roof of the cement house at No. 223 East 11th street, to the top of a twelve-foot tank yesterday afternoon, and when he reached the top turned around to look down at several boys playing on the roof. He lost his hold and tumbled into the water.

The boys yelled and several tenants of the building ran to the roof. Most of them were Italian. When they heard what was the matter several ran downstairs and came back with axes, with which they chopped a large hole in the tank. Water that poured from it flooded the roof and trickled to the apartments below.

In the meantime a young man climbed to the edge of the tank and grabbed Dominick. Then he fell into the water, but he managed to hold the boy above water. Patrolmen Cox and West, of the East 104th street station, got both out. Dr. Elliott, of Harlem Hospital, resuscitated Dominick and he was able to go home. The water did about \$500 damage to apartments in the building.

ESCAPES ELECTRIC CHAIR

Condemned Murderer Declared Insane by Commission Named by Hughes.

Albany, June 20.—Declared insane by a commission appointed by Governor Hughes to examine him, Luigi Gambacorta, a condemned murderer, for the present, at least, has escaped the electric chair. Gambacorta murdered his cousin, Ramondo Ferrigno, in Buffalo last November. He was convicted and sentenced to death, and the sentence was affirmed by the Court of Appeals.

MOVES TO START YONKERS CARS

Mayor Gets an Order for Receiver to Explain to Supreme Court.

Upon application of Mayor James T. Lennon of Yonkers, Justice Martin J. Keogh, of the Supreme Court, yesterday issued an order directing Leslie Sutherland, receiver of the Yonkers Railroad Company, to show cause why the trolley cars on the Yonkers lines, which have not run since the strike of the motormen and conductors began last Wednesday, are not operated. The order is returnable in the County Court house at White Plains this morning.

Mayor Lennon's petition to the Supreme Court caused great surprise, as it had been understood that he would endeavor to secure a remedy by bringing the situation before the Yonkers Board of Public Service Commissioners. The Mayor's efforts to arbitrate the strike last week resulted in failure.

A. CARNEGIE IN STEERAGE

Boston, June 20.—Andrew Carnegie arrived in Boston today from Glasgow aboard the Allen Line steamer Numidian.

His name on the steamer passengers' list of the boat caused a sensation among the reporters assembled to meet the boat at the wharf.

A young Scottish immigrant finally acknowledged that he was Andrew Carnegie. The young Scot had a sense of humor, and he enjoyed keenly the discomfiture of the reporters when he admitted that his name was Andrew Carnegie.

"I'm just as good as the other man, and I'll be giving the other man a run for his money if I have half a chance," said he.

OHIO CONVENTION TO-DAY

Bryan in Apparently Hopeless Fight Against Harmon.

U. S. SENATORSHIP AT ISSUE

Movement to Sidetrack Atlee Pomerene with the Lieutenant-Governorship.

Dayton, Ohio, June 20.—The launching of a determined movement to compel the nomination for the lieutenant governorship of Atlee Pomerene, of Canton, two years ago Governor Harmon's rival for the governorship nomination, and just now an aspirant for the United States Senatorship and leadership in the fight for the endorsement of a candidate by the convention, marked the gathering here to-day and to-night of Harmon lieutenants, in advance of the Ohio convention, which will open tomorrow.

Governor Harmon himself followed his lieutenants here, twenty-four hours ahead of his schedule, and the Pomerene boom had well started. He refused to comment on the programme for the convention, beyond saying:

"It's to be an open convention. I am to be honored, and I will not appear as a dictator."

The effort to make Pomerene Governor Harmon's running mate, despite his refusal to consider himself in the light of even a receptive candidate, indicates the intention of the Harmon men to smother the feeble movement for a senatorial endorsement, demanded by William Jennings Bryan, but opposed by Governor Harmon and the majority of Ohio Democratic leaders.

The Harmon men have another task on their hands besides that of handling the lieutenant governorship and senatorial complication with fact. Harvey Garber, national committeeman and Ohio lieutenant of Bryan, is waging a relentless fight for control of the next State Central Committee. He is making the fight openly. In nine of the twenty-one district meetings tomorrow the Harmon and Garber men will clash in their effort to gain control of the committee, which names the state executive committee and is the working machinery of the party, both in the coming convention and in the national delegates are to be selected.

That this is the skirmish line of the next national campaign is indicated in this struggle, as well as in the building of the platform. In the platform, which will be the expression of Governor Harmon's ideas, will be planks assailing the present tariff and demanding a tariff for revenue only and the repeal of all duties on iron and steel.

That the result will be a victory for the reform of the federal income tax amendment and a pledge that the Democrats will put it through the next Legislature; an attack on extravagance and lax business methods in the federal government, and in Ohio a demand that a public utilities control law be enacted and that the commission form of government be provided for cities.

For Representatives in Congress H. O. Bursum, territorial chairman, will probably be elected from Southern and Charles A. Spiess from Northern New Mexico. For Governor Nathan Jaffa, present territorial secretary, seems to be the choice. Prohibition will be a difficult question to settle.

Judge B. Fall, Felix Martinez, Judge N. B. Laughlin and General Charles F. Easley will be leading Democratic candidates for the United States Senate. All are conservatives, opposed to the referendum, socialism and other new ideas. Granville A. Richardson, of Roswell, and O. A. Larzelere will be the principal Democratic candidates for Congress and O. N. Marron, H. B. Ferguson and W. B. Wood for Governor. Chief Justice W. H. Pope, it is expected, will be appointed to the new federal judgeship.

ON TRIAL FOR NURSE'S MURDER

Six Jurors Selected to Hear Case of Frank Schermerhorn.

Poughkeepsie, N. Y., June 20.—Six jurors were selected today to try Frank Schermerhorn, the coachman accused of murder in the first degree in causing the death of Sarah O. Bryner, nurse in the household of Barnes Compton, of Millbrook, early in the morning of January 22 last. Taking advantage of the absence of Mr. and Mrs. Compton, Schermerhorn, it is charged, disguised his face with burnt cork, crept into the house and assaulted the nurse while she slept by the side of little Polly Compton. Miss Bryner was found dead from strangulation, with her wrists tied with cord out from her elbows.

The police sought for a burglar until the afternoon of the day of the murder. Then Chief of Police McCabe, of this city, found Schermerhorn under a bed in his home, a short distance from the Compton house, with his throat cut by his own hand. The coachman later confessed.

WON BY "ARCHIE" ROOSEVELT

Prize for ex-President's Son at Groton School.

Groton, Mass., June 20.—Archie Roosevelt, youngest son of the ex-President, secured the Mrs. Lyman C. Joseph prize for excellence in mathematics at the annual graduation exercises of the Groton School which were held in the school gymnasium today. Mr. Roosevelt was not present, being in attendance at his brother's wedding in New York City, and so did not receive the prize personally. There were twenty members of the graduating class.

TRACKS STAY IN FULTON STREET

Justice Erlanger Sustained Yesterday the Demurrer of Gilbert H. Montague, Receiver of the Fulton Street Road Company, in the action brought by the city for the removal of the company's tracks. The city sought to have the tracks, now in disuse, declared a nuisance and trespass, and demanded that the receiver remove them and restore the street to a good condition.

Justice Erlanger held that to tear up the tracks would be equal to a revocation of the franchise. The court said that as the franchise came from the state and not from the city, the latter could not revoke it.

GATINS RELEASED ON BAIL

Washington, June 20.—Joseph F. Gatins, of New York, one of the men indicted for conspiracy in the anti-bucket shop campaign being waged by the Department of Justice, gave bail for \$5,000 in Criminal Court here today. Gatins had been doubly indicted for conspiracy and for operating a bucket shop in the District of Columbia.

"Just Say" HORLICK'S

It Means Original and Genuine MALTED MILK The Food-drink for All Ages.

More healthful than Tea or Coffee. Agrees with the weakest digestion. Delicious, invigorating and nutritious. Rich milk, malted grain, powder form.

A quick lunch prepared in a minute. Take no substitute. Ask for HORLICK'S. Others are imitations.

STATEHOOD BILL A LAW

President Signs Measure Admitting New Mexico and Arizona.

Washington, June 20.—President Taft signed the statehood bill at 1:40 o'clock this afternoon in the presence of Postmaster General Hitchcock, Senator Brewster, chairman of the Senate Committee on Territories; Representative Hamilton, chairman of the House Committee on Territories; Delegate Cameron, of Arizona; Delegate Andrews, of New Mexico; James T. Williams, Jr., editor of "The Tucson Citizen," and several others.

Two pens were used in affixing the signature "Approved, Wm. H." was signed with a solid gold pen, made to order for Postmaster General Hitchcock, who has done much hard work in putting the bill through. "Taft" was written with a big eagle feather pen, presented by Delegate Andrews, and "June 20, 1910," was written with the gold pen. After signing the bill the President congratulated the citizens of the territories who were present, and was heartily congratulated by them.

After the President had affixed his signature Secretary Norton used a blotter and gave it to Delegate Cameron, who wanted it for a souvenir. The men have been friends for years.

Santa Fe, N. M., June 20.—All of New Mexico is enthusiastic over the signing of the statehood bill to-day. Santa Fe, Las Vegas and Batoon held mass meetings in the plaza at Santa Fe and adjourned with three rousing cheers for President Taft. Telegrams of felicitation were exchanged between Acting Governor Young of Arizona and Acting Governor Jaffa of New Mexico.

Governor Jaffa has already prepared the appointment for the constitutional convention of a hundred delegates, two-thirds being Republican. There will be no delay in adopting a constitution, as the Republican party of the territory is conservative and emphatically opposed to socialistic ideas. The constitution is sure to meet President Taft's approval. It is proposed to have the constitution adopted by the people in time to lay before Congress in December.

New Mexico will be Republican by from five to ten thousand in a total vote of sixty thousand. Republicans are preparing to capture the Senate seats. Thomas B. Catron and Solomon Luna are picked as the winners, but a strong fight will be put up by Governor Mills, ex-Governors Prince, Otero and Carey, W. H. Andrews, delegate to Congress, and Colonel W. H. H. Llewellyn. For Representatives in Congress H. O. Bursum, territorial chairman, will probably be elected from Southern and Charles A. Spiess from Northern New Mexico. For Governor Nathan Jaffa, present territorial secretary, seems to be the choice. Prohibition will be a difficult question to settle.

Judge B. Fall, Felix Martinez, Judge N. B. Laughlin and General Charles F. Easley will be leading Democratic candidates for the United States Senate. All are conservatives, opposed to the referendum, socialism and other new ideas. Granville A. Richardson, of Roswell, and O. A. Larzelere will be the principal Democratic candidates for Congress and O. N. Marron, H. B. Ferguson and W. B. Wood for Governor. Chief Justice W. H. Pope, it is expected, will be appointed to the new federal judgeship.

WON'T FIGHT WYMAN WILL

New York Woman Withdraws Appearance in Case.

Salem, Mass., June 20.—Mrs. Mary Cutler, of New York, a contestant of the will of Isaac C. Wyman, of Marblehead, who left his millions to Princeton University, withdrew through her counsel her appearance in the case at the Essex County Probate Court. Her attorney stated that further investigation had convinced him that his client had no ground for contesting the will. William H. Miles, counsel for the will, said that there had been no compromise nor had there been any promise of a payment as a condition of settlement.

ORDERED MAYOR'S ARREST

Helena Judge Said, "Keep Him in Jail Until I Order Release."

Helena, Mont., June 20.—Becoming impatient at the failure of Mayor Edwards to reinstate Leonard Bailey as captain of police as decreed by both the Supreme and district courts, Judge Clements issued a warrant today for the arrest of the Mayor, and gave the Sheriff instructions to keep him in jail "until I order his release."

Mayor Edwards was taken into custody, but before the jail was reached the court's orders were observed in a manner satisfactory to the council for the police captain and other officers who were removed. The Mayor restores two discharged policemen to the force, but not to the payroll.

CHICAGO TOO WINDY CITY

Curtiss Will Not Enter Long Contest Personally.

Chicago, June 20.—"Chicago is a poor place for aeroplanes because it is the 'Windy City,'" Glenn H. Curtiss thus took a rap at the city to-day in the course of a general discussion of aviation. Mr. Curtiss was a Chicago visitor on his way from Louisville to Minneapolis, where he will fly at an aviation meet.

"The 'Windy City' is a poor place for good flights," Mr. Curtiss explained, "for the simple fact that it is the 'Windy City.' The winds which travel in cycles are liable to veer suddenly, which makes it difficult to attempt a flight. It is not dangerous to attempt a flight, but it is not a good place for aeroplanes, nor do I wish to discourage any efforts which local amateurs may be contemplating. There is no such thing as a steady wind. It does not exist, but in some places winds are less steady than in others. Chicago is one of these."

"Do you expect to enter the Chicago-New York contest?" Mr. Curtiss was asked. "No, I do not believe I shall enter personally, but one of my machines will take part," he answered. "That will be a difficult undertaking and it may be that none will be successful. When I went from Albany to New York I had my machine set for the distance, but from Chicago to New York is such a distance that a machine could not be set to make the different stages in the journey. There would be a large element of luck. It will be a hard undertaking no matter how easy the promoters attempt to make it."

DANGEROUS FOR AUTOMOBILES

Road Crossings at Railroads.

Albany, June 20.—S. Percy Hooker, chairman of the State Highway Commission, told the Public Service Commission to-day that a majority of the existing crossings of steam railroads by improved state roads were at such a degree of curvature that their crossing by automobiles at reasonable speed was dangerous. The commission had before it the application of the State Highway Commission for modification of features of a proposed crossing of the Lehigh Valley in the town of Farmington, Ontario County.

The Highway Commission and the town authorities contended that inasmuch as the original drawings contemplated a crossing over two tracks they should not be asked to pay a proportion of constructing a span over six tracks. The company held that the complete span was necessary. Amended plans embodying changes deemed necessary by the Highway Commission are to be submitted.

HAMILTON IN TWO FLIGHTS

Nashville, Tenn., June 20.—Charles K. Hamilton made two brief aeroplane flights to-day. He was in the air seventeen minutes in all. The highest altitude he attained was about eight hundred feet.

NEW YORK WOMAN WITHDRAWS APPEARANCE IN CASE

Salem, Mass., June 20.—Mrs. Mary Cutler, of New York, a contestant of the will of Isaac C. Wyman, of Marblehead, who left his millions to Princeton University, withdrew through her counsel her appearance in the case at the Essex County Probate Court. Her attorney stated that further investigation had convinced him that his client had no ground for contesting the will. William H.
